

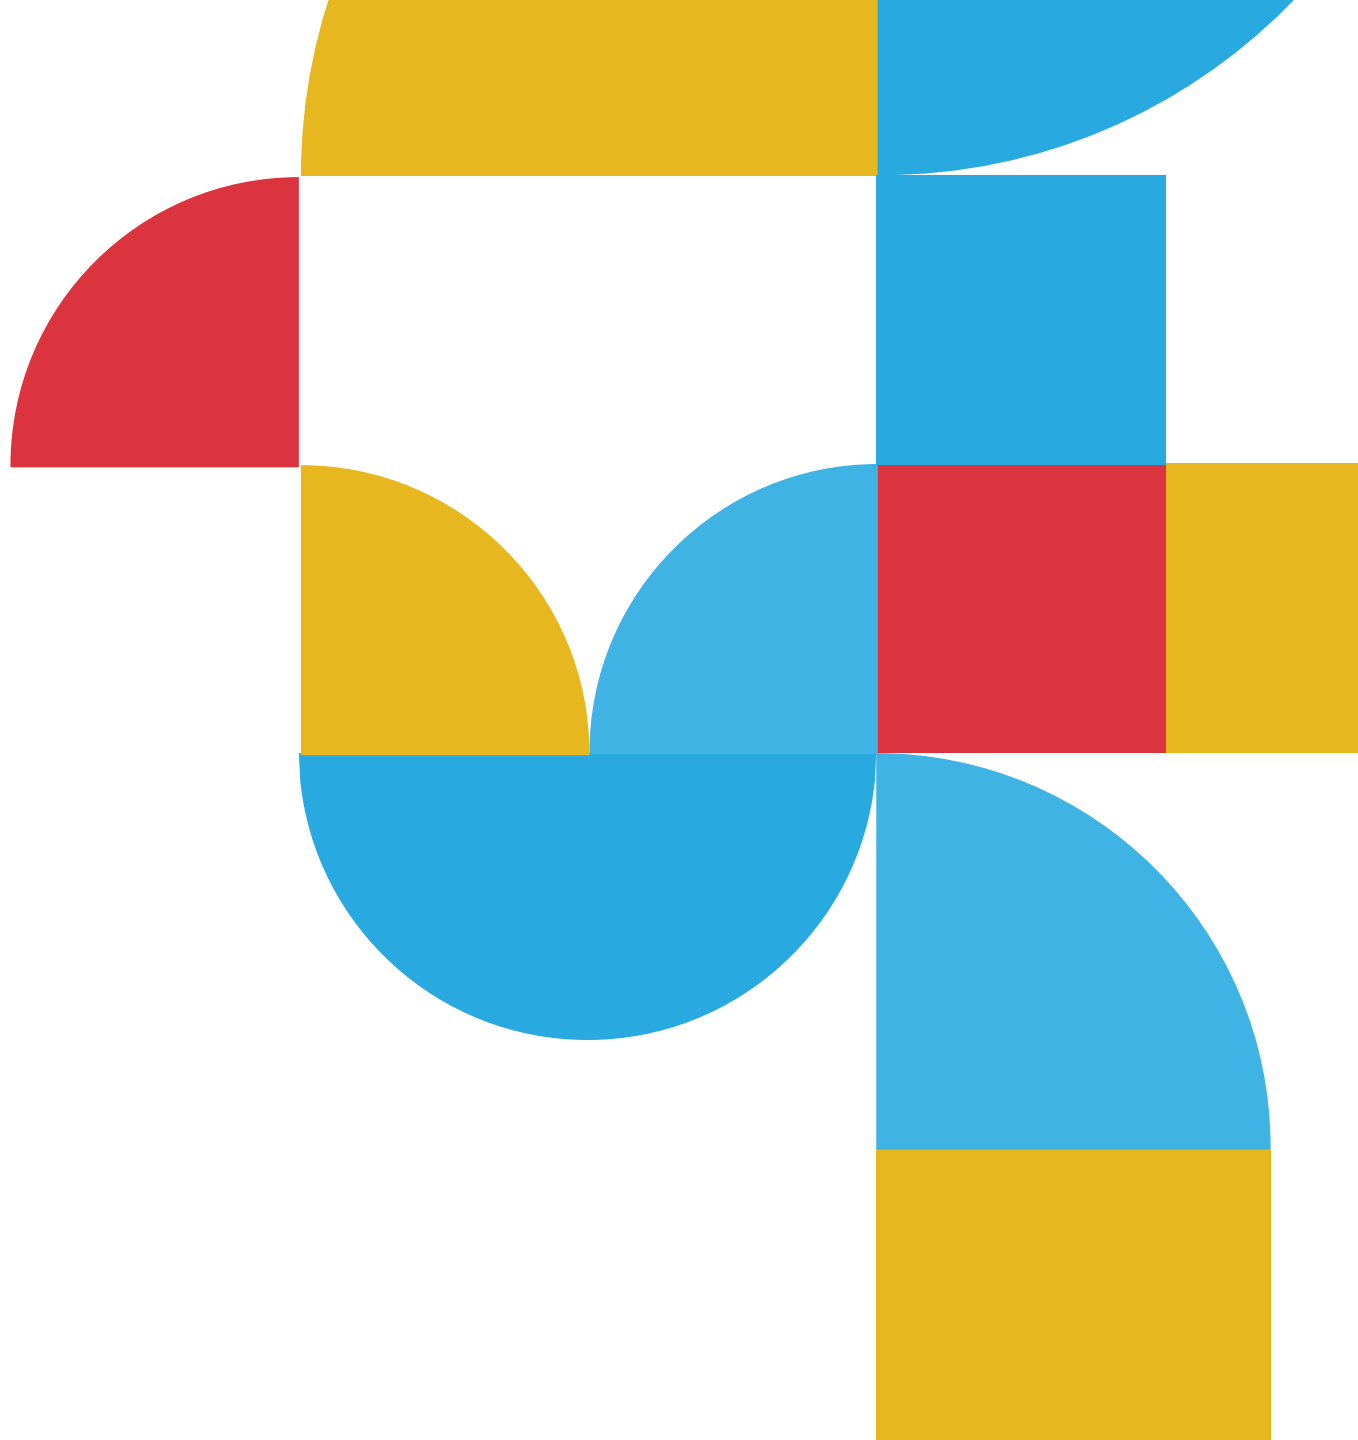

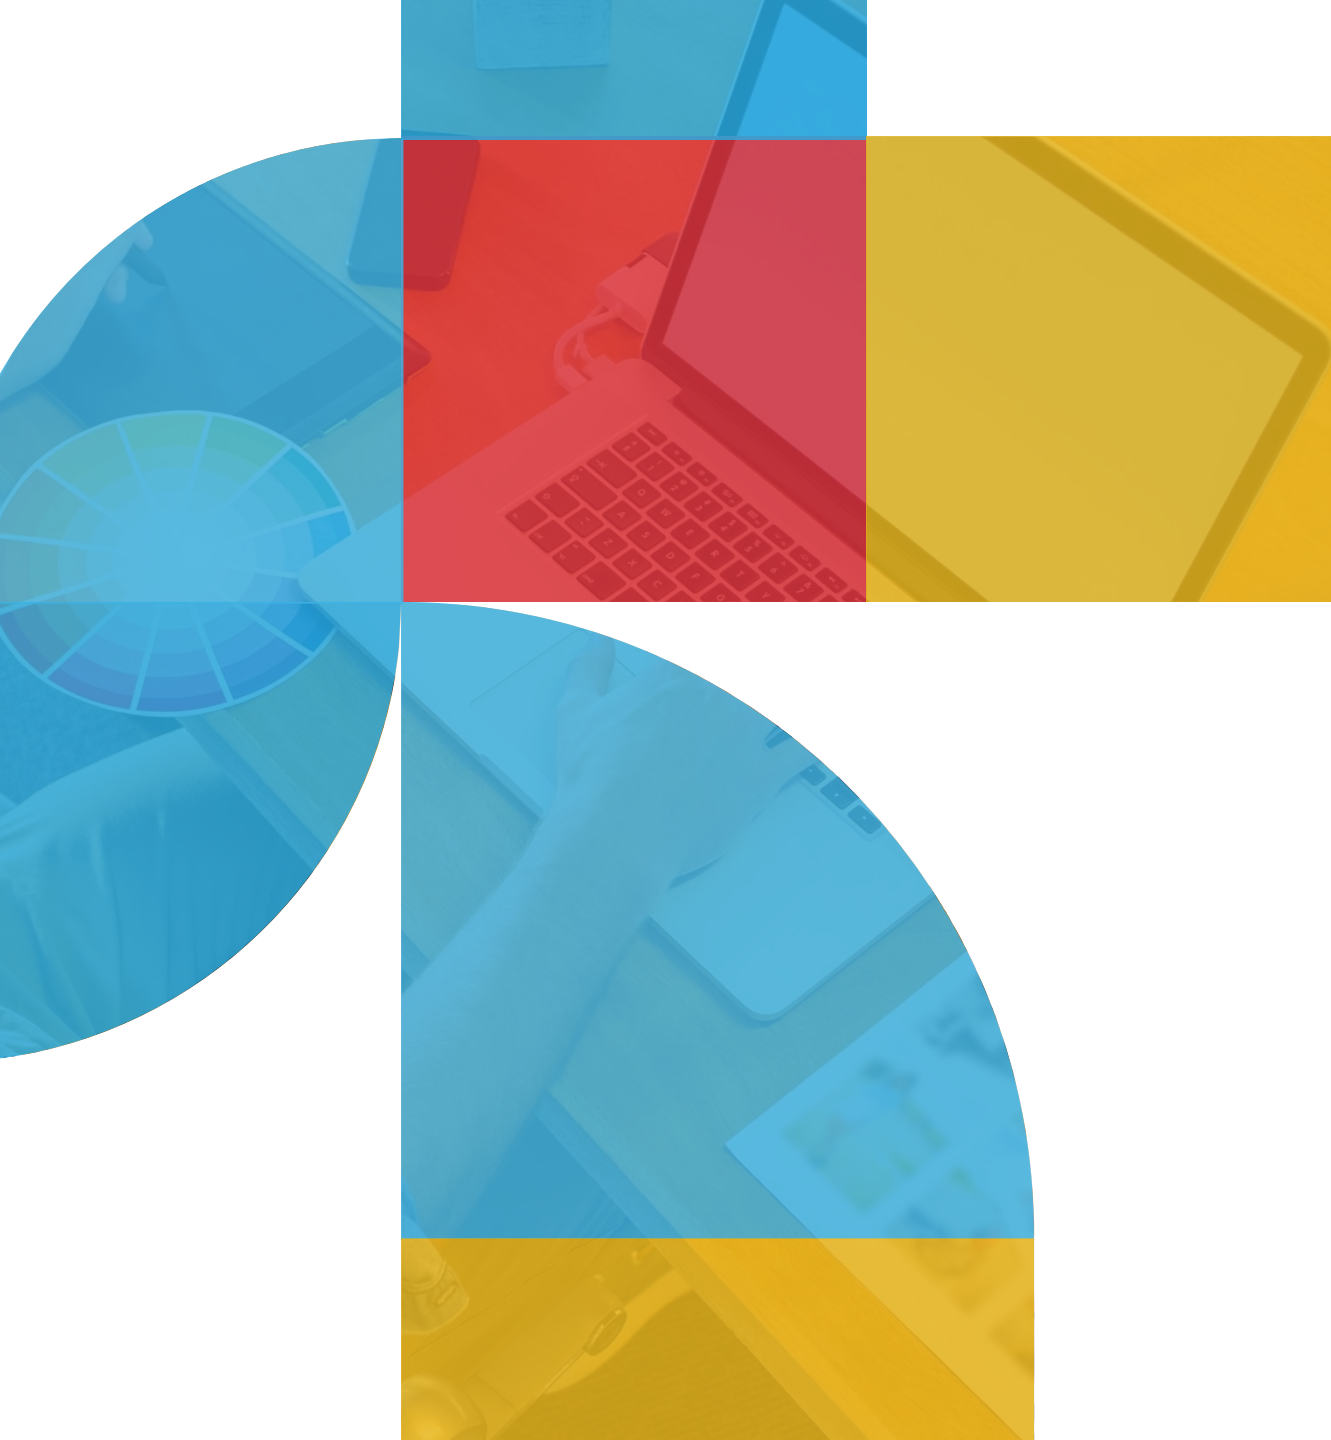

GRAPHIC
DESIGN

Lesson Objectives

- Explore the elements of design ◆
- Applying the principles of design ◆
- Understanding visual hierarchy ◆
- Introduction to the design cycle ◆

