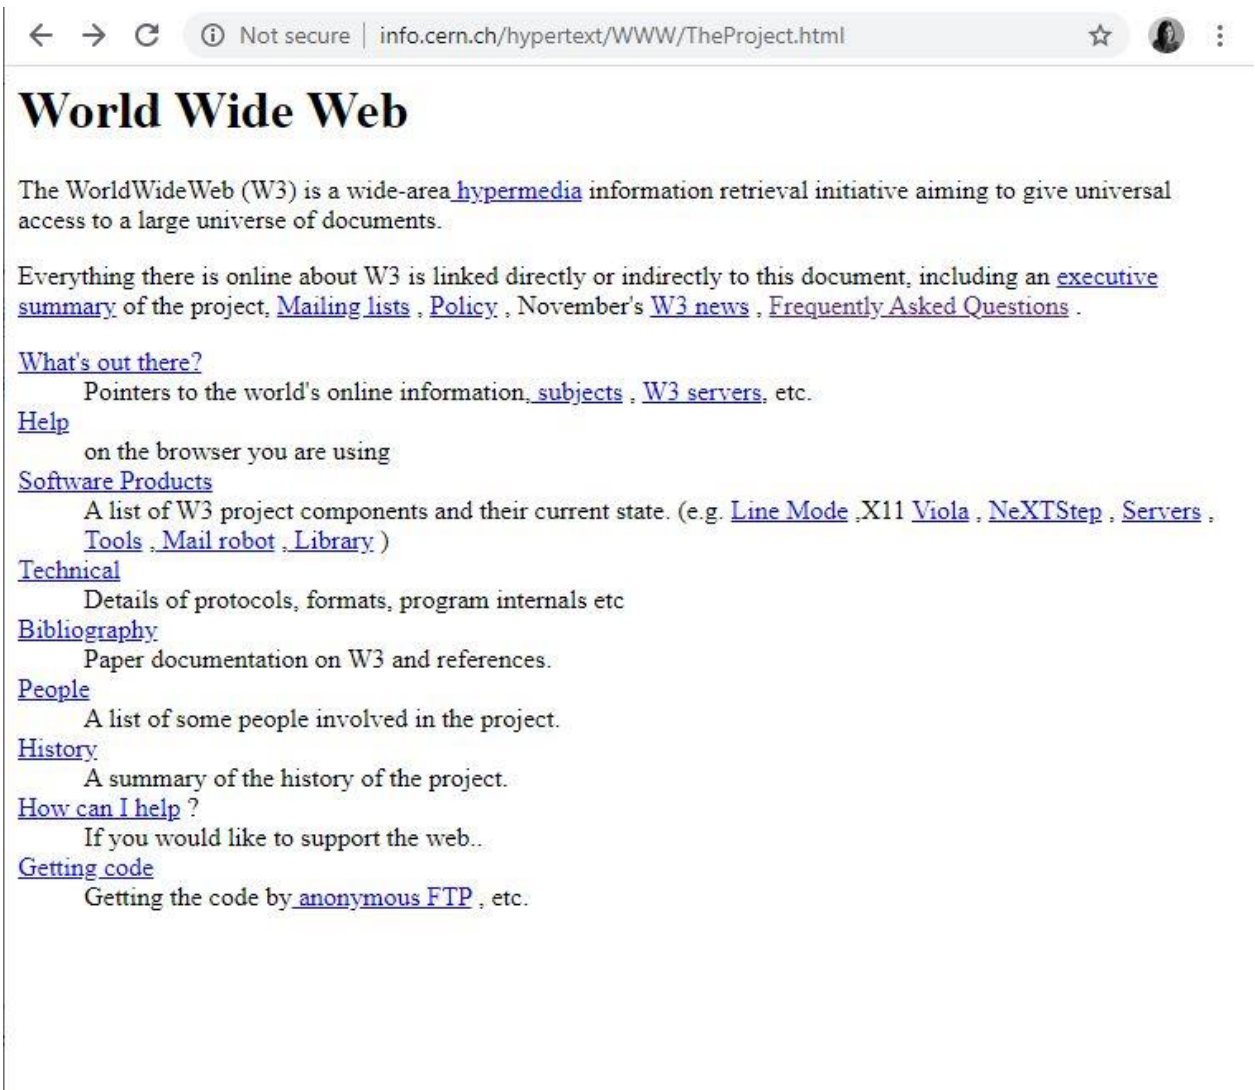

GRAPHIC DESIGN

Design for Web & Social Media

DID YOU KNOW?

← → ↻ ⓘ Not secure | info.cern.ch/hypertext/WWW/TheProject.html ☆ ⓘ

World Wide Web

The WorldWideWeb (W3) is a wide-area [hypermedia](#) information retrieval initiative aiming to give universal access to a large universe of documents.

Everything there is online about W3 is linked directly or indirectly to this document, including an [executive summary](#) of the project, [Mailing lists](#) , [Policy](#) , November's [W3 news](#) , [Frequently Asked Questions](#) .

[What's out there?](#)
Pointers to the world's online information, [subjects](#) , [W3 servers](#) , etc.

[Help](#)
on the browser you are using

[Software Products](#)
A list of W3 project components and their current state. (e.g. [Line Mode](#) ,X11 [Viola](#) , [NeXTStep](#) , [Servers](#) , [Tools](#) , [Mail robot](#) , [Library](#))

