

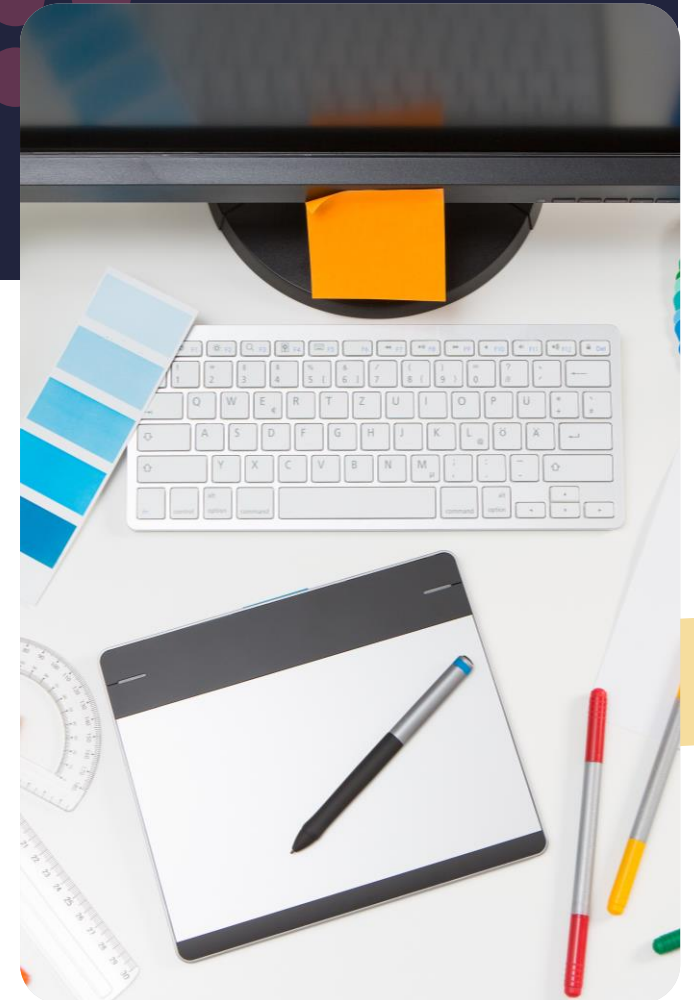

Graphic Design

Power tools in Photoshop

*If you can properly define the
problem, then you've already
defined the solution as well.*