Lesson Challenge Feedback

Identify anything consisting of:

- Illustrations
- Text
- Photos

Foundation of Good Design

Elements

The building blocks of your design

Principles

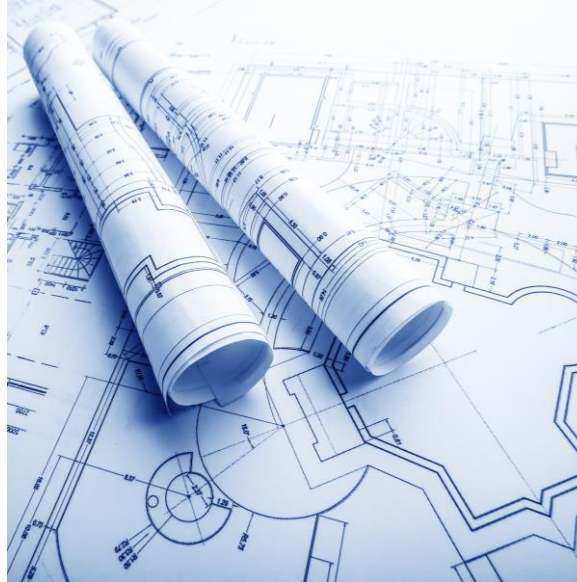

How to apply these building blocks

Foundation of Good Design

Elements = Material

Principles = Plan

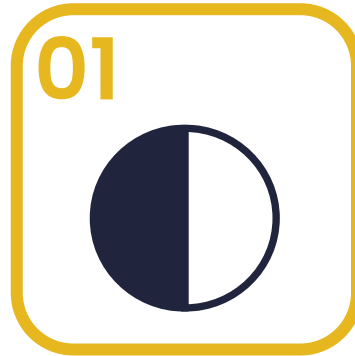

Designer = Builder

= Effective visual hierarchy

The elements of design

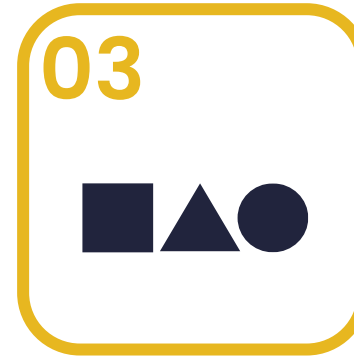

Space

Line

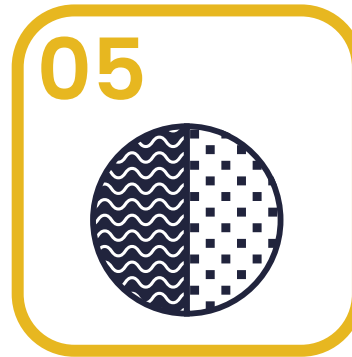

Shape

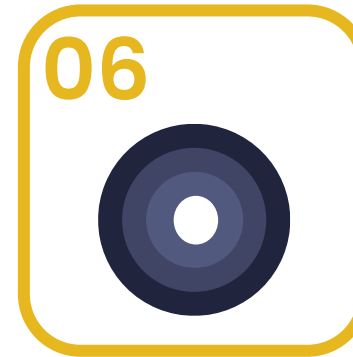

Size

Texture

Value

Colour

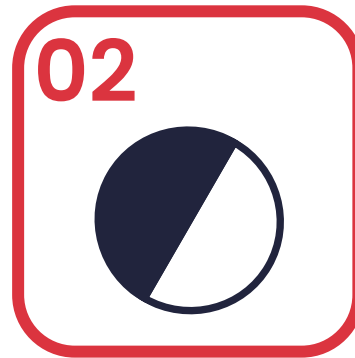

The principles of design

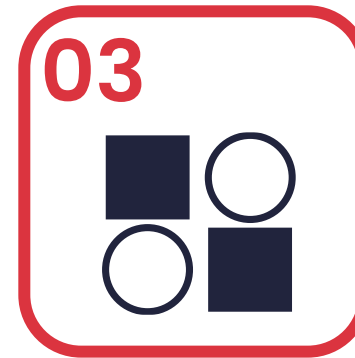

Focal point

Contrast

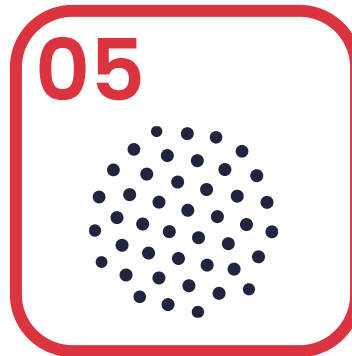

Balance

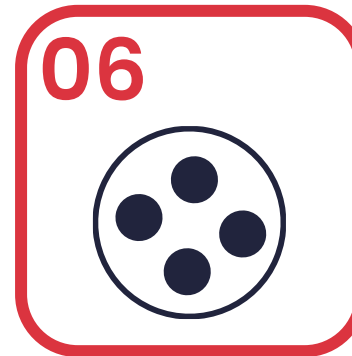

Movement

Pattern

Unity

Gestalt theory

THE ELEMENTS OF DESIGN

Space

- Negative space – empty areas
- Positive space – filled areas
- Essential for legibility
- Provides a visual rest