[Technical](#)
Details of protocols, formats, program internals etc

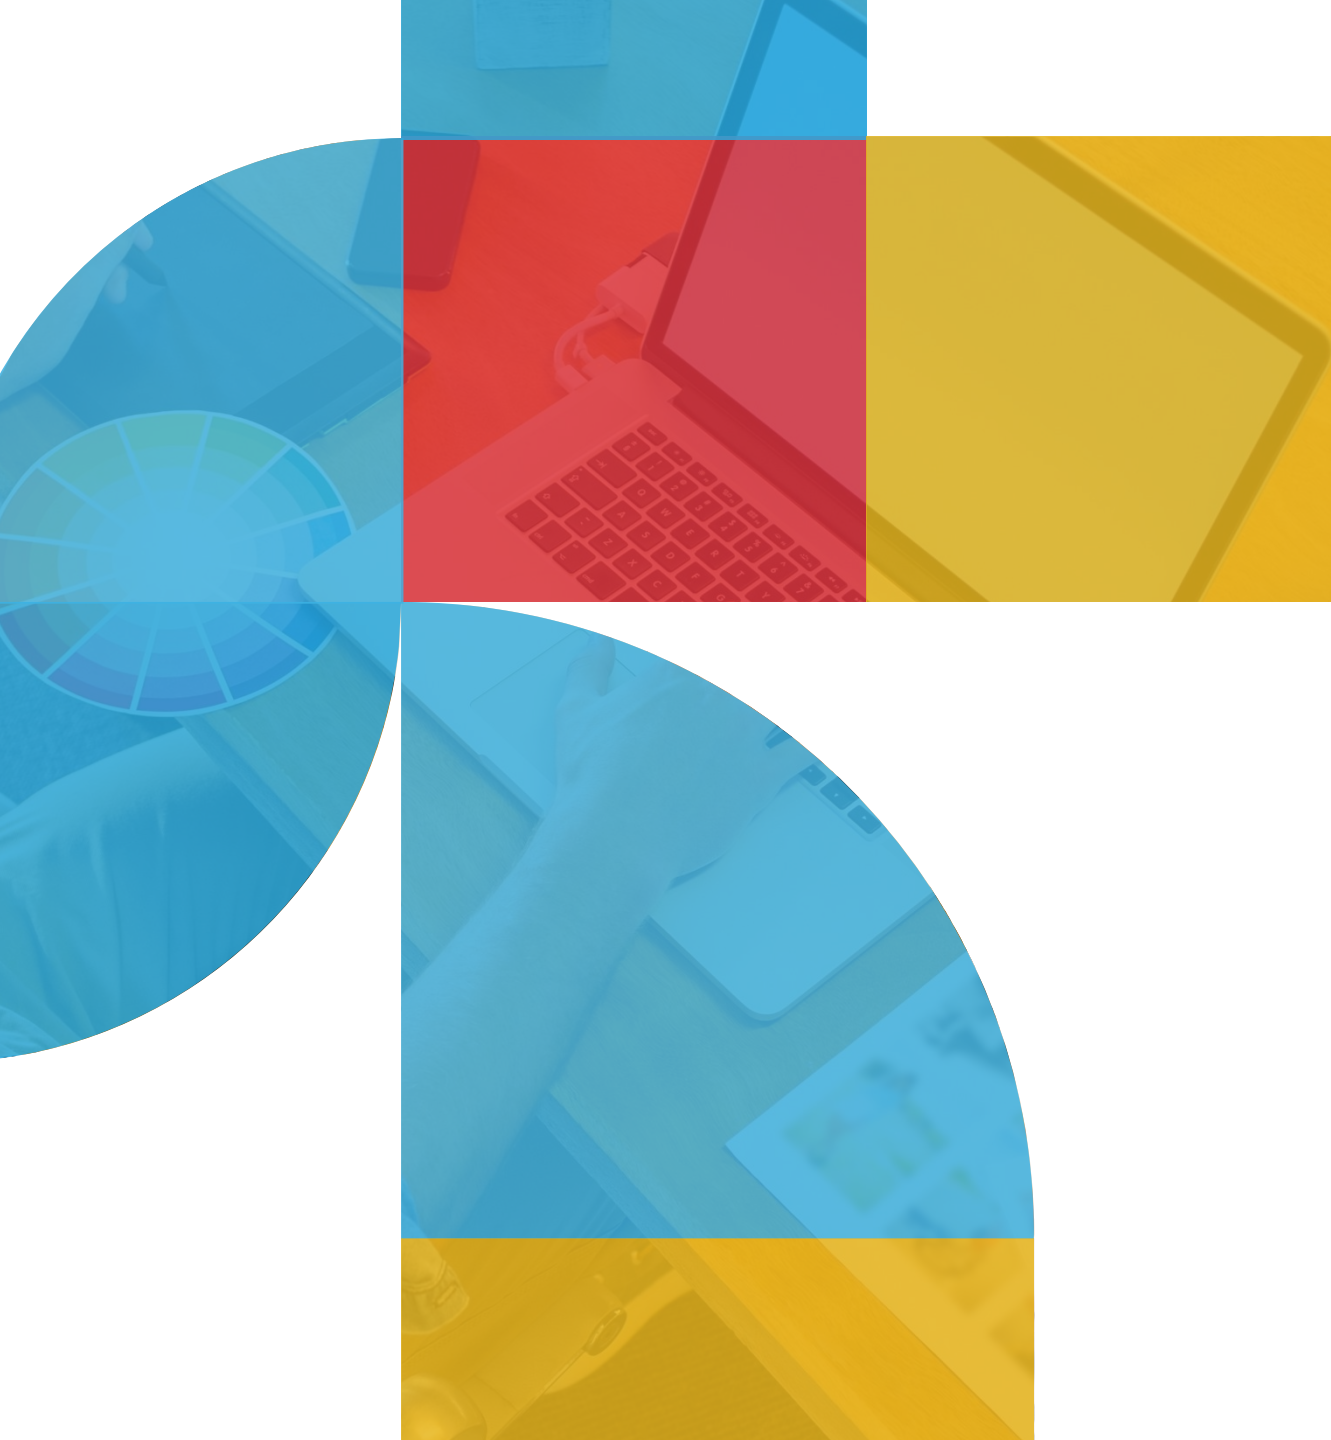

[Bibliography](#)
Paper documentation on W3 and references.

[People](#)
A list of some people involved in the project.

[History](#)
A summary of the history of the project.

[How can I help ?](#)
If you would like to support the web..

[Getting code](#)
Getting the code by [anonymous FTP](#) , etc.