- Chip Kidd

Create actions in Photoshop <

Make your own Photoshop brushes <

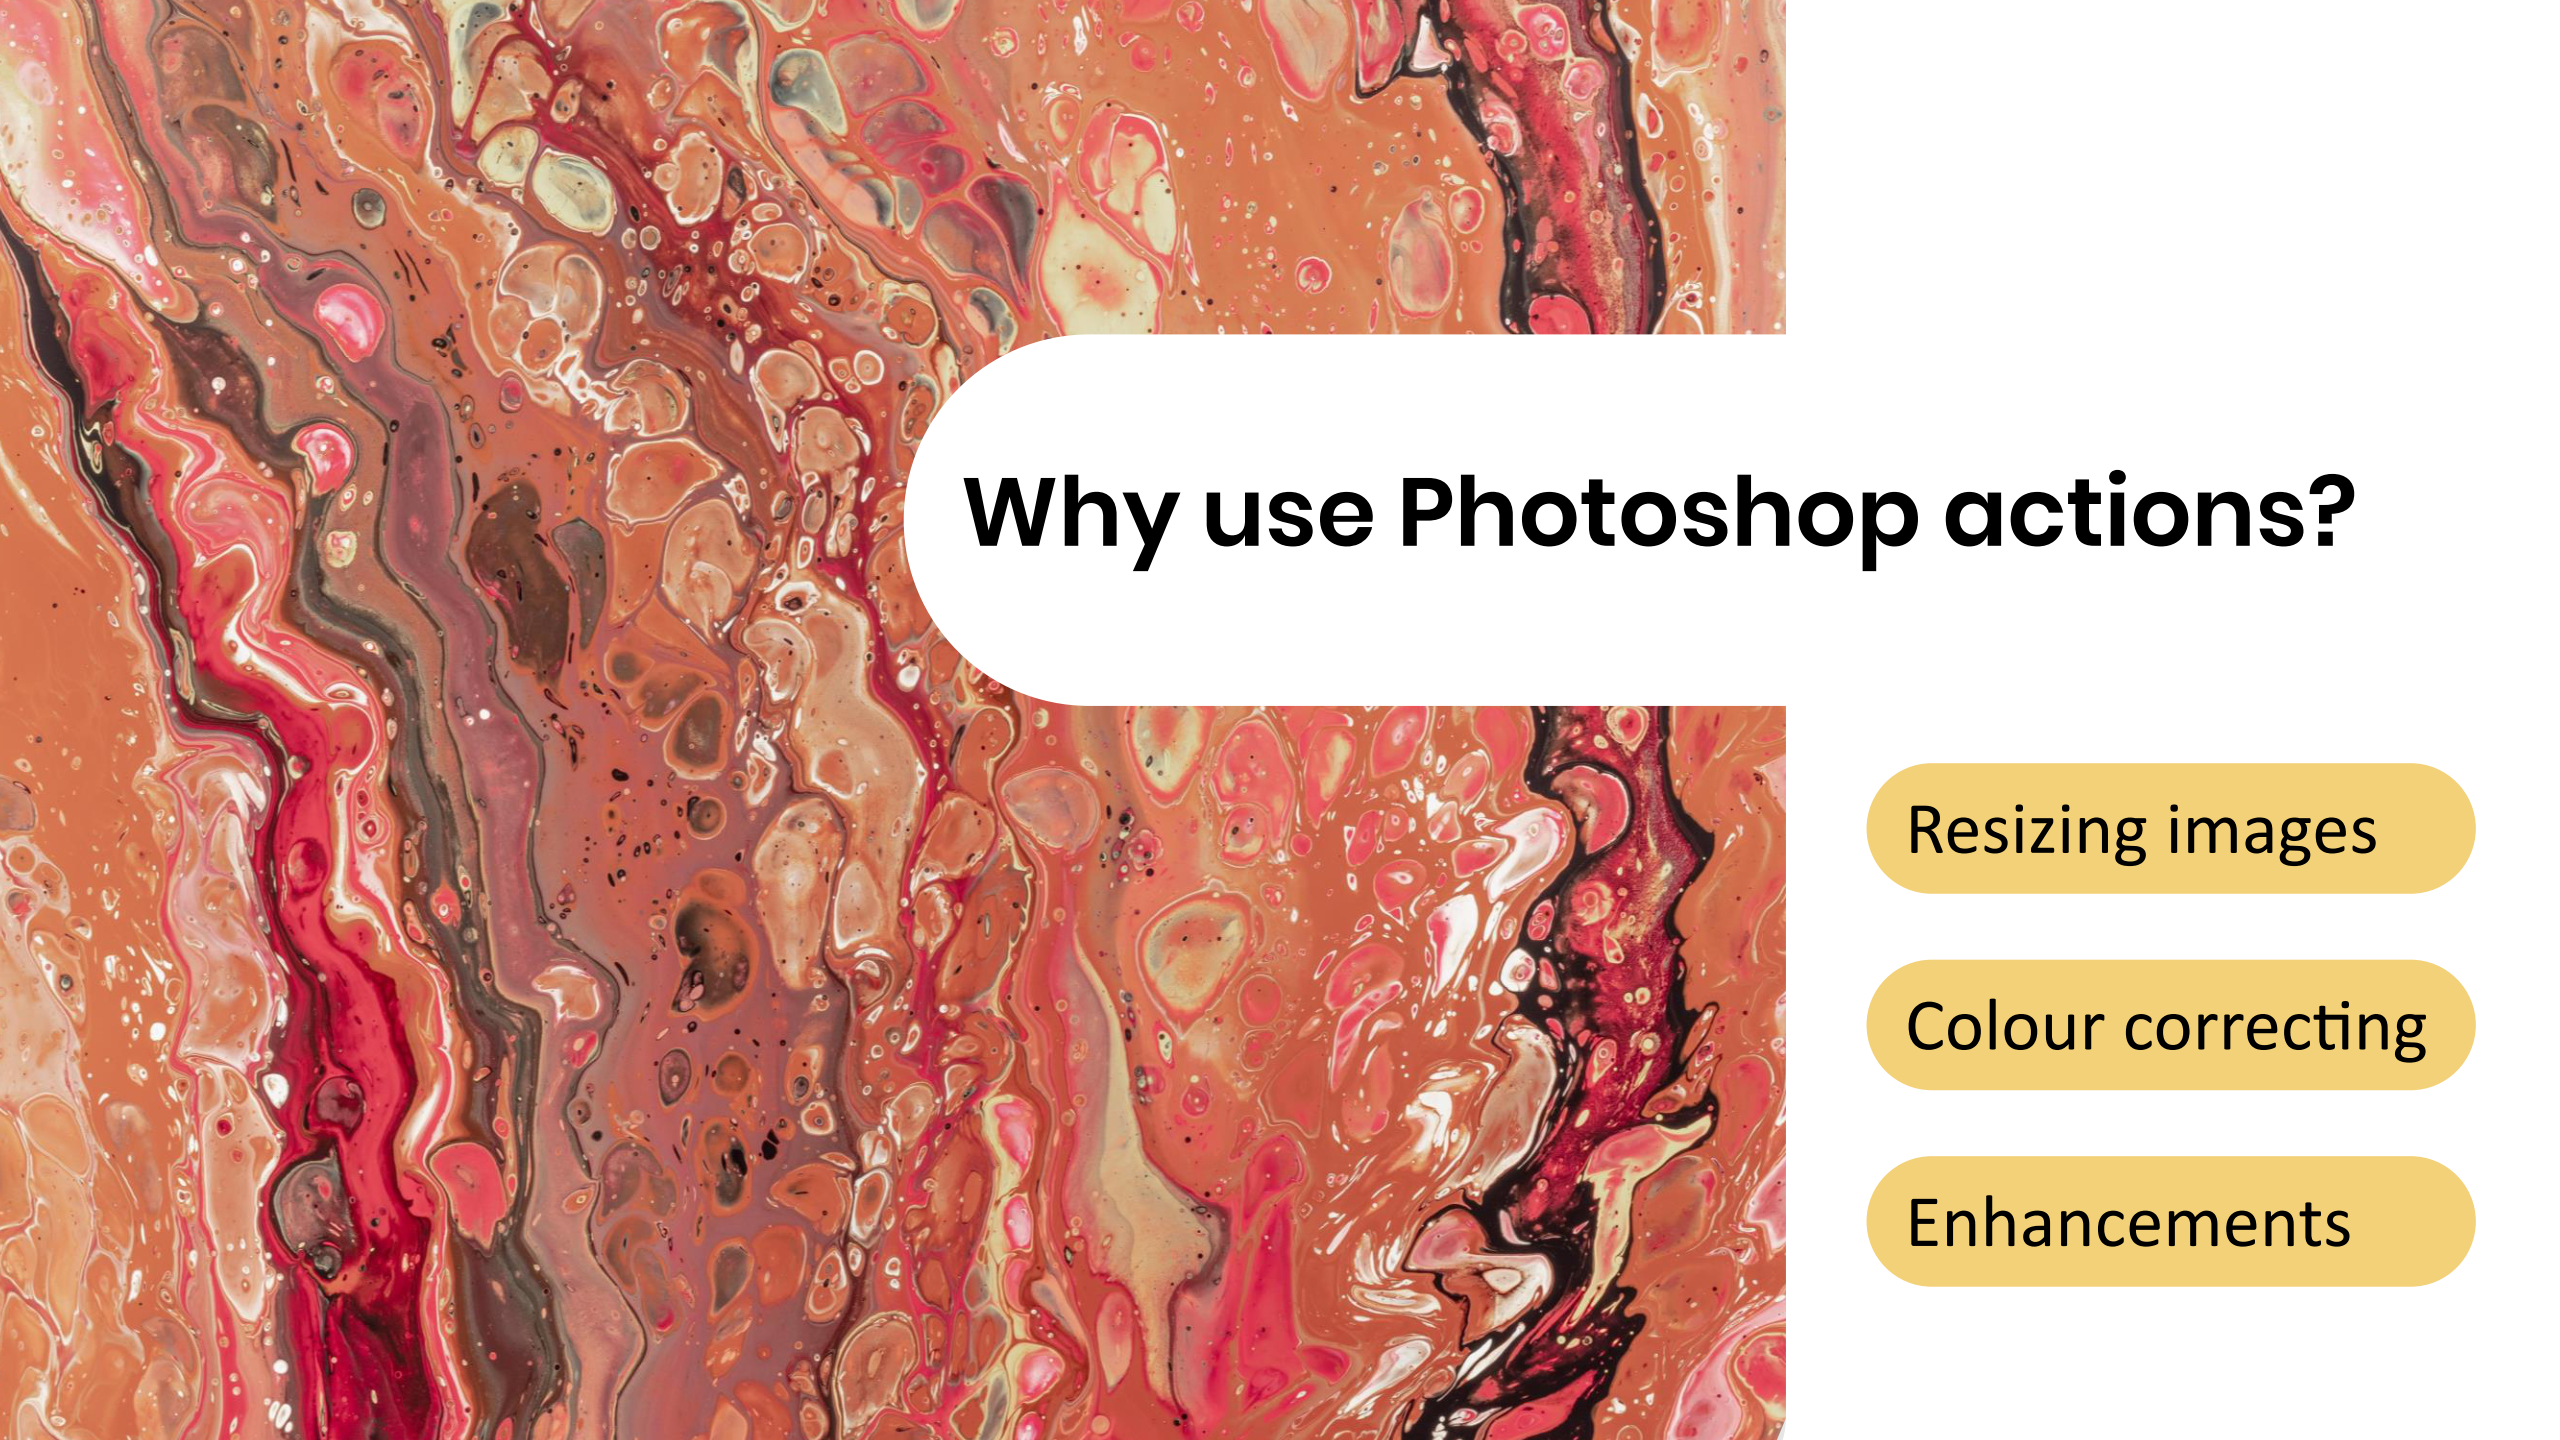

Work with Photoshop's automate function <

Design an animated GIF <

Lesson Objectives

Create actions in Photoshop

The background of the slide is a vibrant, multi-colored marbled paper pattern. It features swirling veins of red, orange, yellow, and black, creating a complex, organic texture. A white, rounded speech bubble is positioned in the upper-middle section of the slide, containing the main title.

