Advanced Colour Theory &
Print Terminology

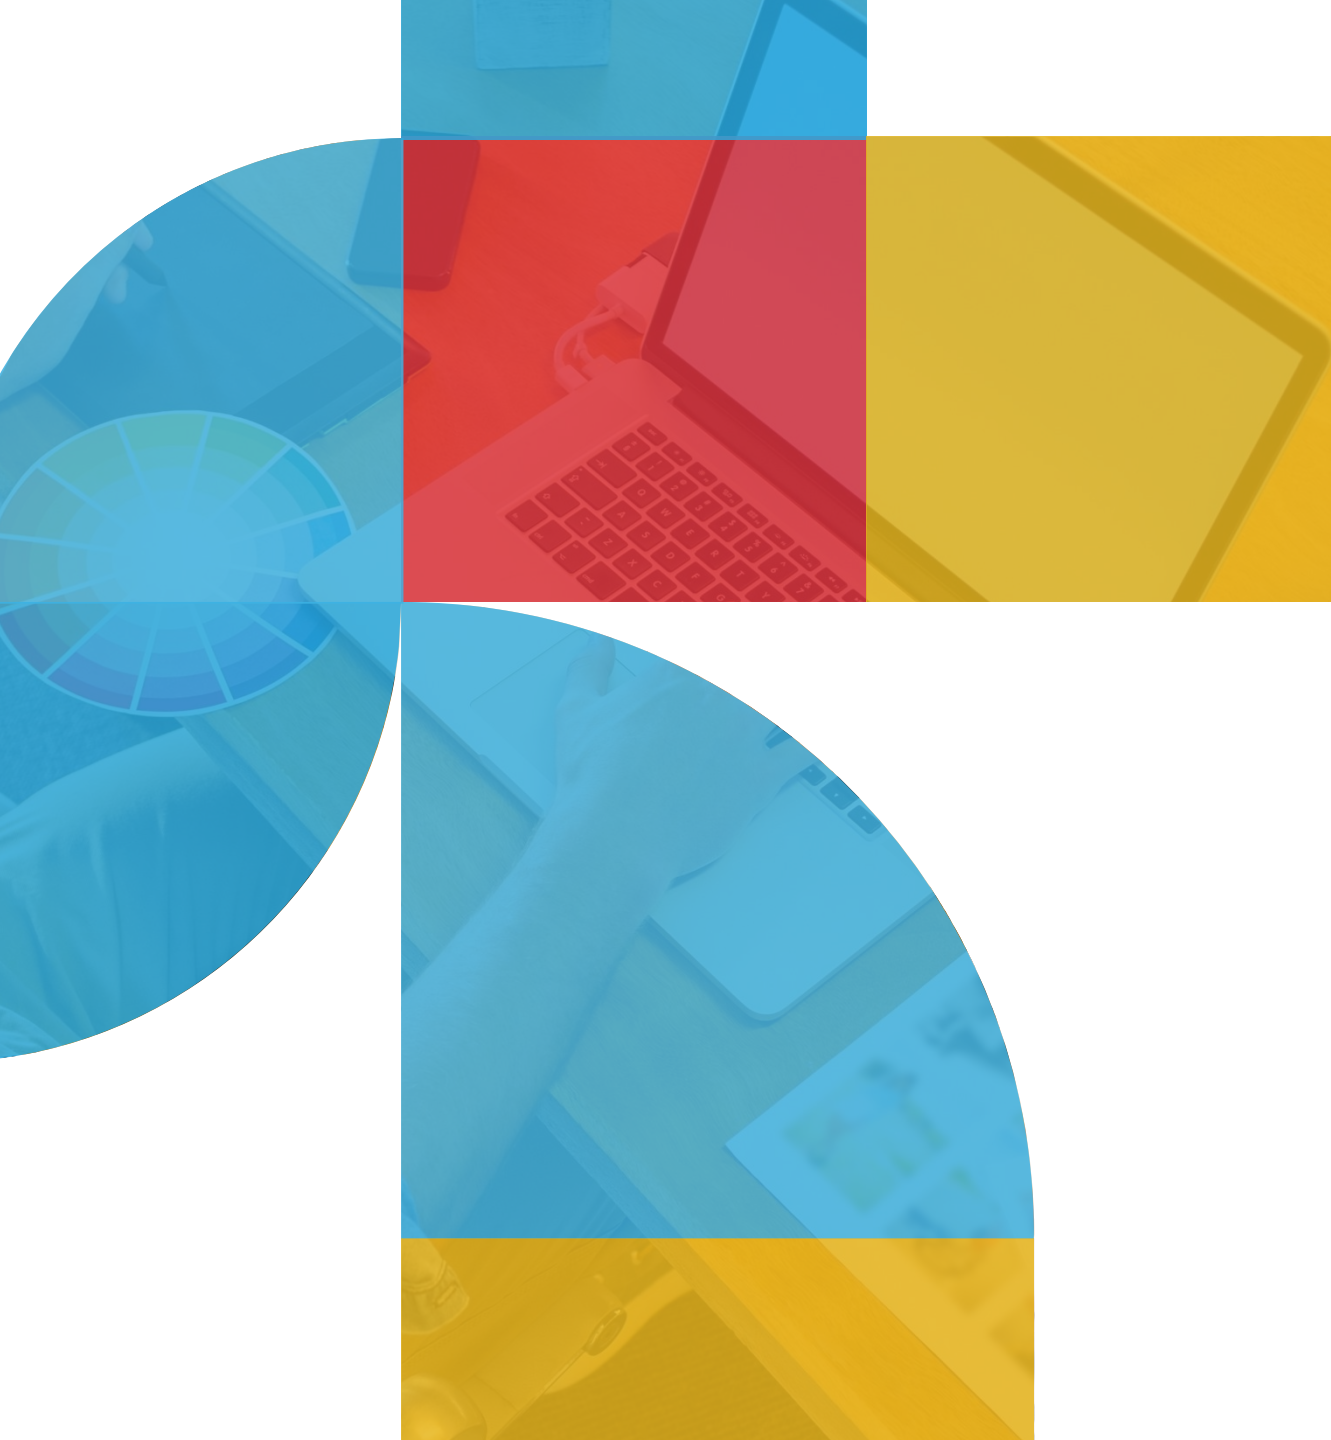

Did you know?

Why is there no white ink?

- CMYK is a subtractive colour model
- When combined, they form black
- We tend to print on white surfaces

Lesson Objectives

- Understand advanced colour theory ◆
- Explore colour models ◆
- Introduce Pantone colour system ◆
- Explain the printing process & techniques ◆

The background is a solid blue color. It features several abstract geometric shapes: a large red semi-circle in the top-left corner; a red semi-circle and a yellow semi-circle on the right side, partially overlapping a blue square; a white semi-circle below the yellow one; and a grid of squares in the top-right corner with colors including white, blue, red, and yellow.

Printing Process & Techniques

The background features a solid blue field. On the left, a large red semi-circle is partially visible. On the right, there is a complex arrangement of geometric shapes: a yellow semi-circle at the top, a red semi-circle below it, a white semi-circle at the bottom, and various squares and rectangles in blue, yellow, and red. Some of these shapes overlap, creating a layered effect.

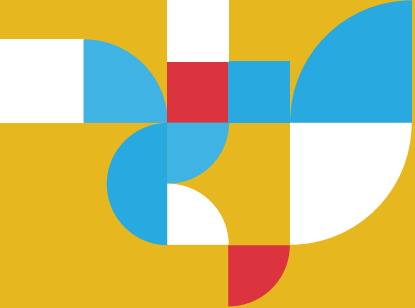

Digital Printing

The process where artwork is sent directly to the printer in a digital format like a pdf, tiff or jpg file.

- Affordable
- High quality print
- Quick printing response time
- Can print colours like white or gold
- Short print runs

Offset Lithography

Works on the principle of oil and water do not mix. Plates are created that transfers the ink onto the printed surface.

- Mass production
- High quality print
- Consistent
- Quite cost effective
- Short print runs

Screen Printing

This is the process of stretching a piece of silk over a wooden frame, the image can be transferred multiple times.

- Long lasting
- Print on a variety of materials
- Print using a variety of inks
- Cost effective
- Tedious to set up
- Impractical for small print runs

Letterpress

Using a raised reversed impression of a design and transferring it onto paper. The raised image can be reused.

- It is beautiful
- Slow to assemble
- Expensive

The background features abstract geometric shapes in red, yellow, and blue. In the top left, a large red semi-circle is partially visible. On the right side, there is a complex arrangement of shapes: a yellow semi-circle at the top, a red semi-circle below it, a blue semi-circle to the right of the red one, and a yellow semi-circle below the blue one. Further down, there are more yellow and blue shapes, including a large blue semi-circle at the bottom right. The text is positioned in the lower-left area of the image.