Lesson Objectives

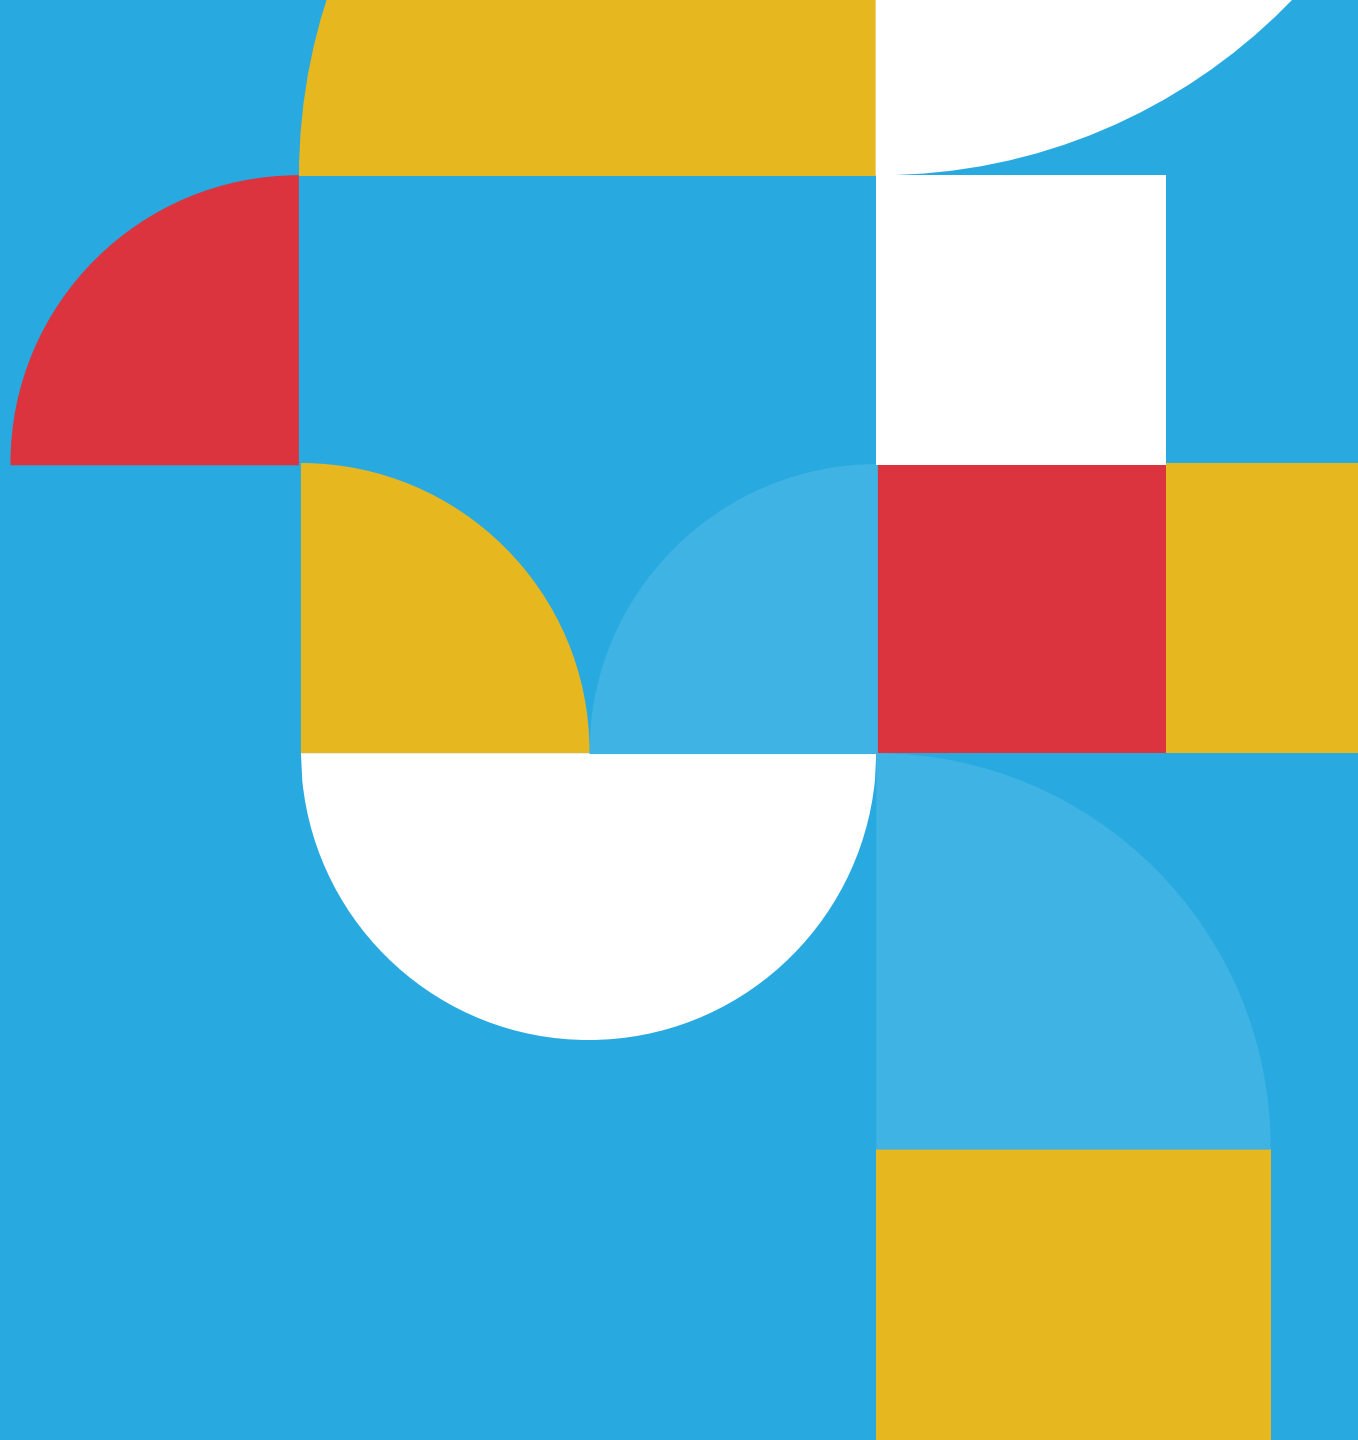

- Define web design ◆
- Explore how to create a website ◆
- Define social media ◆
- Explore UX, UI and usability ◆
- Discover the use of hex colour ◆
- Discuss designing for social media ◆

Lesson 5 Challenge Feedback

- Paperboard packaging design

What is Web Design?

What is Web Design?

- Web design: designing the layout and aesthetics of the website (the architect)
- Web development: building the website with the layout provided by the web designer (the builder)
- Graphic designers need to understand the basics of web
- Elements & principles of design are crucial for web design

How do I create a Website

How Do I Create a Website?

- In collaboration with web designers & developers
- Making use of available tools and applications
- Web coding is not a must, but will help a lot
- WordPress & Wix

What is Social Media?

What is Social Media?

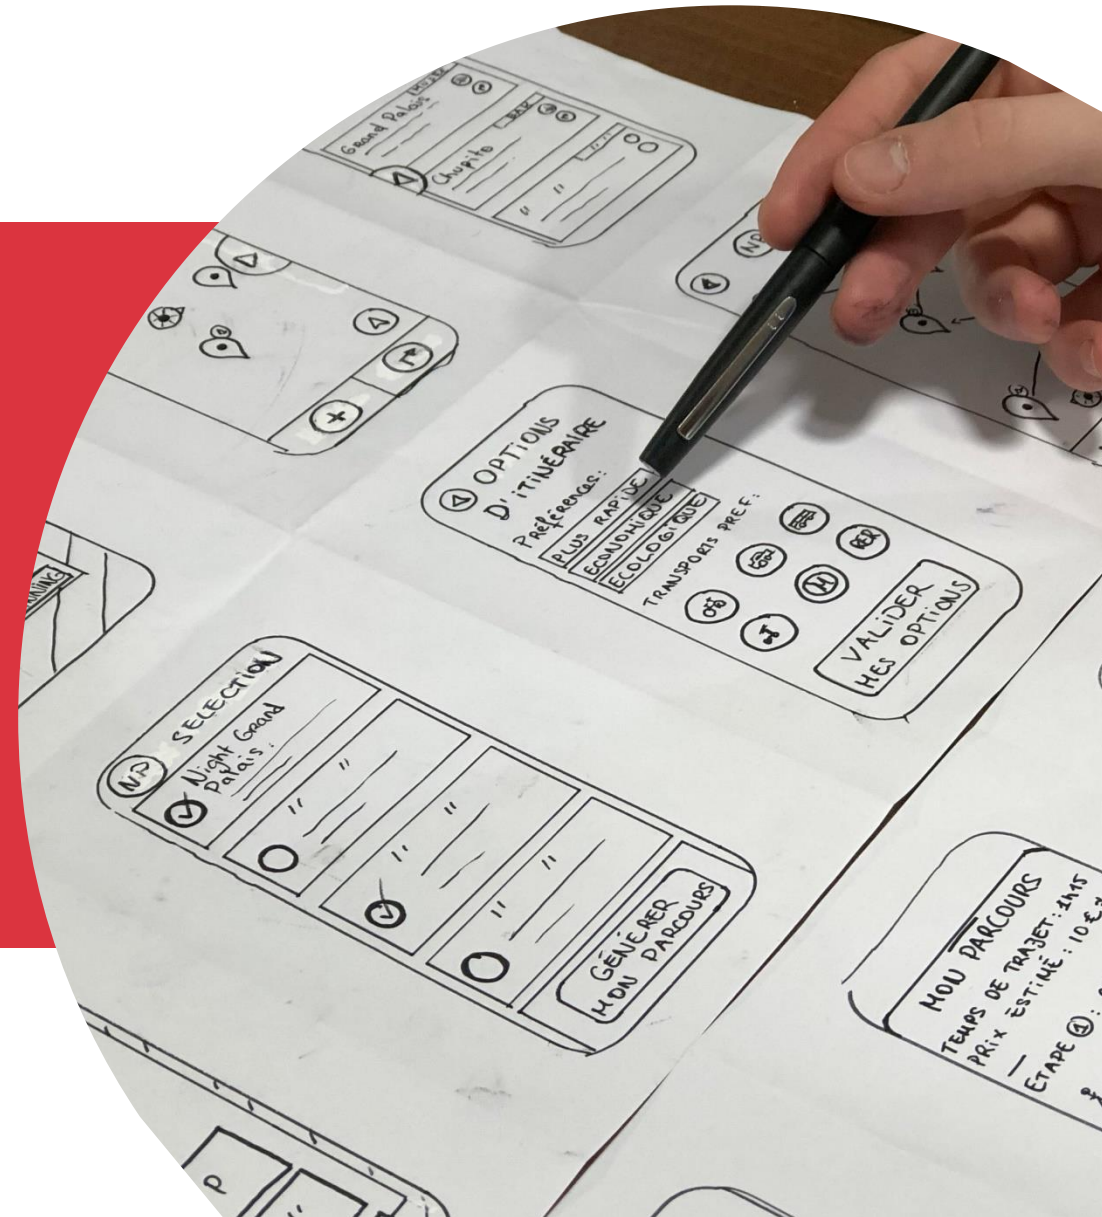

- Create, share & participate with other users
- Facebook, Instagram, Twitter, LinkedIn
- Social media changed the way we advertise
- Understand social media to stand out in the noise