Space

Negative space – empty areas

Positive space – filled areas

Essential for legibility

Provides a visual rest

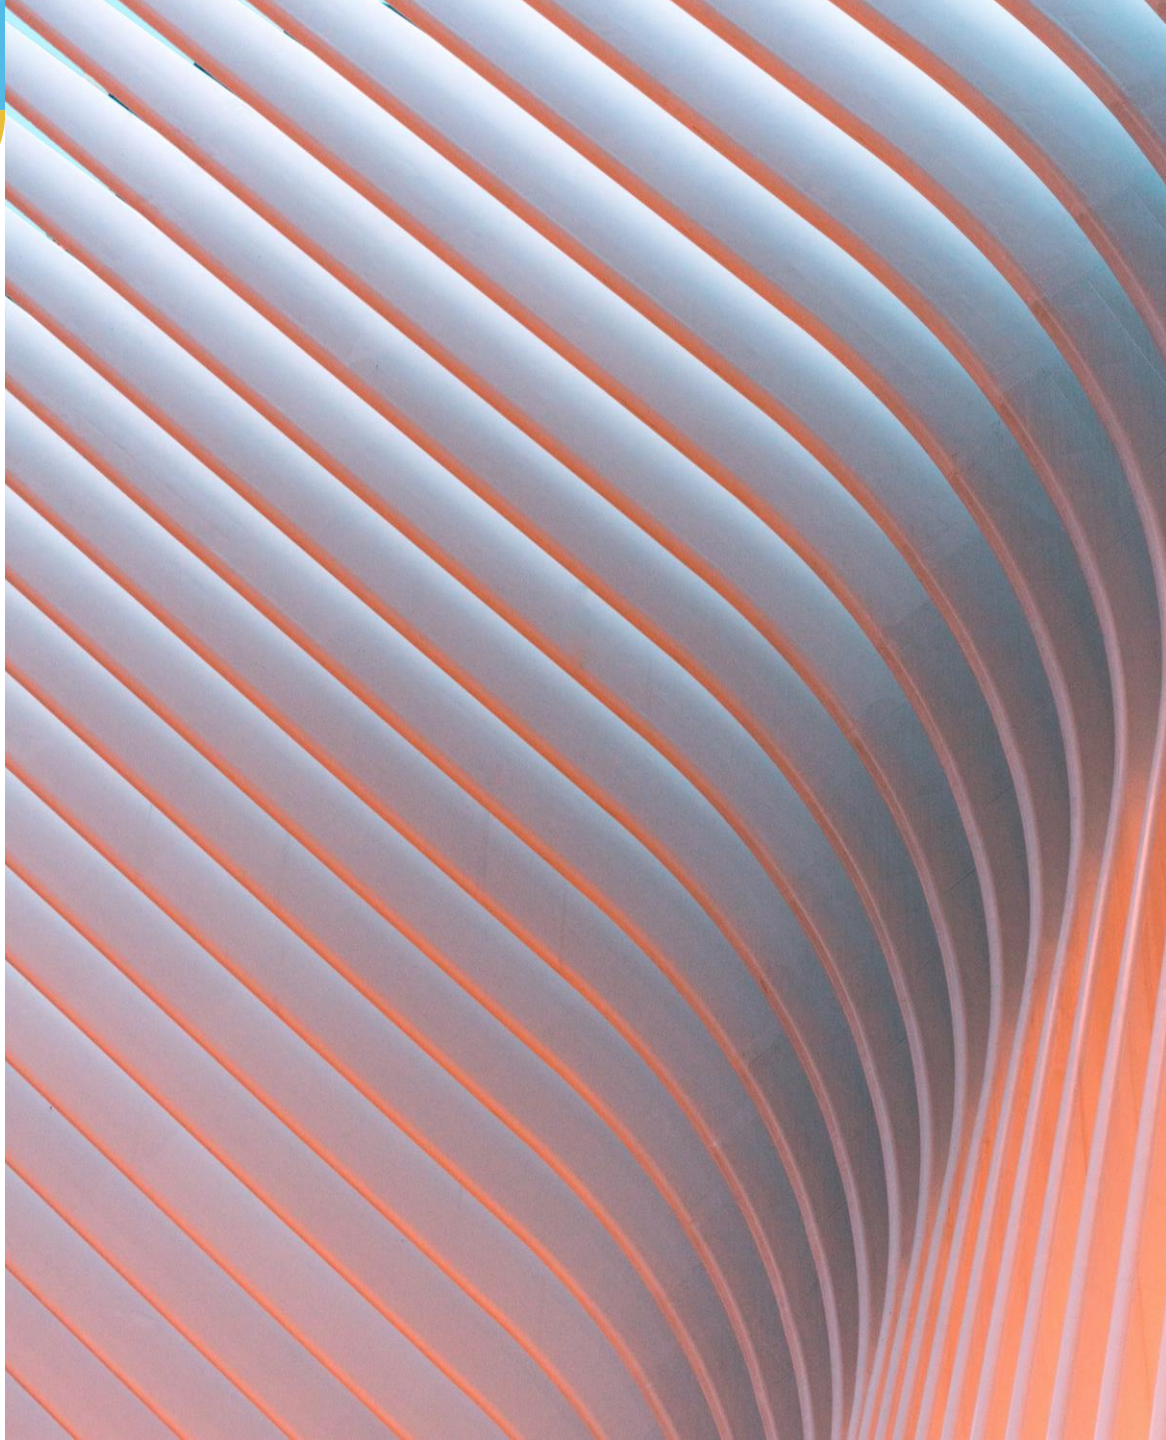

Space

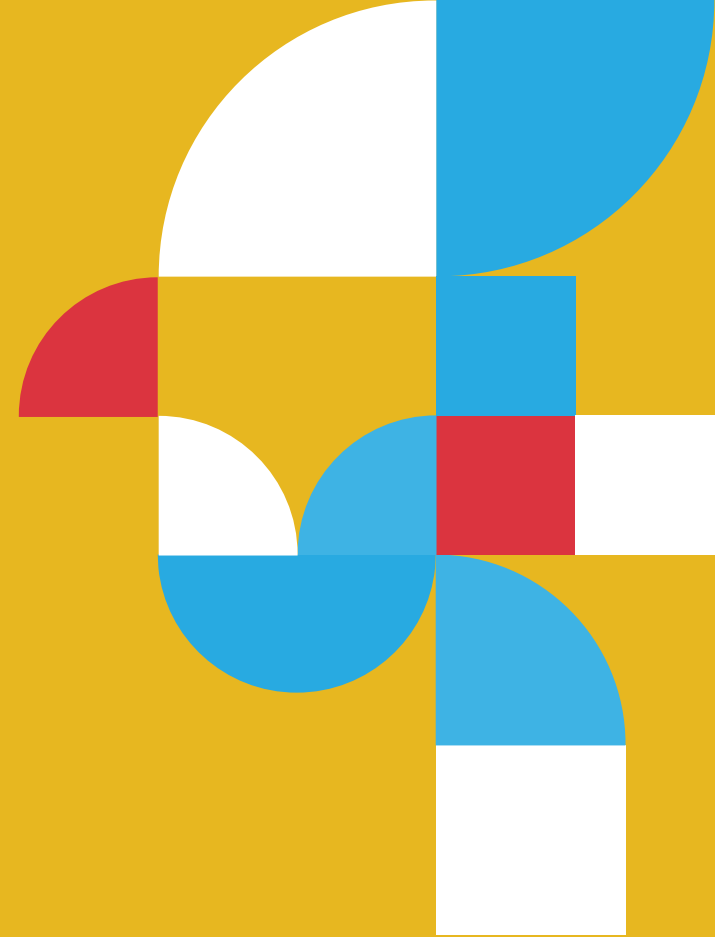

- Negative space – empty areas
- Positive space – filled areas
- Essential for legibility
- Provides a visual rest

Line

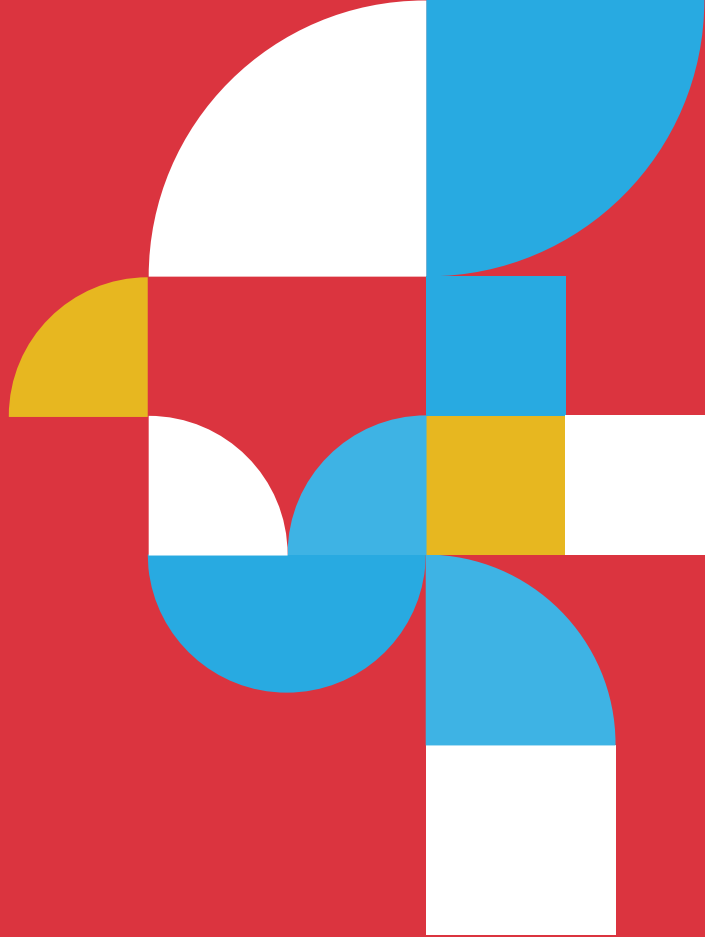

- Primal element
 - Straight, curved, or broken up
 - Thick or thin
 - Vertical, horizontal or diagonal
 - Line can also be implied
- 