Why use Photoshop actions?

Resizing images

Colour correcting

Enhancements

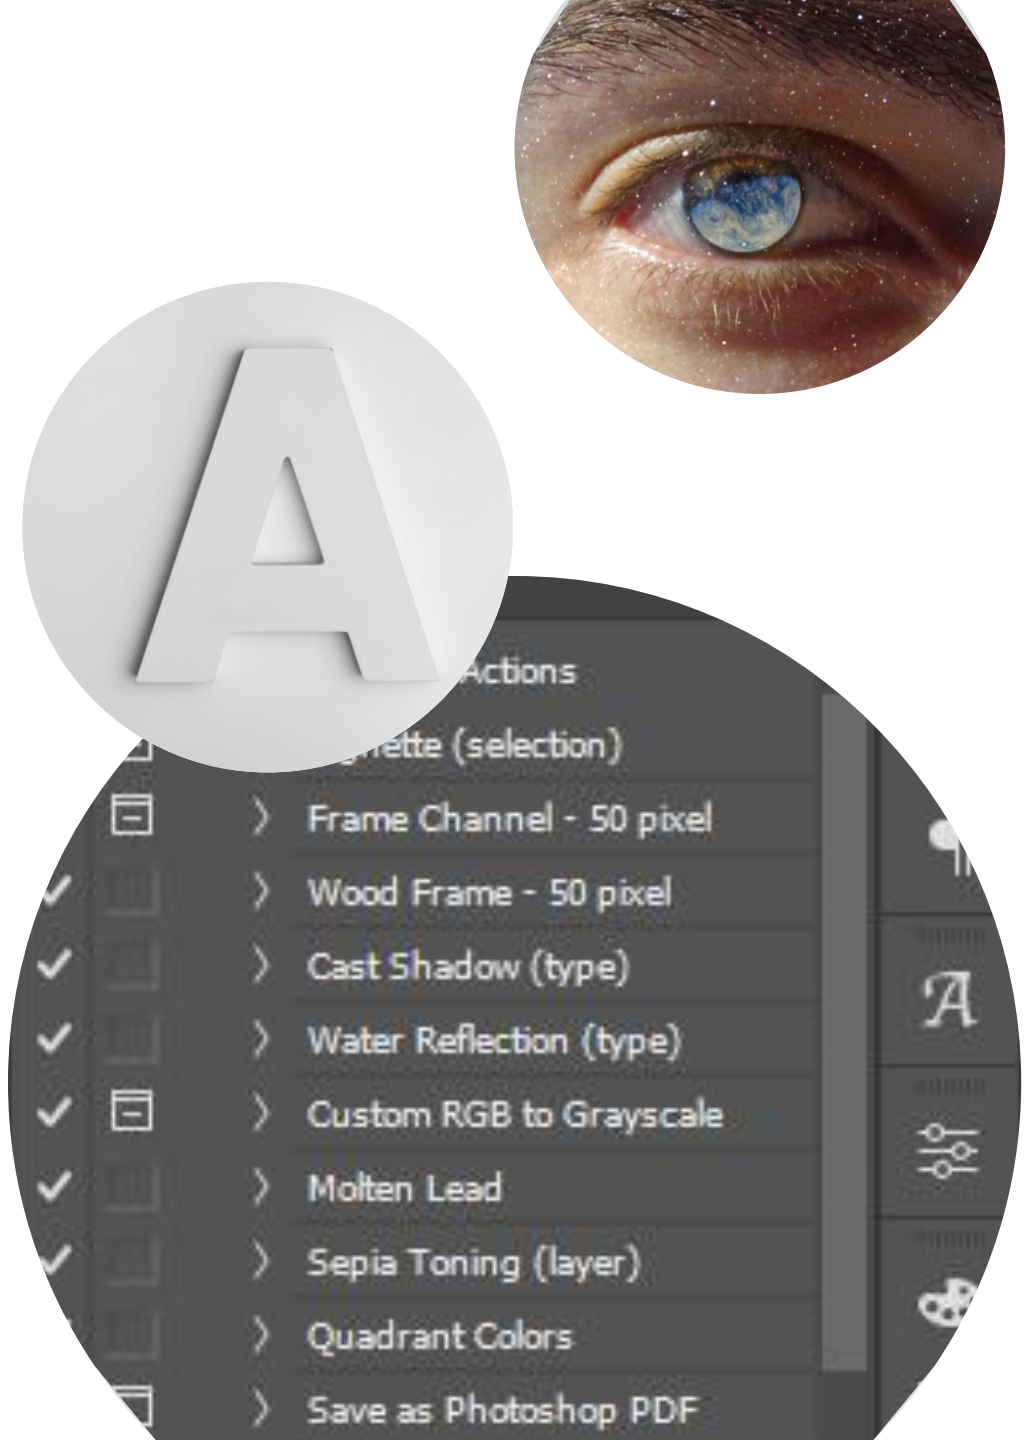

How to create an action

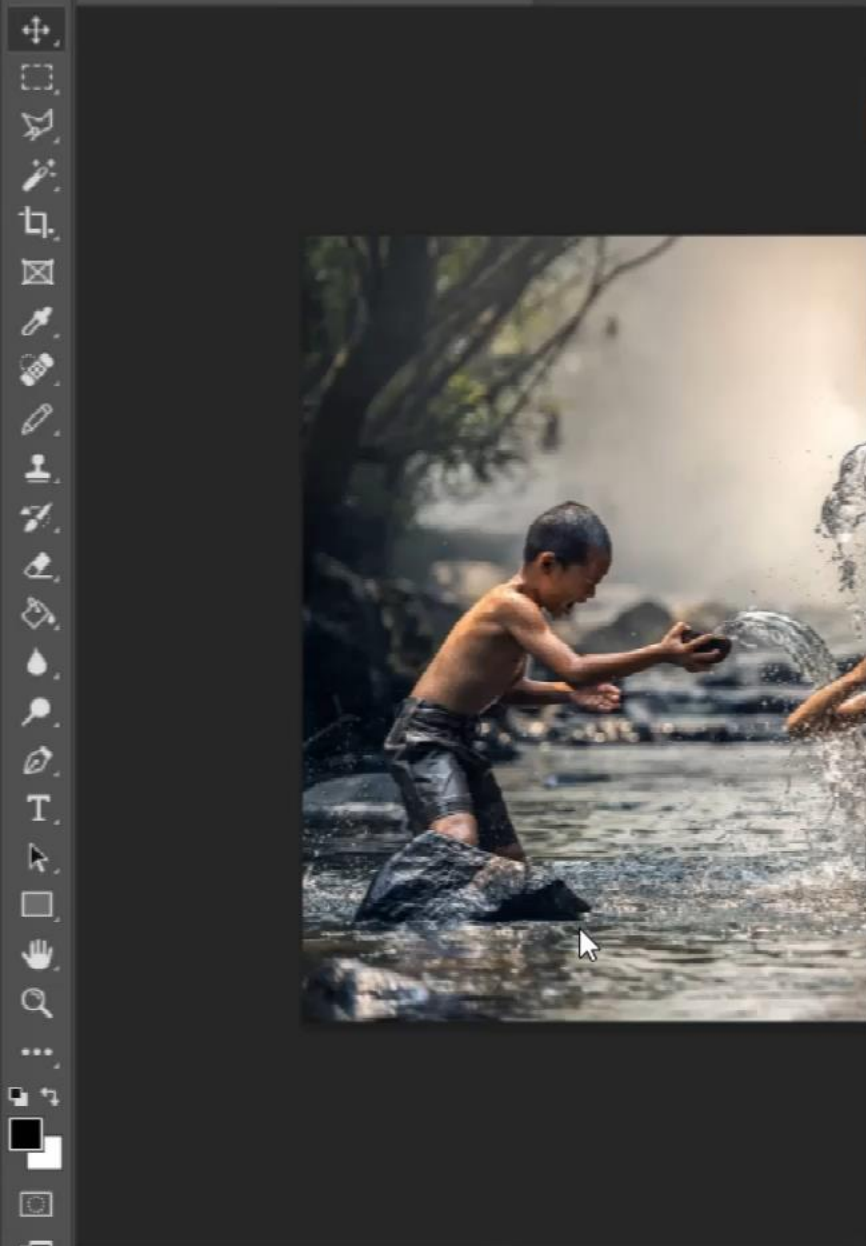

Open the actions panel

Record your action