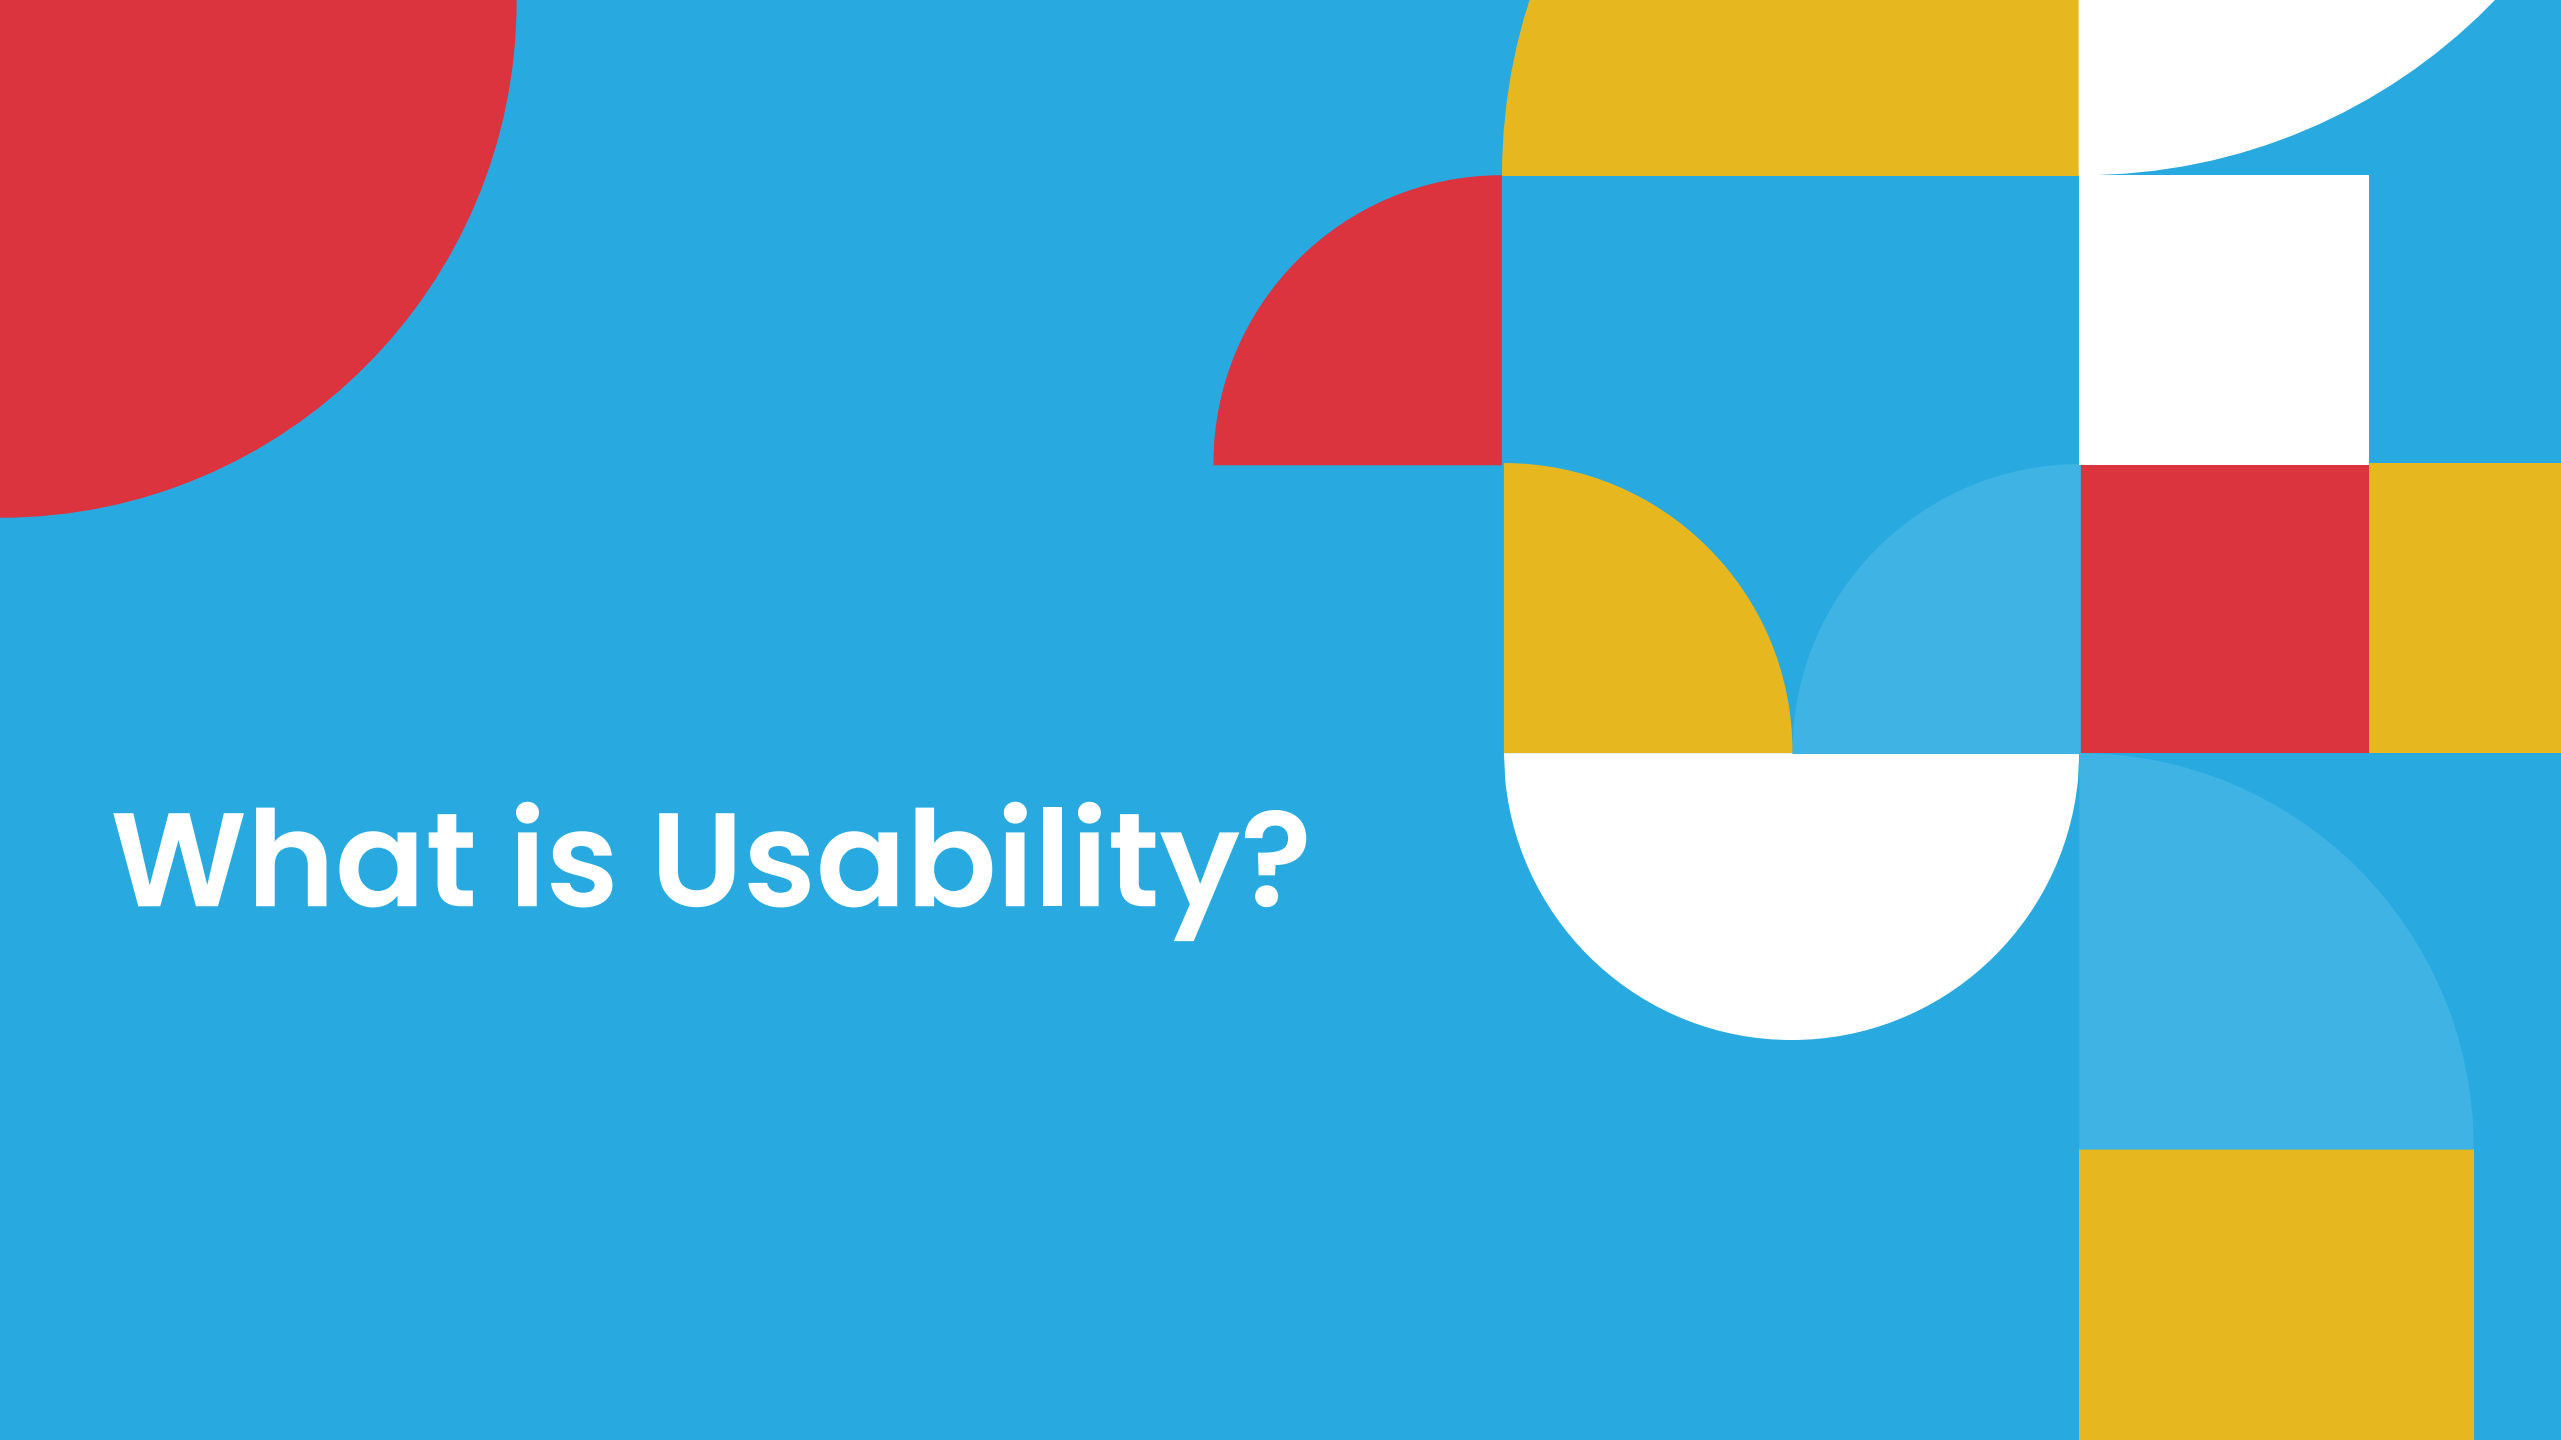

The background is a solid blue color. On the left, there is a large red semi-circle. On the right, there is a complex arrangement of geometric shapes: a yellow semi-circle at the top, a red semi-circle below it, a yellow semi-circle below that, and a white semi-circle at the bottom. To the right of these semi-circles is a grid of squares in blue, white, red, and yellow, some of which are partially cut off by the edges of the frame.

What is UX & UI?

What is UX & UI?

- Websites & mobile apps became responsive – layout adjusting to your devices screen size
- UX – User experience: how the application feels
- UI – User Interface design: how the application looks
- UX design + UI design = Product designer
- Visual communication is about problem solving

The background is a solid blue color. It features several abstract geometric shapes: a large red semi-circle in the top-left corner; a red semi-circle and a yellow semi-circle on the right side, partially overlapping a blue square; a white semi-circle below the yellow one; and a white square in the top-right corner. Other yellow and blue shapes are visible in the bottom-right area.

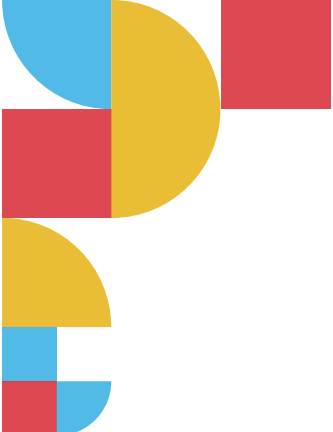

What is Usability?

What is Usability?

Your digital product should be user-focused & the aim is to communicate effectively:

- Easy to read & digest
- Organise your information
- Make use of headlines and sub-headings
- Use bullet points
- Make use of infographics
- Keep it simple & to the point

Applying Effective Usability

Applying Effective Usability

- Links to the basics of design you have been learning
- Effective use of the elements and principles of design
- Elements and principles should be second nature to you
- Make use of the F-layout (left-right; top-bottom)

THE 7 TYPES OF PLASTICS

THEIR TOXICITY AND WHAT THEY ARE MOST COMMONLY USED FOR