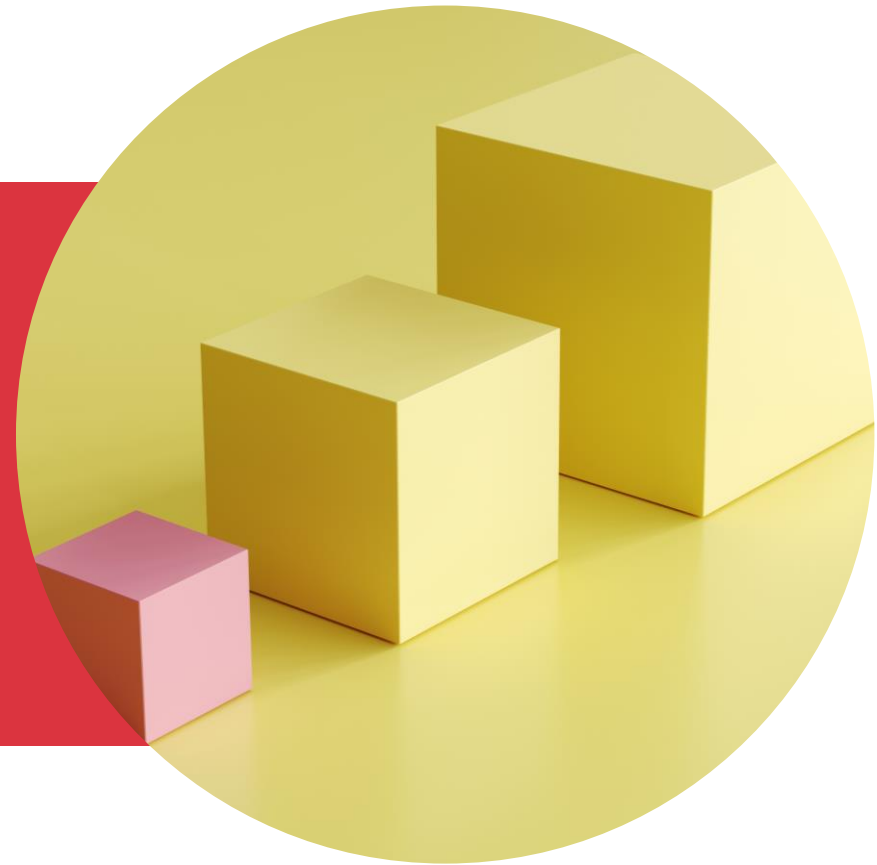

Shape

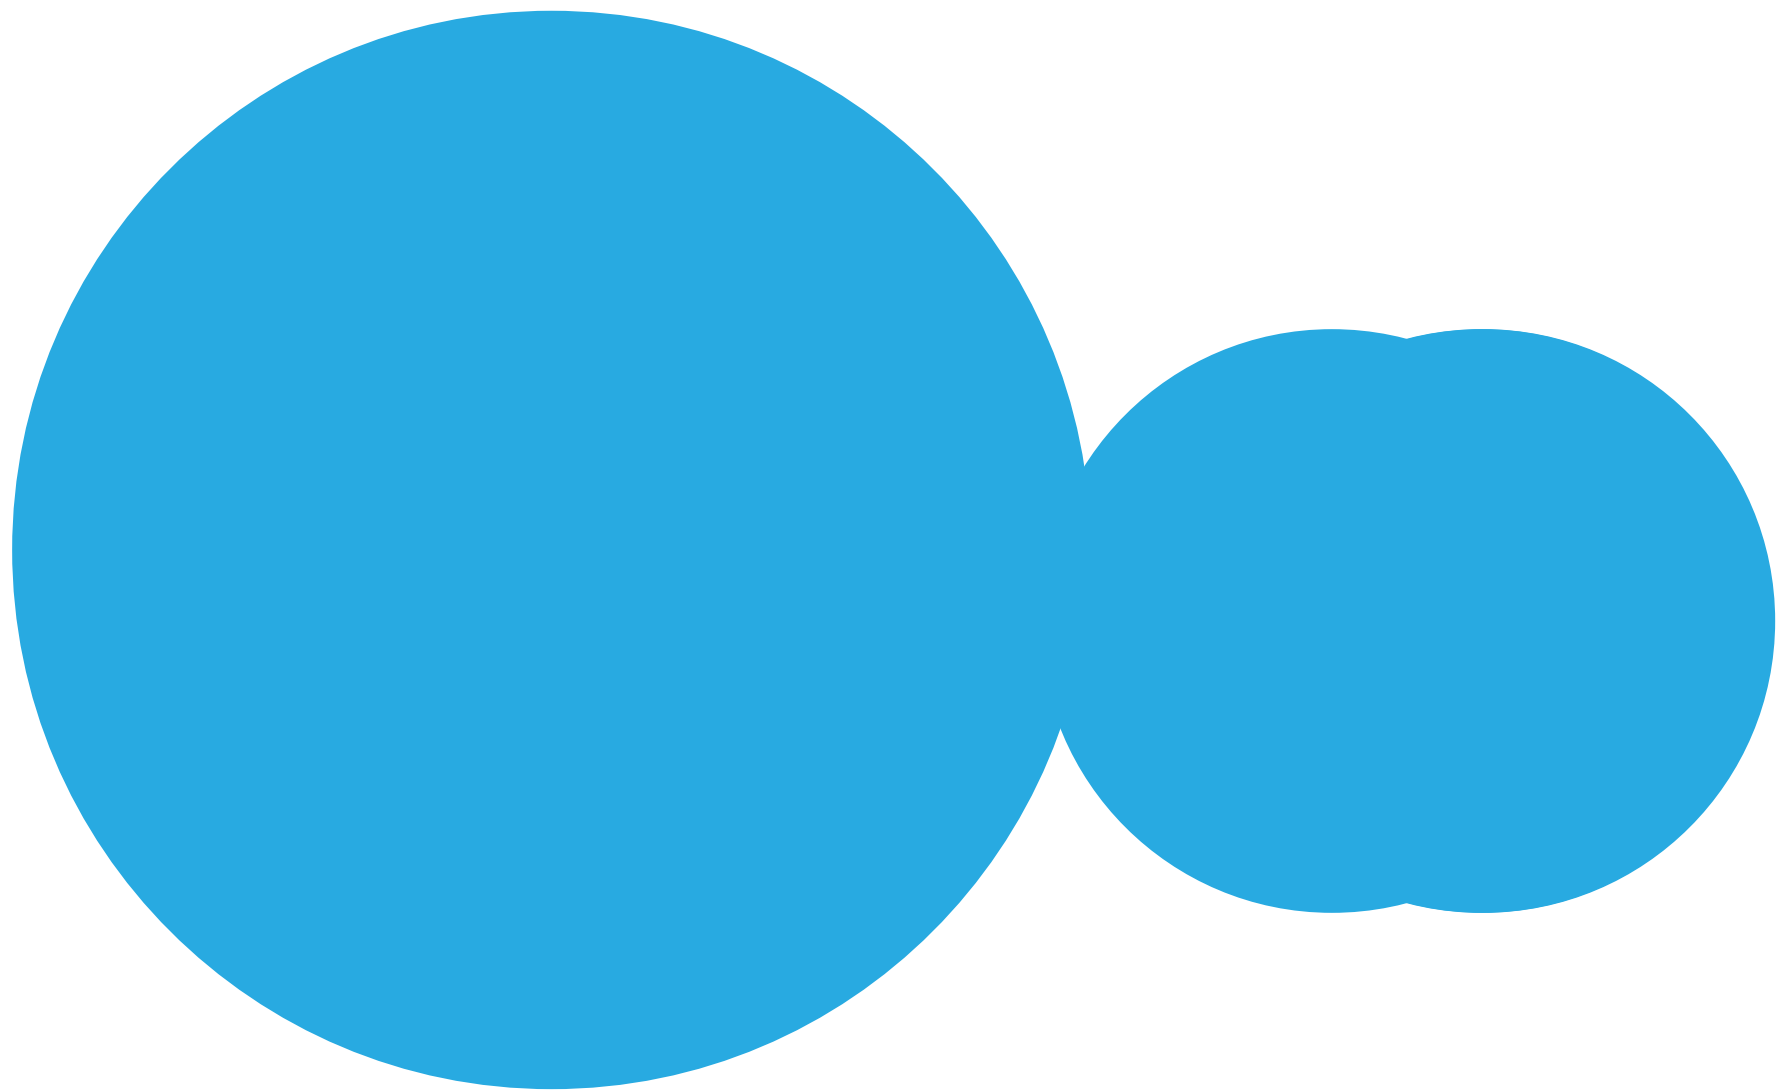

- Also known as form
- Organic shape – natural
- Inorganic shape – manmade
- Abstract shape – simplified

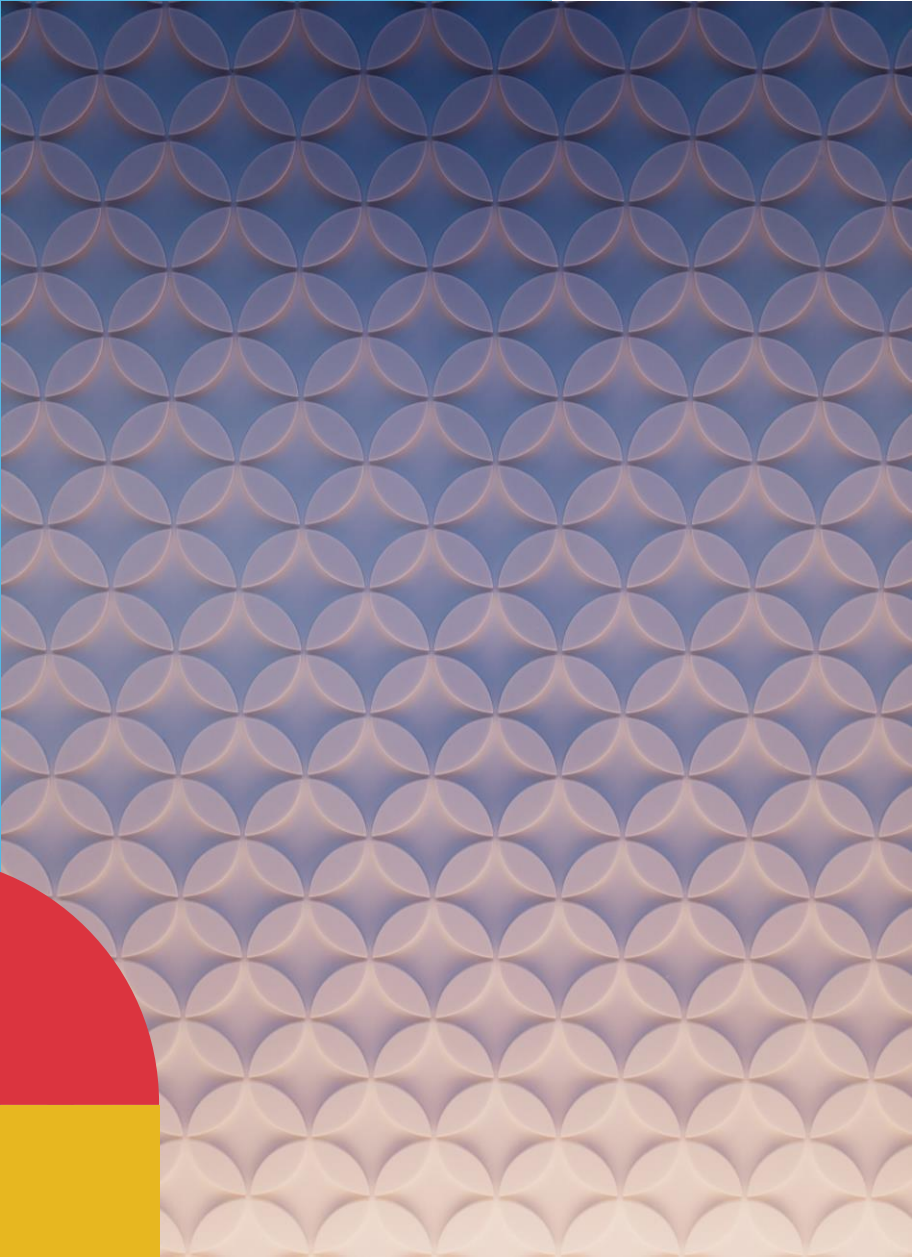

Size

- Also known as scale or mass
- Size is relative to other elements
- Draws attention to larger items
- Makes less important elements not be emphasised

Texture

- Texture is physical or visual
- Repeating shapes continuously
- Aids in keeping objects relative
- Creates a sense of depth

Value

- Tones of light and dark
- Emphasise certain aspects

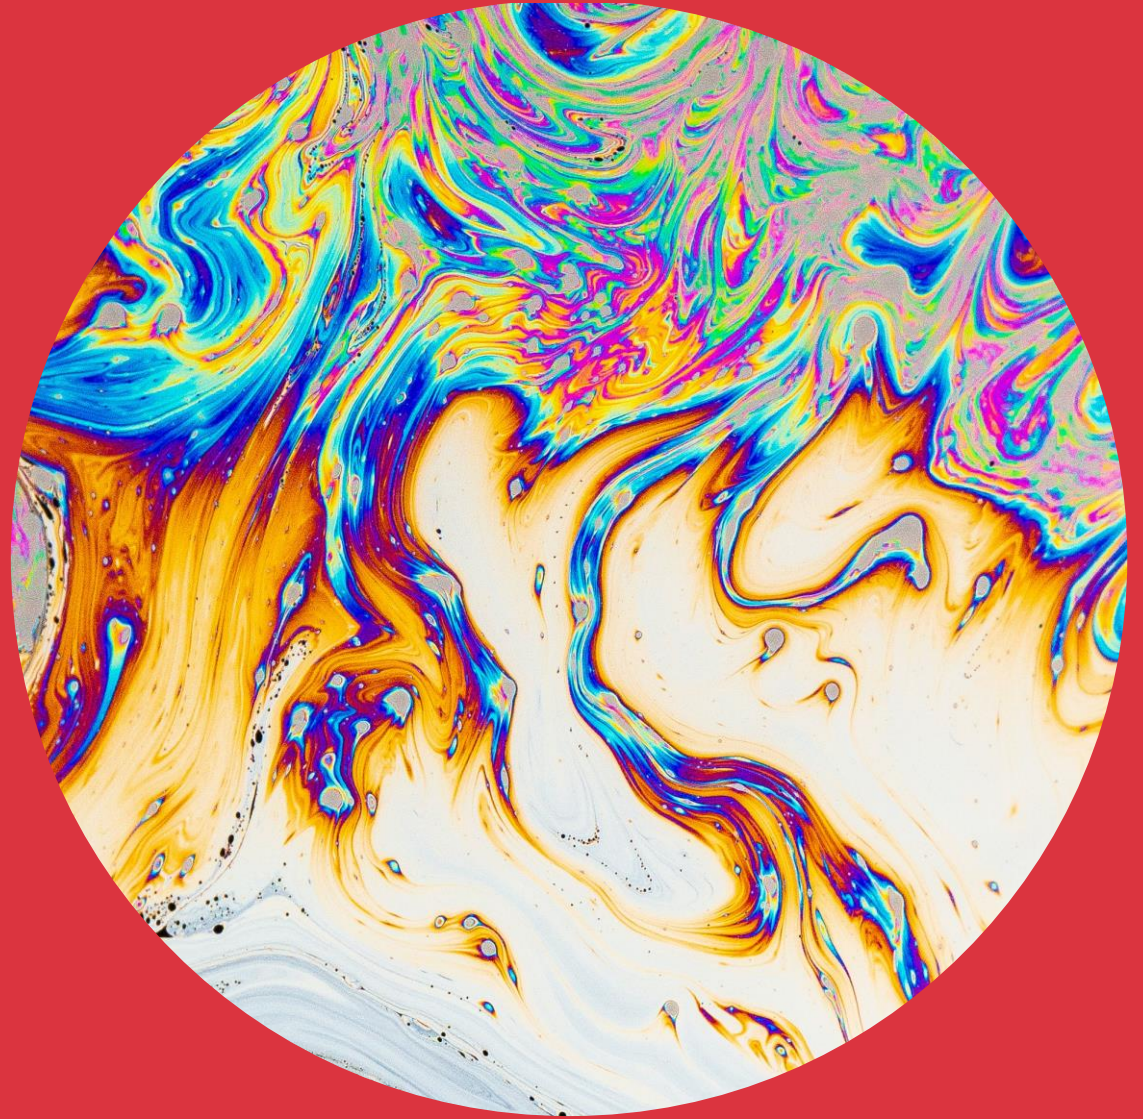

LUXURY
COMPANY

Colour

- Understand colour theory & psychology
- Good design works in the absence of colour but enhances your design

