Display Typefaces

- Used for headings
- Not suitable for body copy
- Can have serifs or not
- Understand the mood a display typeface conveys

Script Typefaces

- Can be used as display typefaces
- Small amounts of copy
- Handwritten
- Don't add kerning to a cursive script
- Don't work well in all capitals

Design With Typography

Design with Typography

- Get a quote that you love
- Design this quote by using only typography
- No colour, only black (not even greyscale)
- No inversing of colour
- Limit the amount of textboxes
- No shapes or lines
- No spacebar in spacing out letters within a word
- No diagonal rotation of letters

Challenge

- Design only with type

The background features abstract geometric shapes in red, yellow, and blue. In the top left, a large red semi-circle is partially visible. On the right side, there is a complex arrangement of shapes: a yellow semi-circle at the top, a red semi-circle below it, and a blue semi-circle further down. To the right of these are several squares and rectangles in blue, red, and yellow, some of which are partially cut off by the edge of the frame. The overall design is clean and modern.