TOXICITY CODE:  LOW  HIGH

Polymer Name	POLYETHYLENE TEREPHTHALATE	HIGH-DENSITY POLYETHYLENE	POLYVINYL CHLORIDE	LOW-DENSITY POLYETHYLENE	POLYPROPYLENE	POLYSTYRENE	All other plastics, including acrylic, fiberglass, nylon, polycarbonate, and polylactic acid (a bioplastic)
Resin Identification Code							
Abbreviation	PET or PETE	HDPE	PVC	LDPE	PP	PS	OTHER
Recyclable?	Commonly Recycled	Commonly Recycled	Sometimes Recycled	Sometimes Recycled	Occasionally Recycled	Commonly Recycled (but difficult to do)	Difficult to Recycle
Percentage Recycled Annually	 36%	 30-35%	 <1%	 6%	 3%	 34%	 Low
How Long to Decompose Under Perfect Conditions	 5-10 Years	 100 Years	 Never	 500-1,000 Years	 20-30 Years	 50 Years	Majority of these plastics: never Polylactic acid: 6 months
Maximum Temperature	 70°C (158°F)	 120°C (248°F)	 70°C (158°F)	 80°C (176°F)	 135°C (275°F)	 90°C (194°F)	Polycarbonate: 135°C (275°F) Polylactic acid: 150°C (302°F)
Brittleness Temperature	 -40°C (-40°F)	 -100°C (-148°F)	 -30°C (-22°F)	 -100°C (-148°F)	 0°C (32°F)	 -20°C (-4°F)	Polycarbonate: -135°C (-211°F) Polylactic acid: 60°C (140°F)
Toxicity Level							
Most Commonly Leached Toxin(s)	Antimony Oxide, Bromine, Diazomethane, Lead Oxide, Nickel Ethylene Oxide, and Benzene	Chromium Oxide, Benzoyl Peroxide, Hexane, and Cyclohexane	Benzene, Carbon Tetrachloride, 1,2-Dichloroethane, Phthalates, Ethylene Oxide, Lead Chromate, Methyl Acrylate, Methanol, Phthalic Anhydride, Tetrahydrofuran, and Tribasic Lead Sulfate, Mercury, Cadmium, Bisphenol A (BPA)	Benzene, Chromium Oxide, Cumene Hydroperoxide, And Tert-butyl Hydroperoxide	Methanol, 2,6-di-tert-Butyl-4-Methyl Phenol, and Nickel Dibutyl Dithiocarbamate	Styrene, Ethylbenzene, Benzene, Ethylene, Carbon Tetrachloride, Polyvinyl Alcohol, Antimony Oxide, and Tert-butyl Hydroperoxide, Benzoquinone	BPA, BPS, as well as all other toxins mentioned