Good Contrast

Bad Contrast

Good Contrast

Bad Contrast

Good Contrast

Bad Contrast

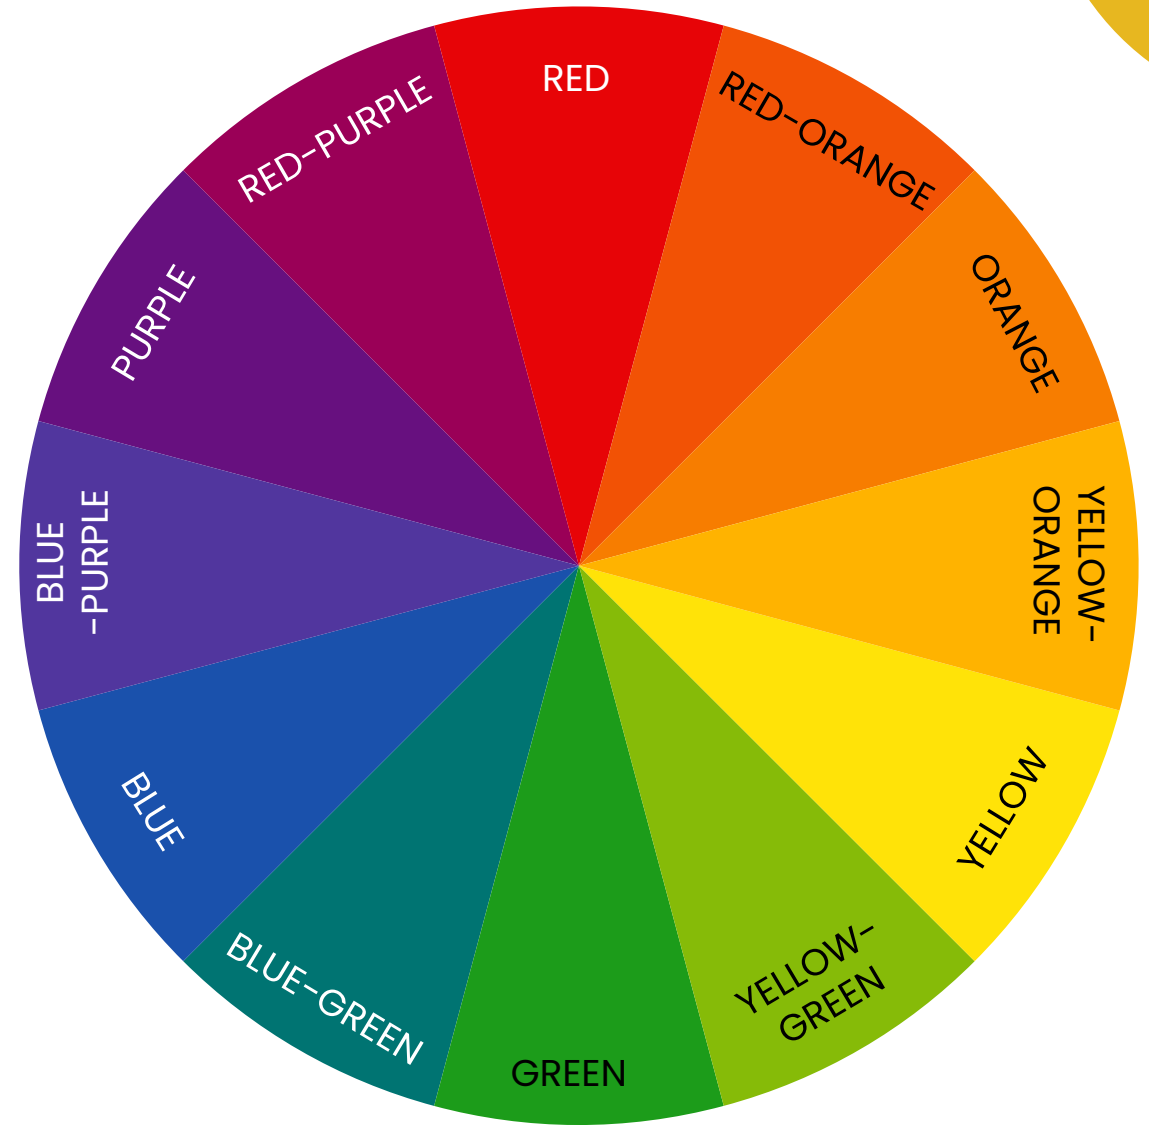

Good Contrast

Bad Contrast

Good Contrast

Colour

- Group elements together
- Creates impact
- Evokes emotion

Colour schemes

The principles of design

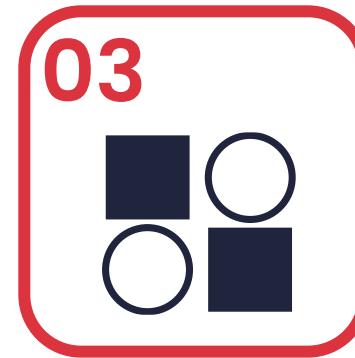

Focal point

Contrast

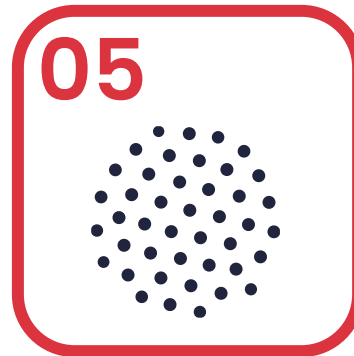

Balance

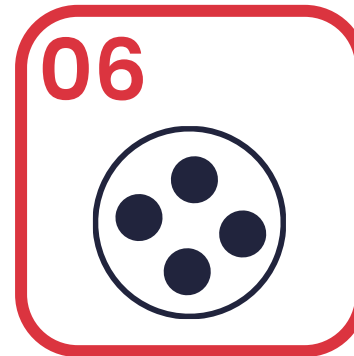

Movement

Pattern

Unity

Gestalt theory

Focal point

- Also known as emphasis
- Most important visual
- Have only one focal point

Where is the focal point?

- The pizza is the focal point
- Texture
- Size
- Positioning (centered)
- Colour

Contrast

- Texture vs smooth
 - Small vs large
 - Dark vs light
 - Positive space vs negative space
- 

Applying contrast

Colour

Shape

Balance

Symmetrical
Asymmetrical

What type of
balance is
applied here?