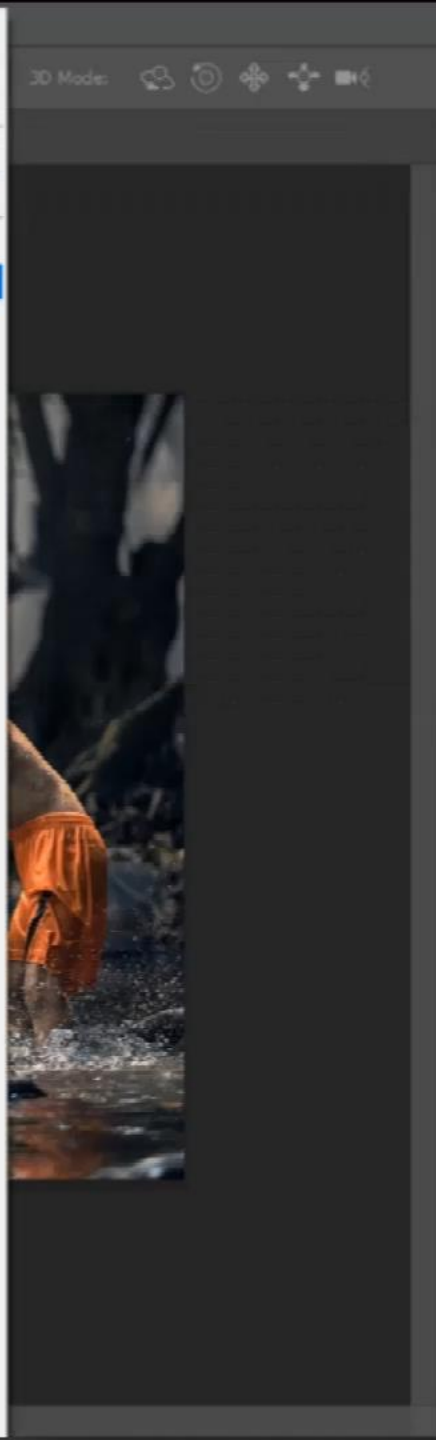

Play your action

Manage and edit your action

**Did you
know?**

Photoshop was not created
as an image editing software
at first.

Today, it is the epitome of
image editing.