Applying Effective Usability

Keep it simple & to the point

Making Use of Hex Colours

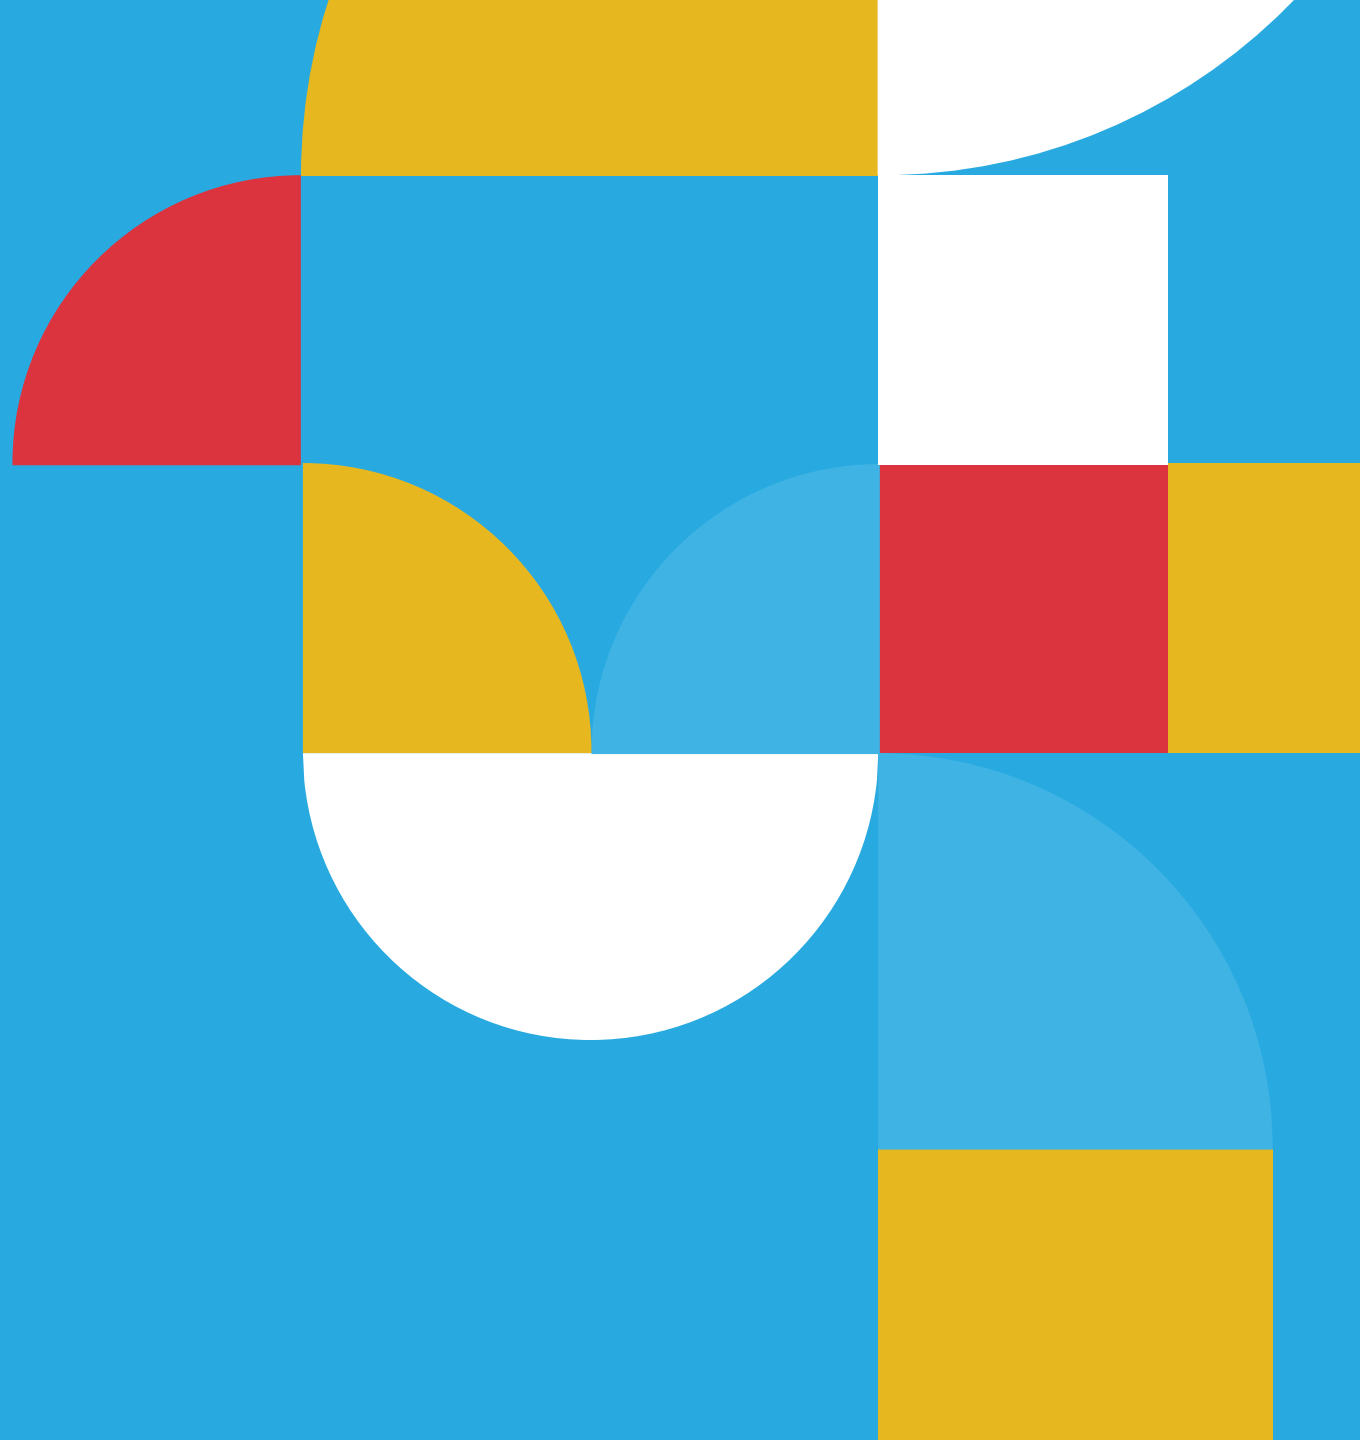

Making Use of Hex Colours

- Links to the basics of design you have been learning
- Using codes avoid confusion
- Ill, PS & ID display the Hex colour code for you
- Simply google 'hex colour' – Google colour picker
- Useful for logos and other designs where colour needs to be very specific