Movement

Controls the flow of the eye

Too much movement is exhausting

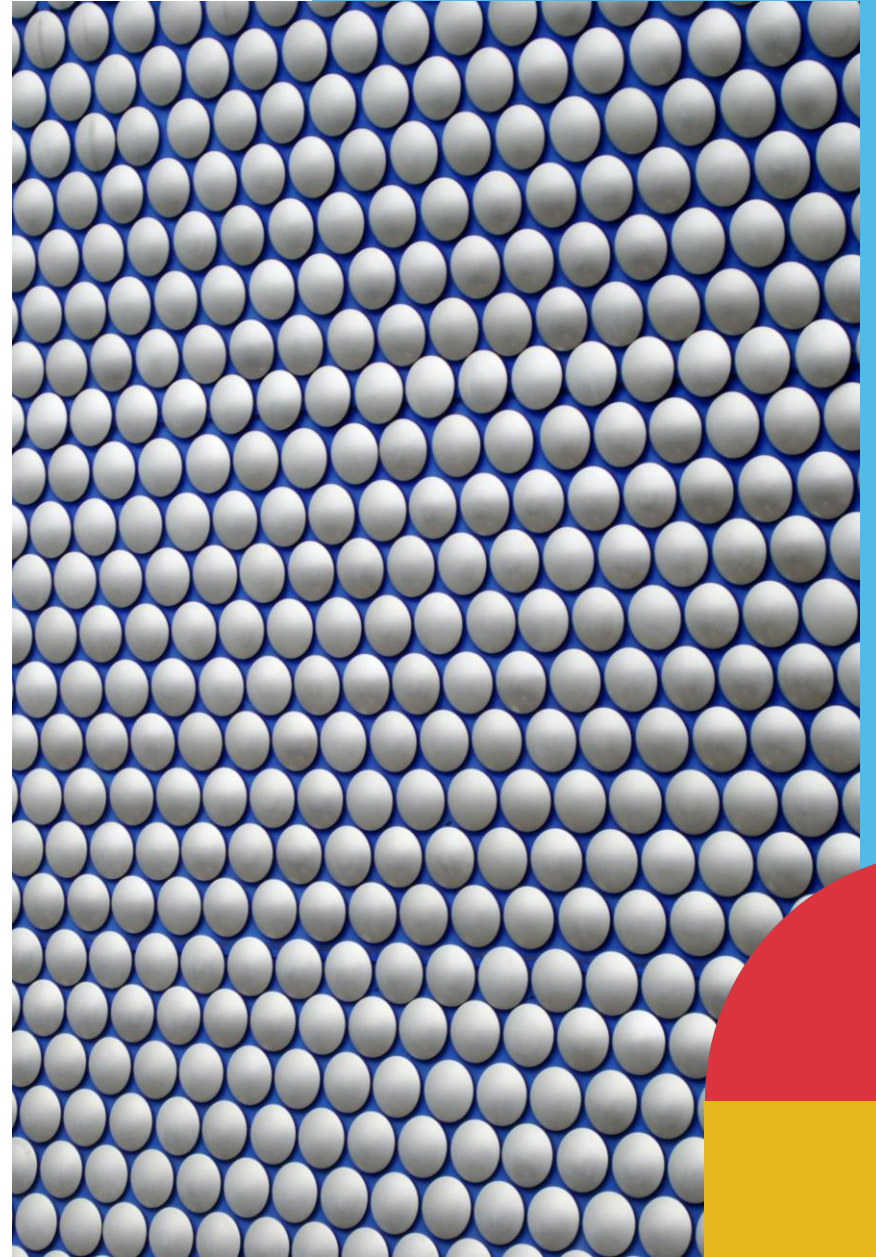

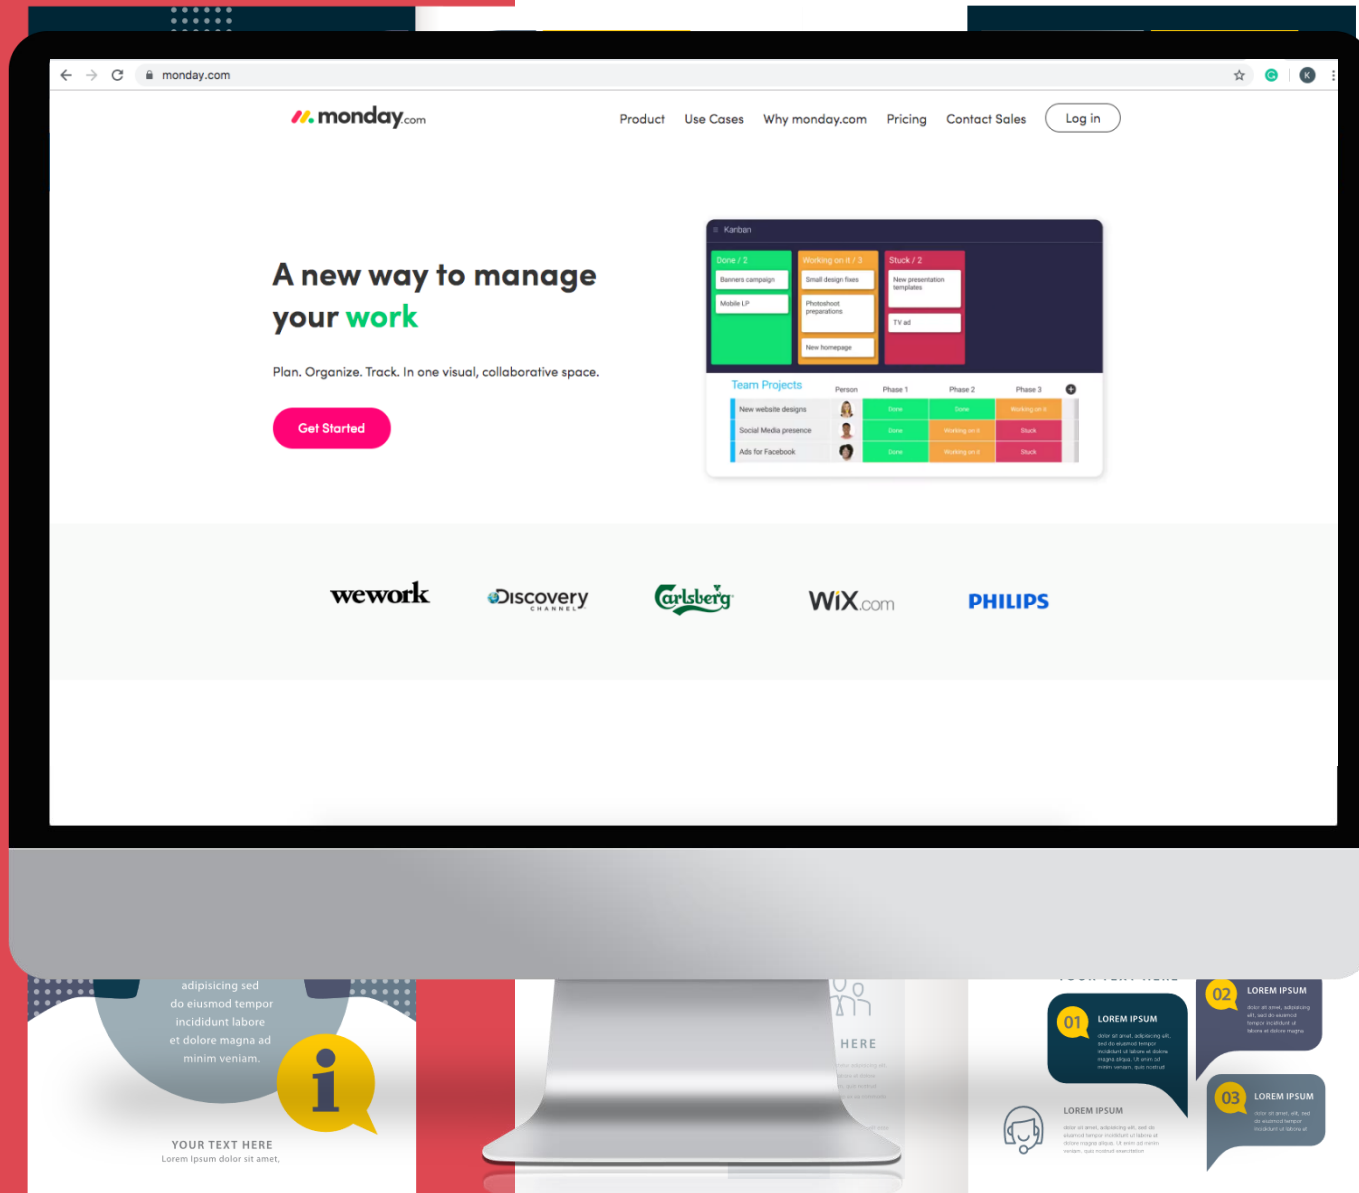

How movement impacts design

Read from top to bottom

Pattern

- Also known as rhythm or repetition
- Continuous pattern creates movement
- Repetition of elements forms a rhythm/pattern

Pattern example

- Repetition of elements
- Standardisation of elements to form consistency

Unity

- Harmony
- One voice
- Design consistency

Is unity applied successfully?