Designing for Social Media

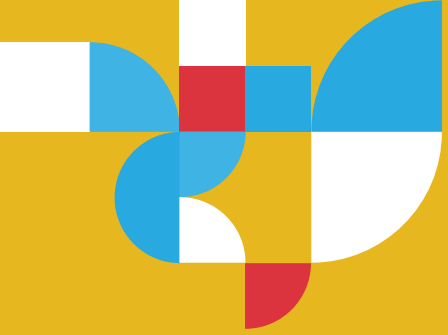

Designing for Social Media

Millions of people upload images to social media daily

Social media platforms reduce the quality of images

Facebook & Instagram

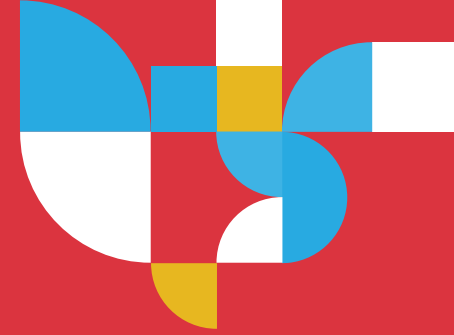

Designing for Social Media

Facebook & Instagram

- Save as JPG (continuous tone) or PNG (flat colours or type)
- RGB colour mode
- Photoshop
- Quality: 12
- Format options: Baseline 'optimize'

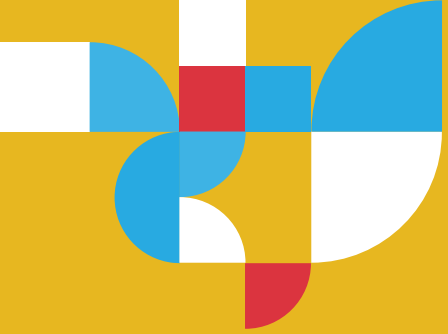

Designing for Social Media

Facebook

- Profile picture: 2048px 2048 px (ratio 1:1)
- Page cover photo: 1958px x 745px (ratio 2,63:1)
- Post image (newsfeed): 2048px wide
- [Postplanner.com](https://www.postplanner.com)

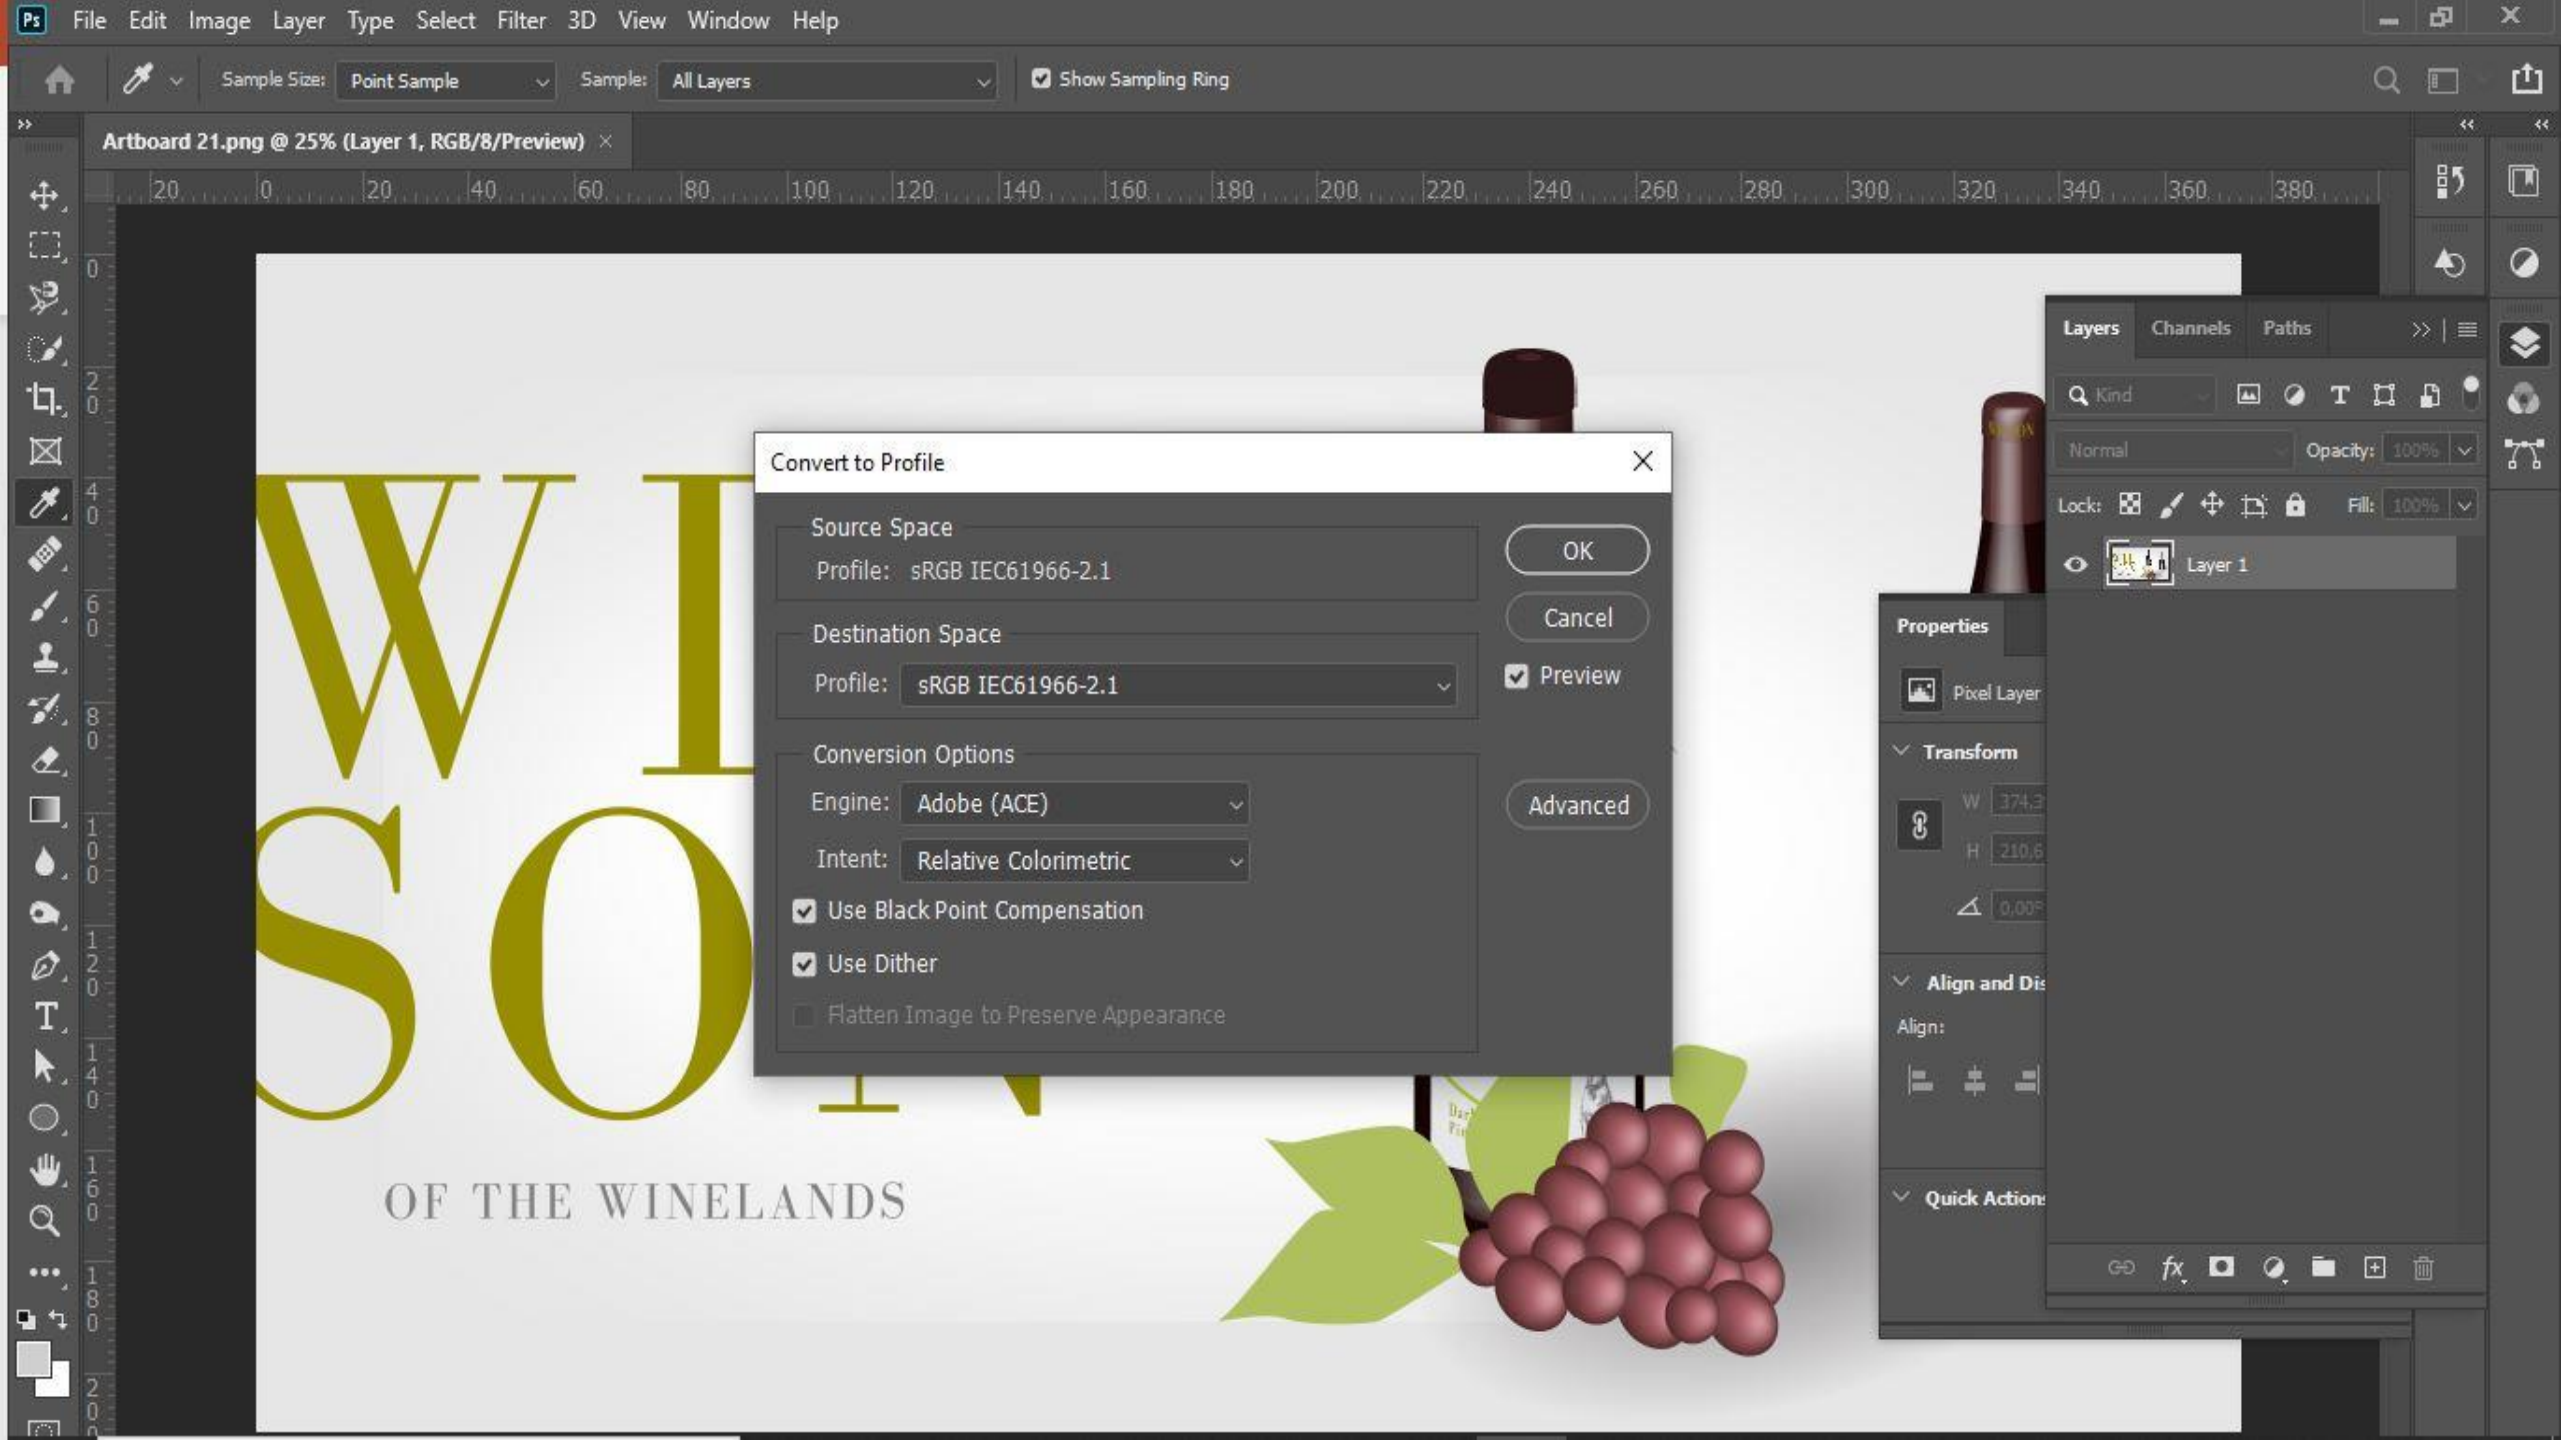

Designing for Social Media

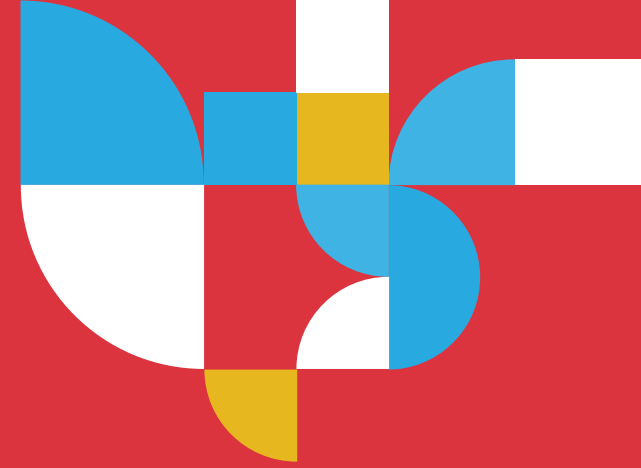

Instagram

Instagram ads & posts:

- Square: 600px x 600px & 1936px x 1936px
(ratio 1:1)
- Landscape: 600px x 315px & 1936px x 1014px
(ratio 1,91:1)
- Portrait: 600px x 750px & 1936px 2420px
(ratio 4:5)

Coming Up in Lesson 8

Defining infographics

Different type of infographics

Steps to create effective infographics

The background features abstract geometric shapes in red, yellow, and blue. In the top left, a large red semi-circle is partially visible. On the right side, there is a complex arrangement of shapes: a yellow semi-circle at the top, a red semi-circle below it, and a blue semi-circle further down. To the right of these are several squares and rectangles in blue, red, and yellow, some of which are partially cut off by the edge of the frame. The overall design is clean and modern.

CONGRATULATIONS
FOR COMPLETING YOUR LESSON!