No consistency in fonts

Too many colours

Elements fight against each other

Theory of Gestalt

Proximity

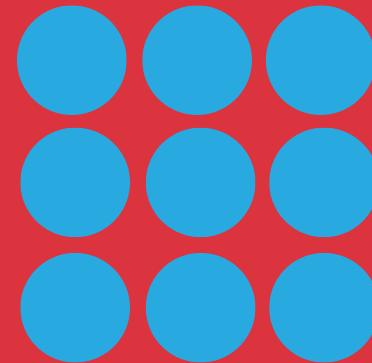

Similarity

Continuity

Closure

Proximity

- The distance between elements
- Closer objects seem unified

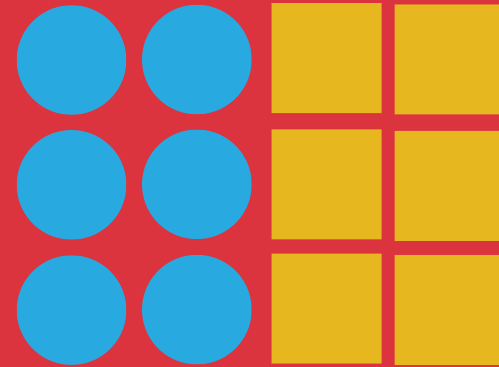

Proximity

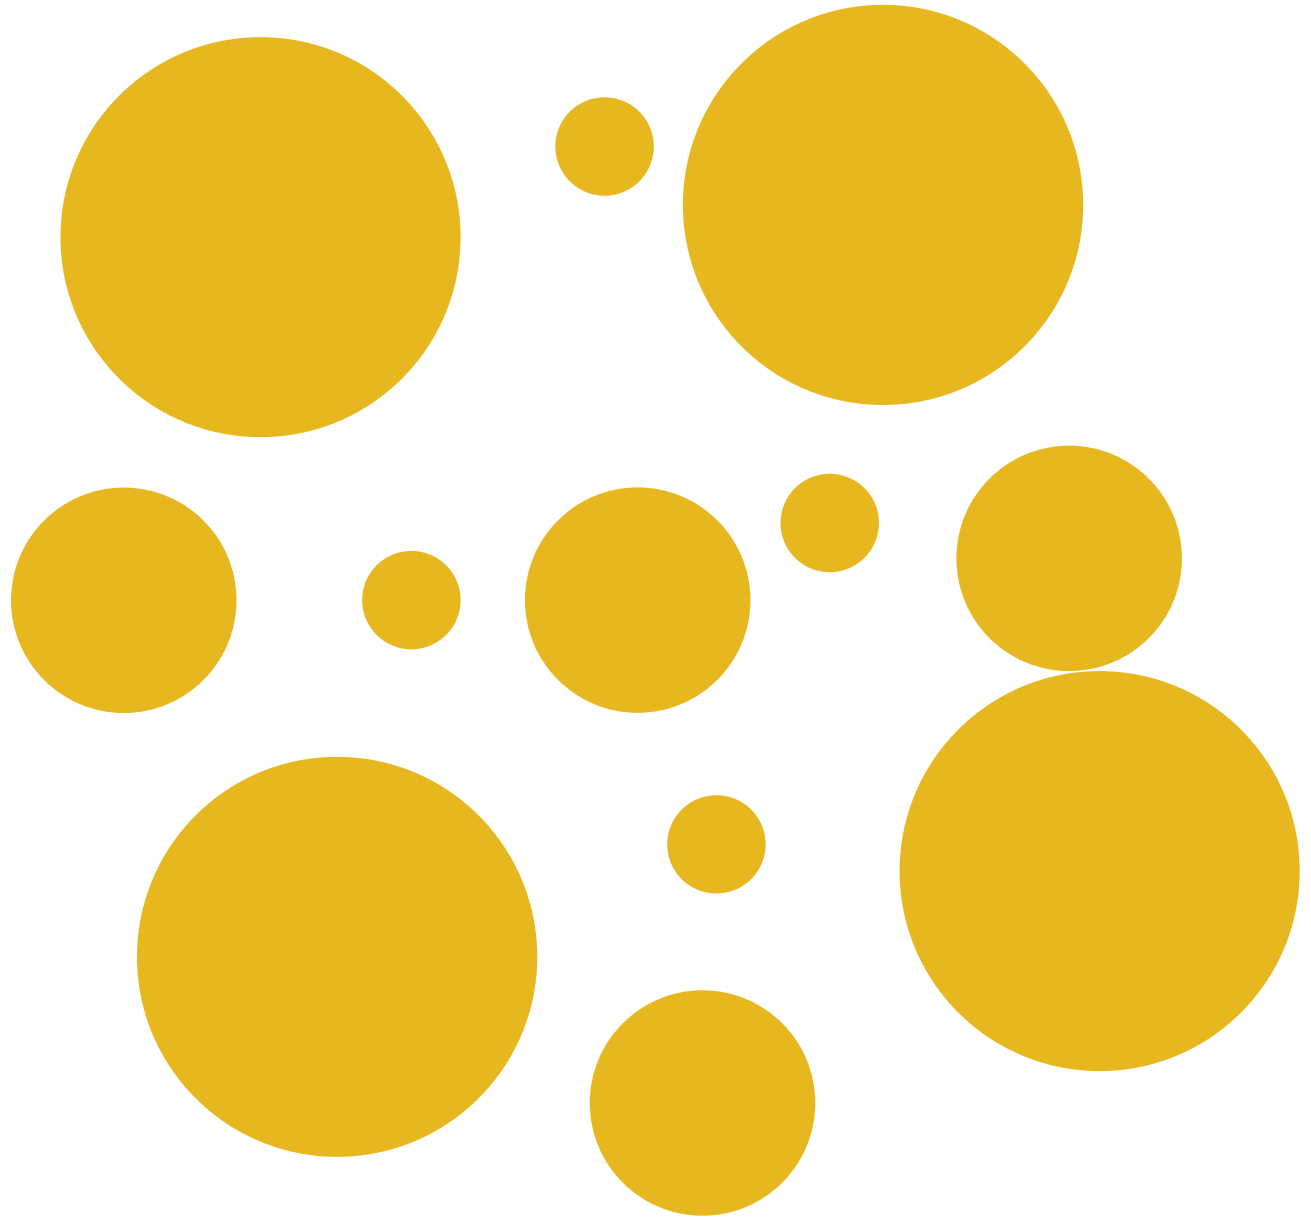

Similarity

Items that look alike belong together

Similarity

Continuity

Items that look alike belong together

Continuity

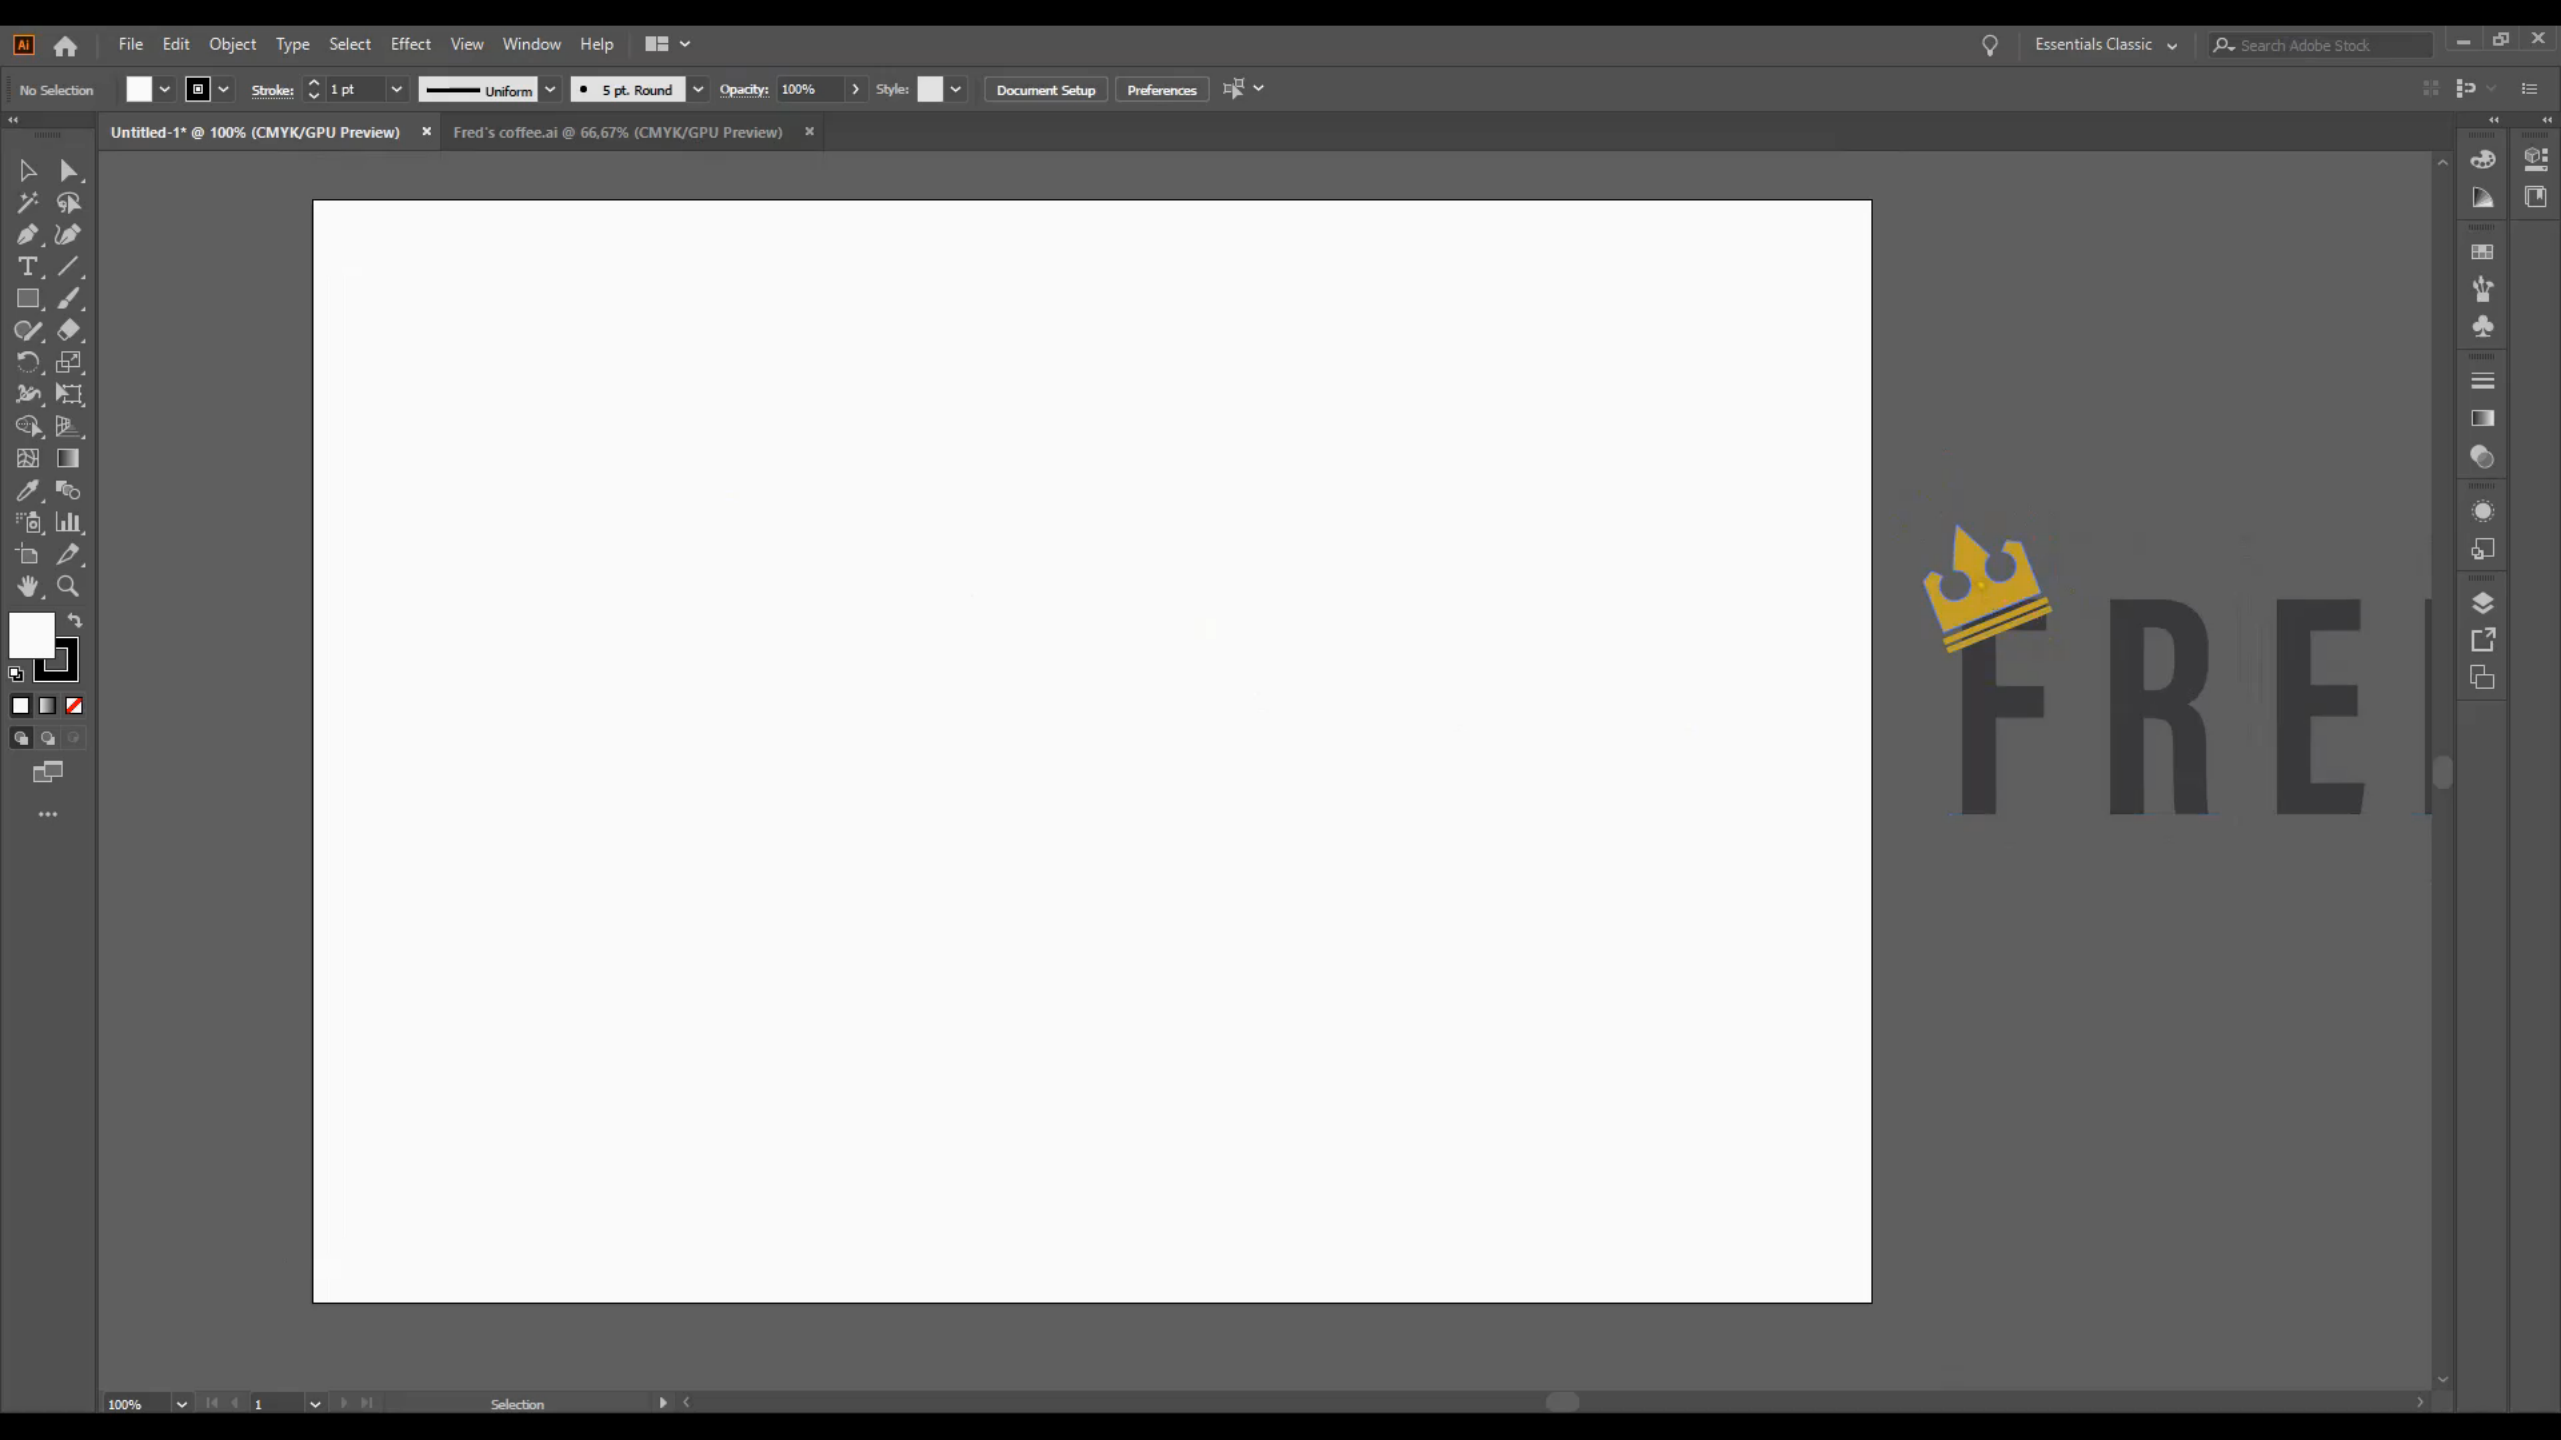

Closure

Fills in the gaps and sees things
that don't exist

Closure

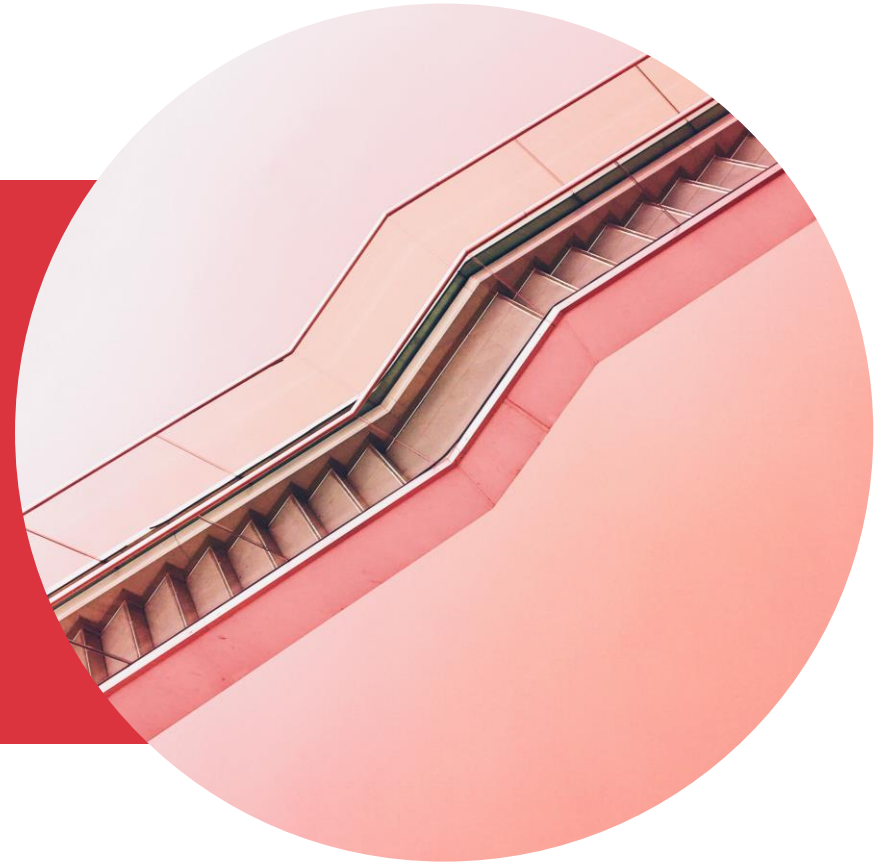

Visual Hierarchy

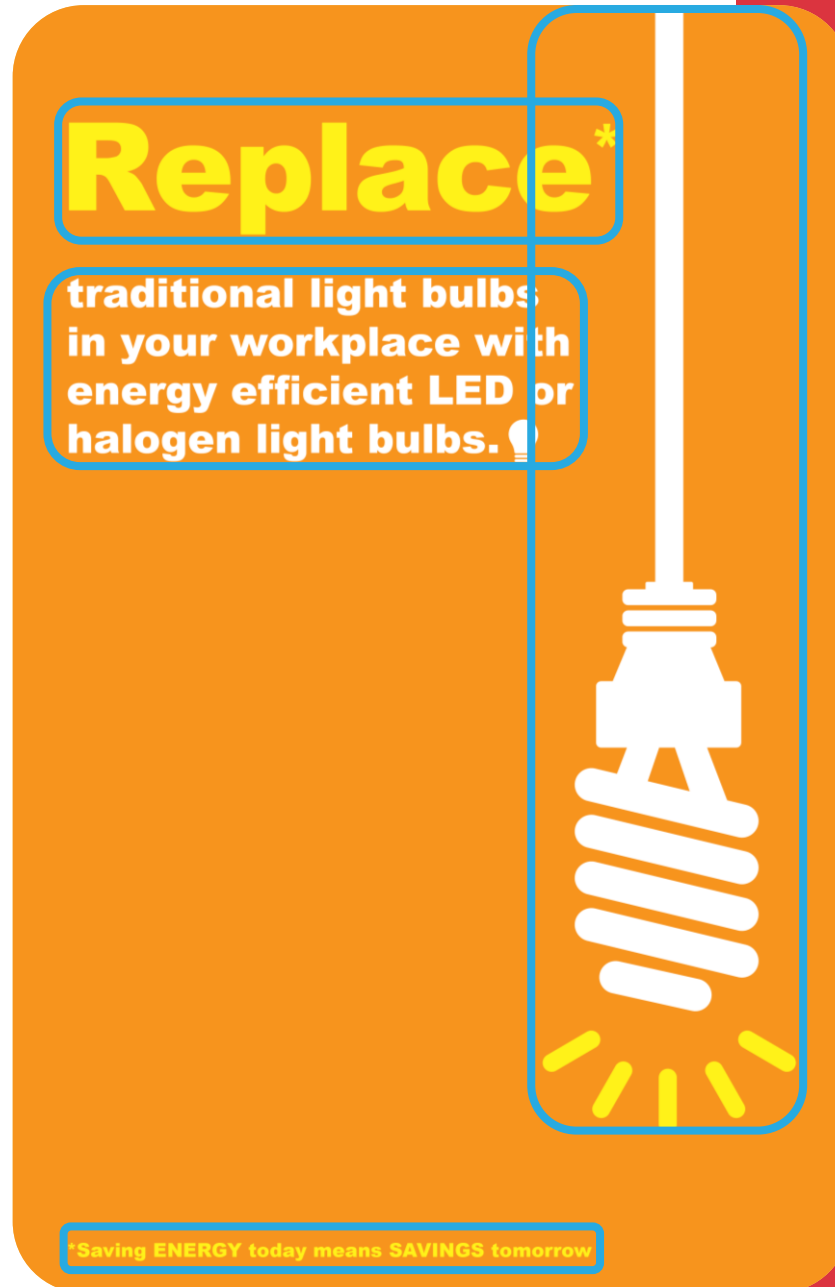

An abstract geometric composition on a solid blue background. The design features several overlapping shapes: a large red semi-circle in the top-left corner; a red semi-circle and a yellow semi-circle in the top-center; a white semi-circle in the bottom-center; and a grid of squares in the top-right, including white, red, and yellow squares. A light blue semi-circle overlaps the yellow semi-circle in the center.

Visual Hierarchy

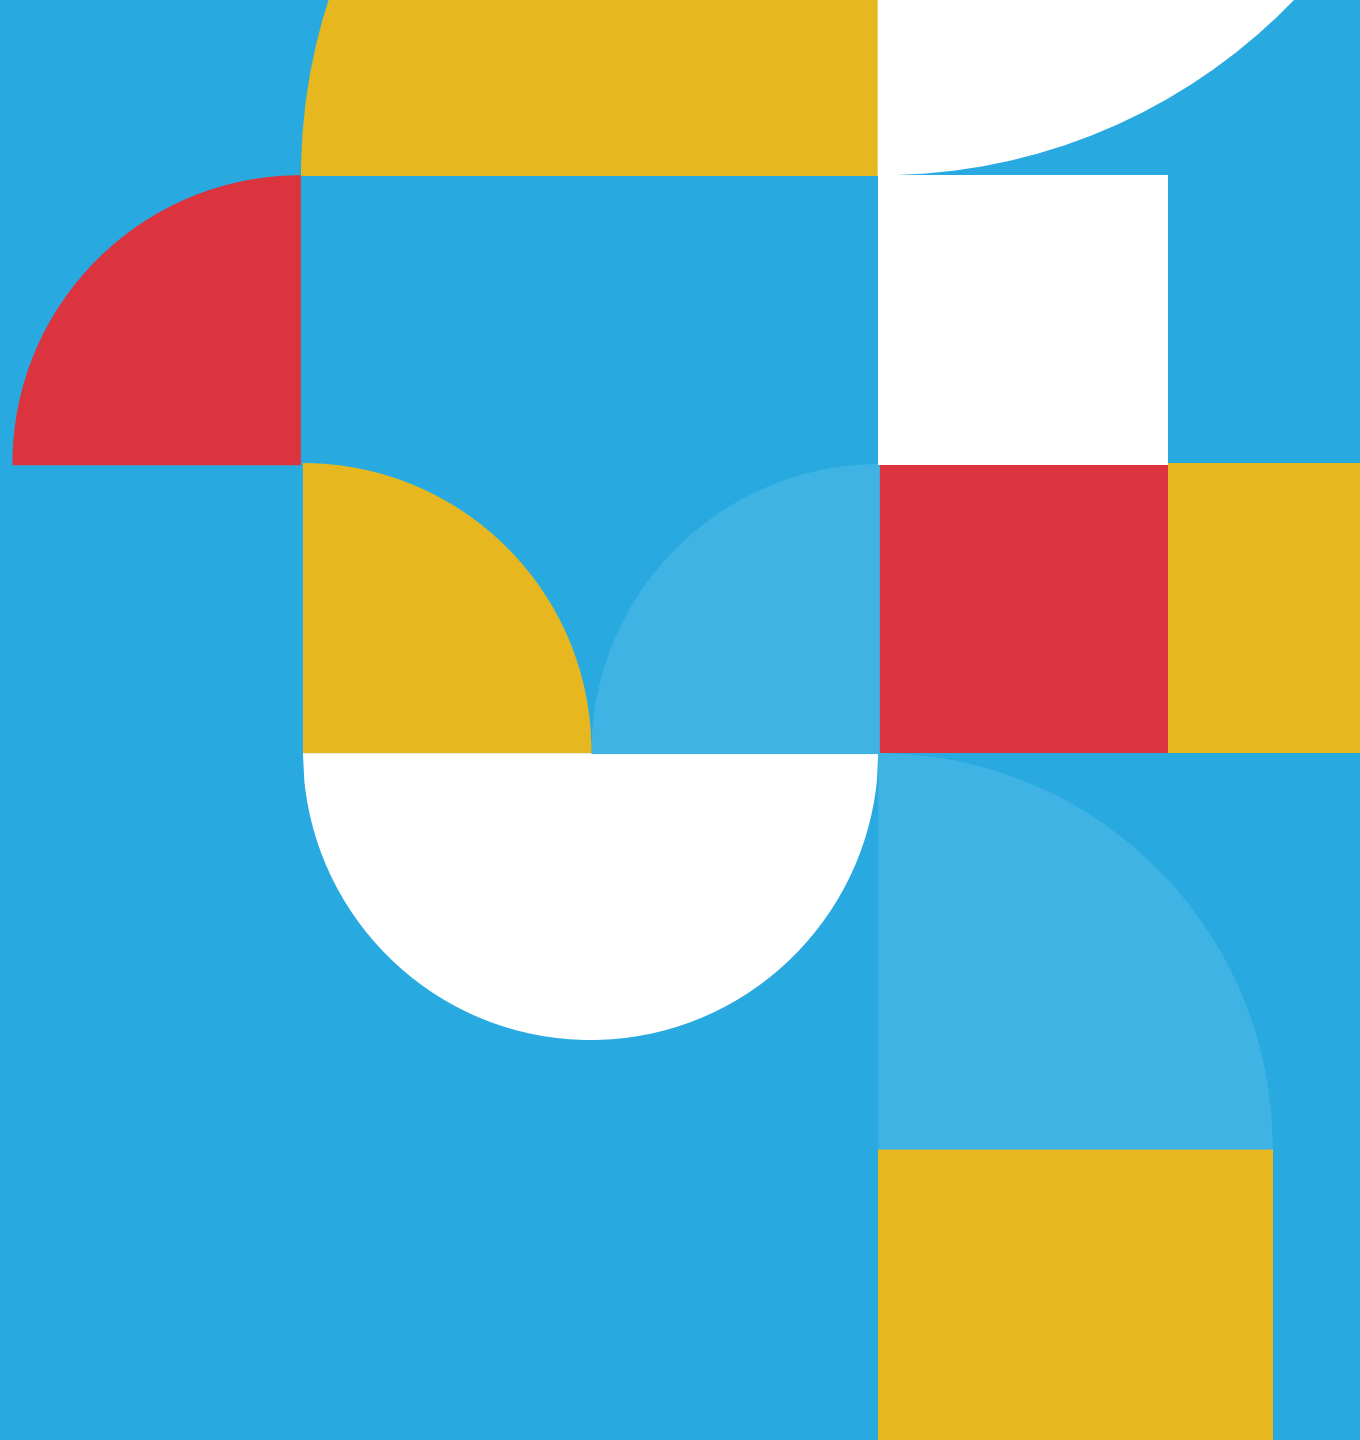

- Visual order of elements on a composition
- The most important element needs to be seen first

Visual hierarchy

Design cycle introduction

The design cycle

Present

Challenge

- Create a rough logo concept
- Write down words that resemble a coffee shop
- Identify possible icons
- Identify possible colours

The background features abstract geometric shapes in red, yellow, and blue. In the top left, a large red semi-circle is partially visible. On the right side, there is a complex arrangement of shapes: a yellow semi-circle at the top, a red semi-circle below it, and a blue semi-circle further down. To the right of these are several squares and rectangles in blue, red, and yellow, some of which are partially cut off by the edge of the frame. The overall design is clean and modern.

CONGRATULATIONS
FOR COMPLETING YOUR LESSON!