Make your own Photoshop brushes

Install a Photoshop brush

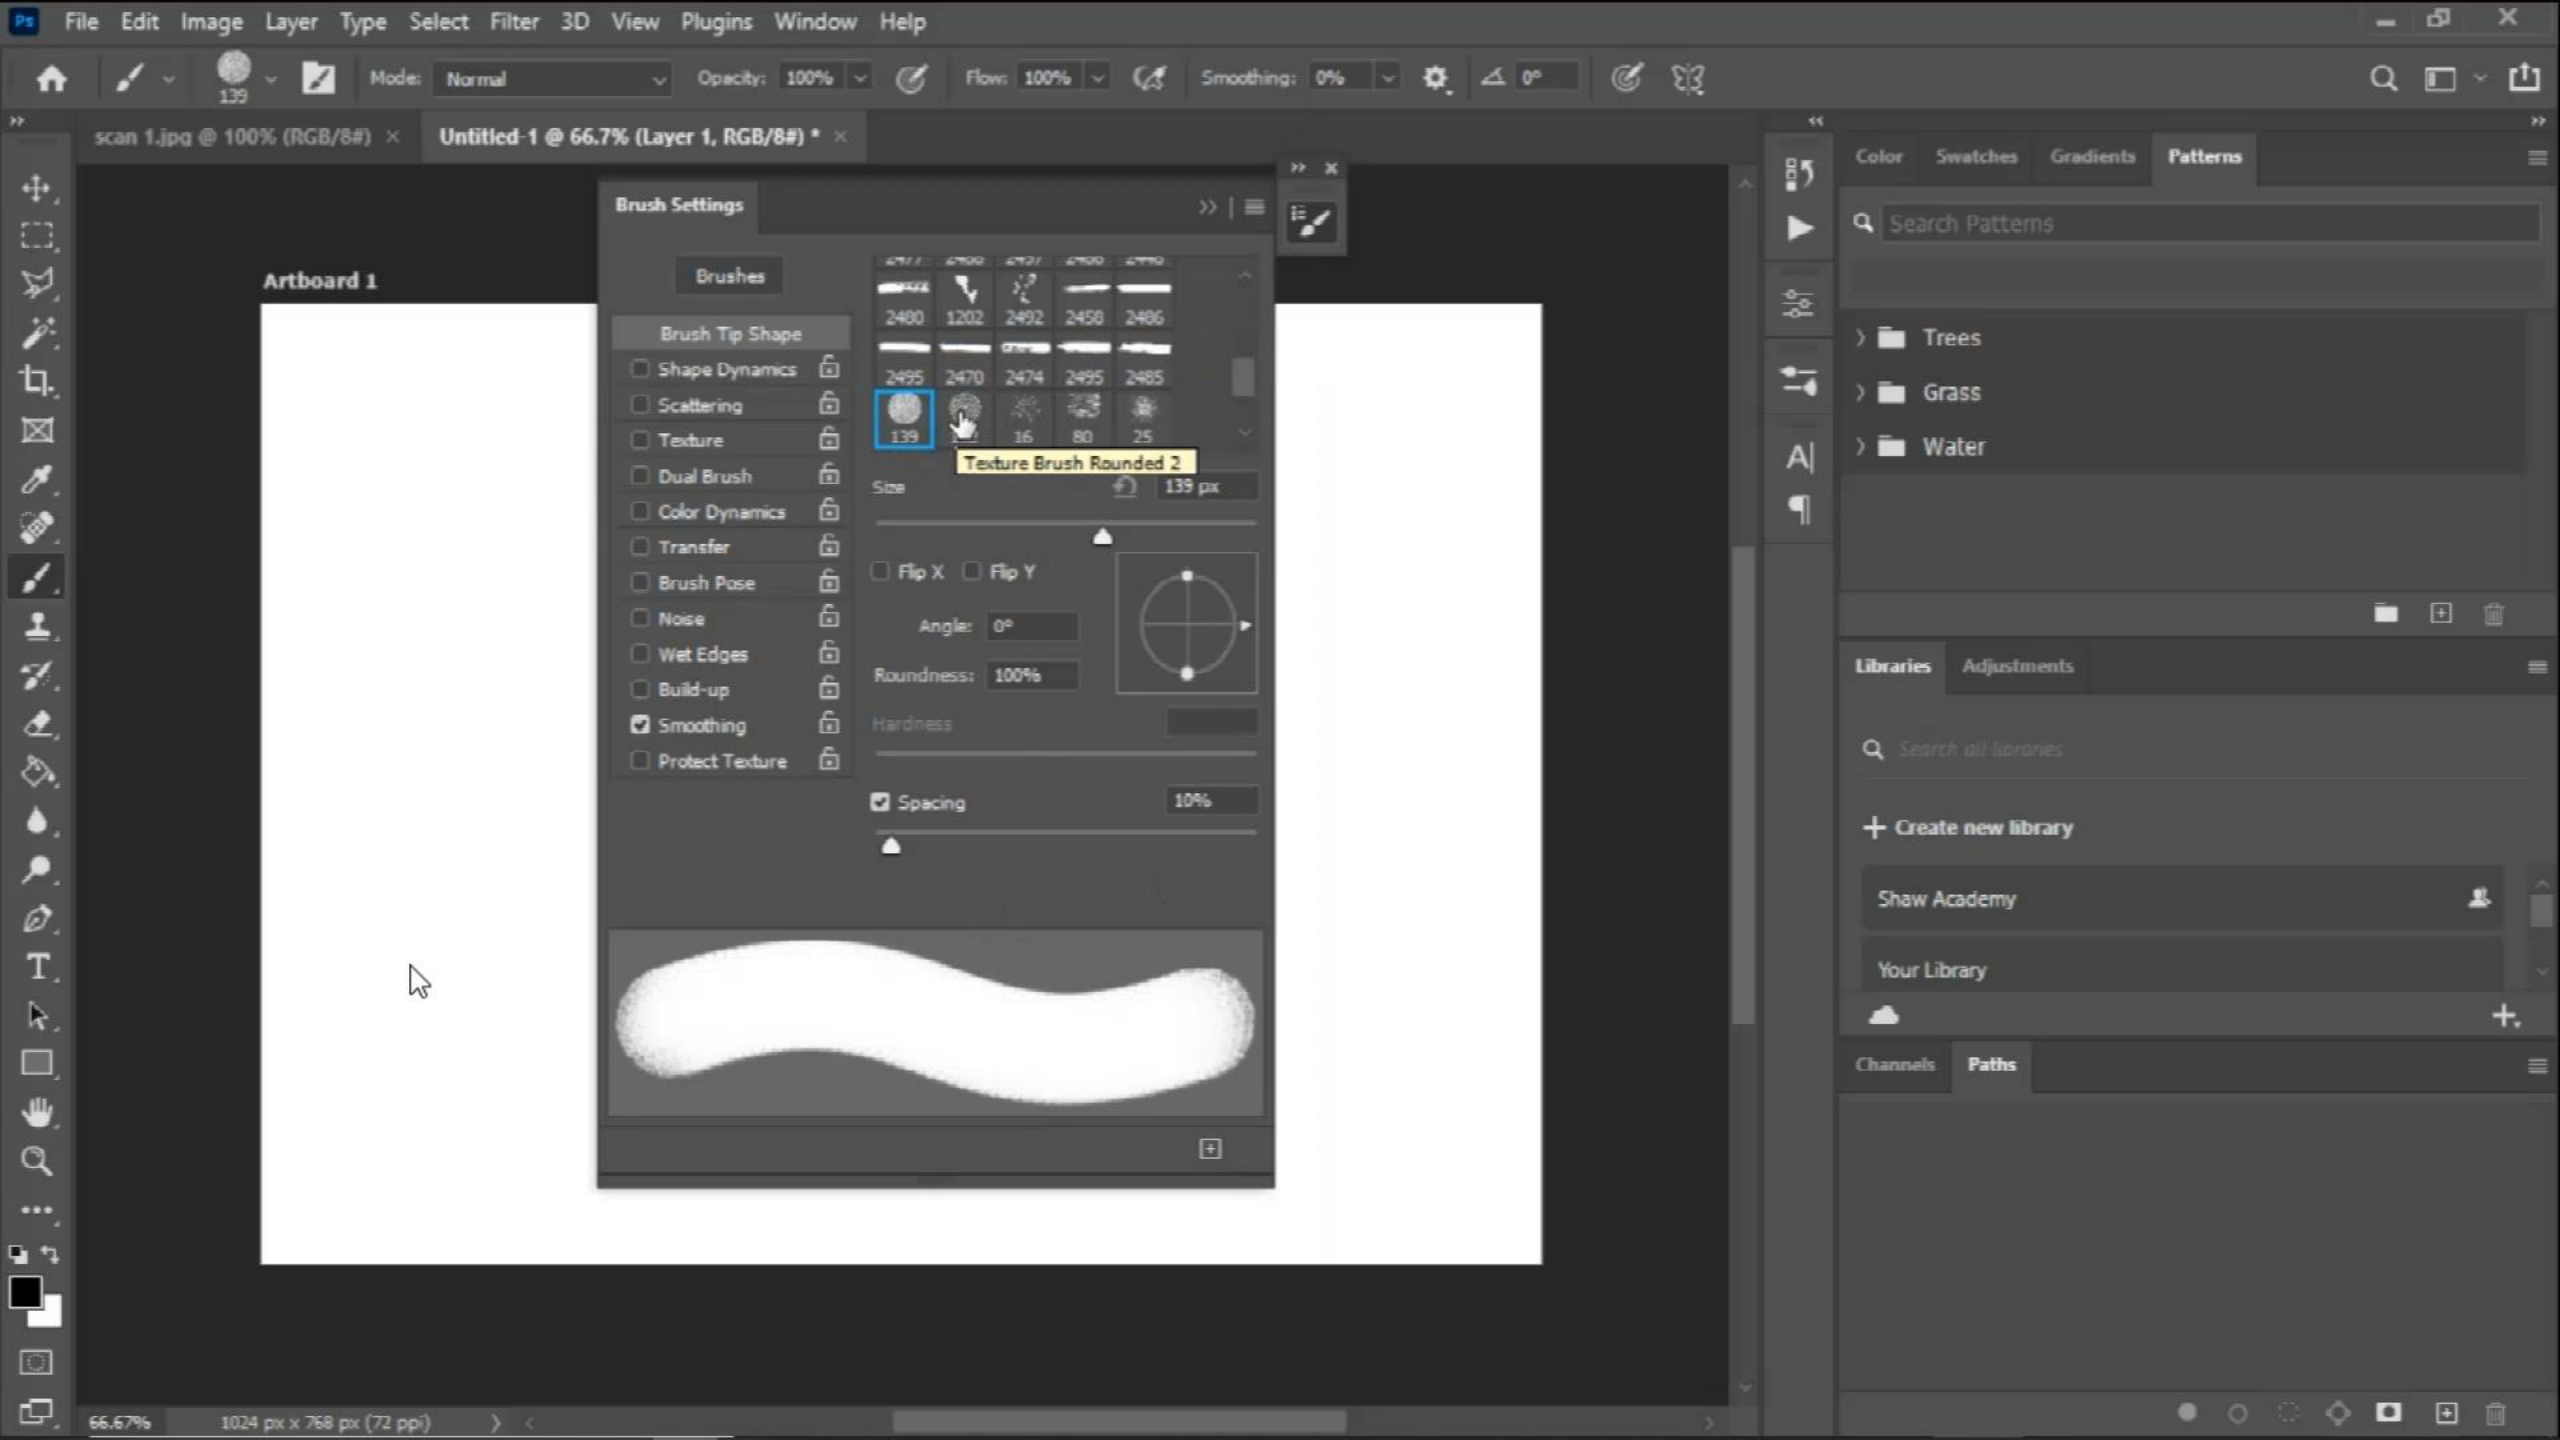

Download from Brusheezy, Brush lovers or My Photoshop brushes

Download the .abr file

Locate the file

Double click file to install

File is located under brush preset menu

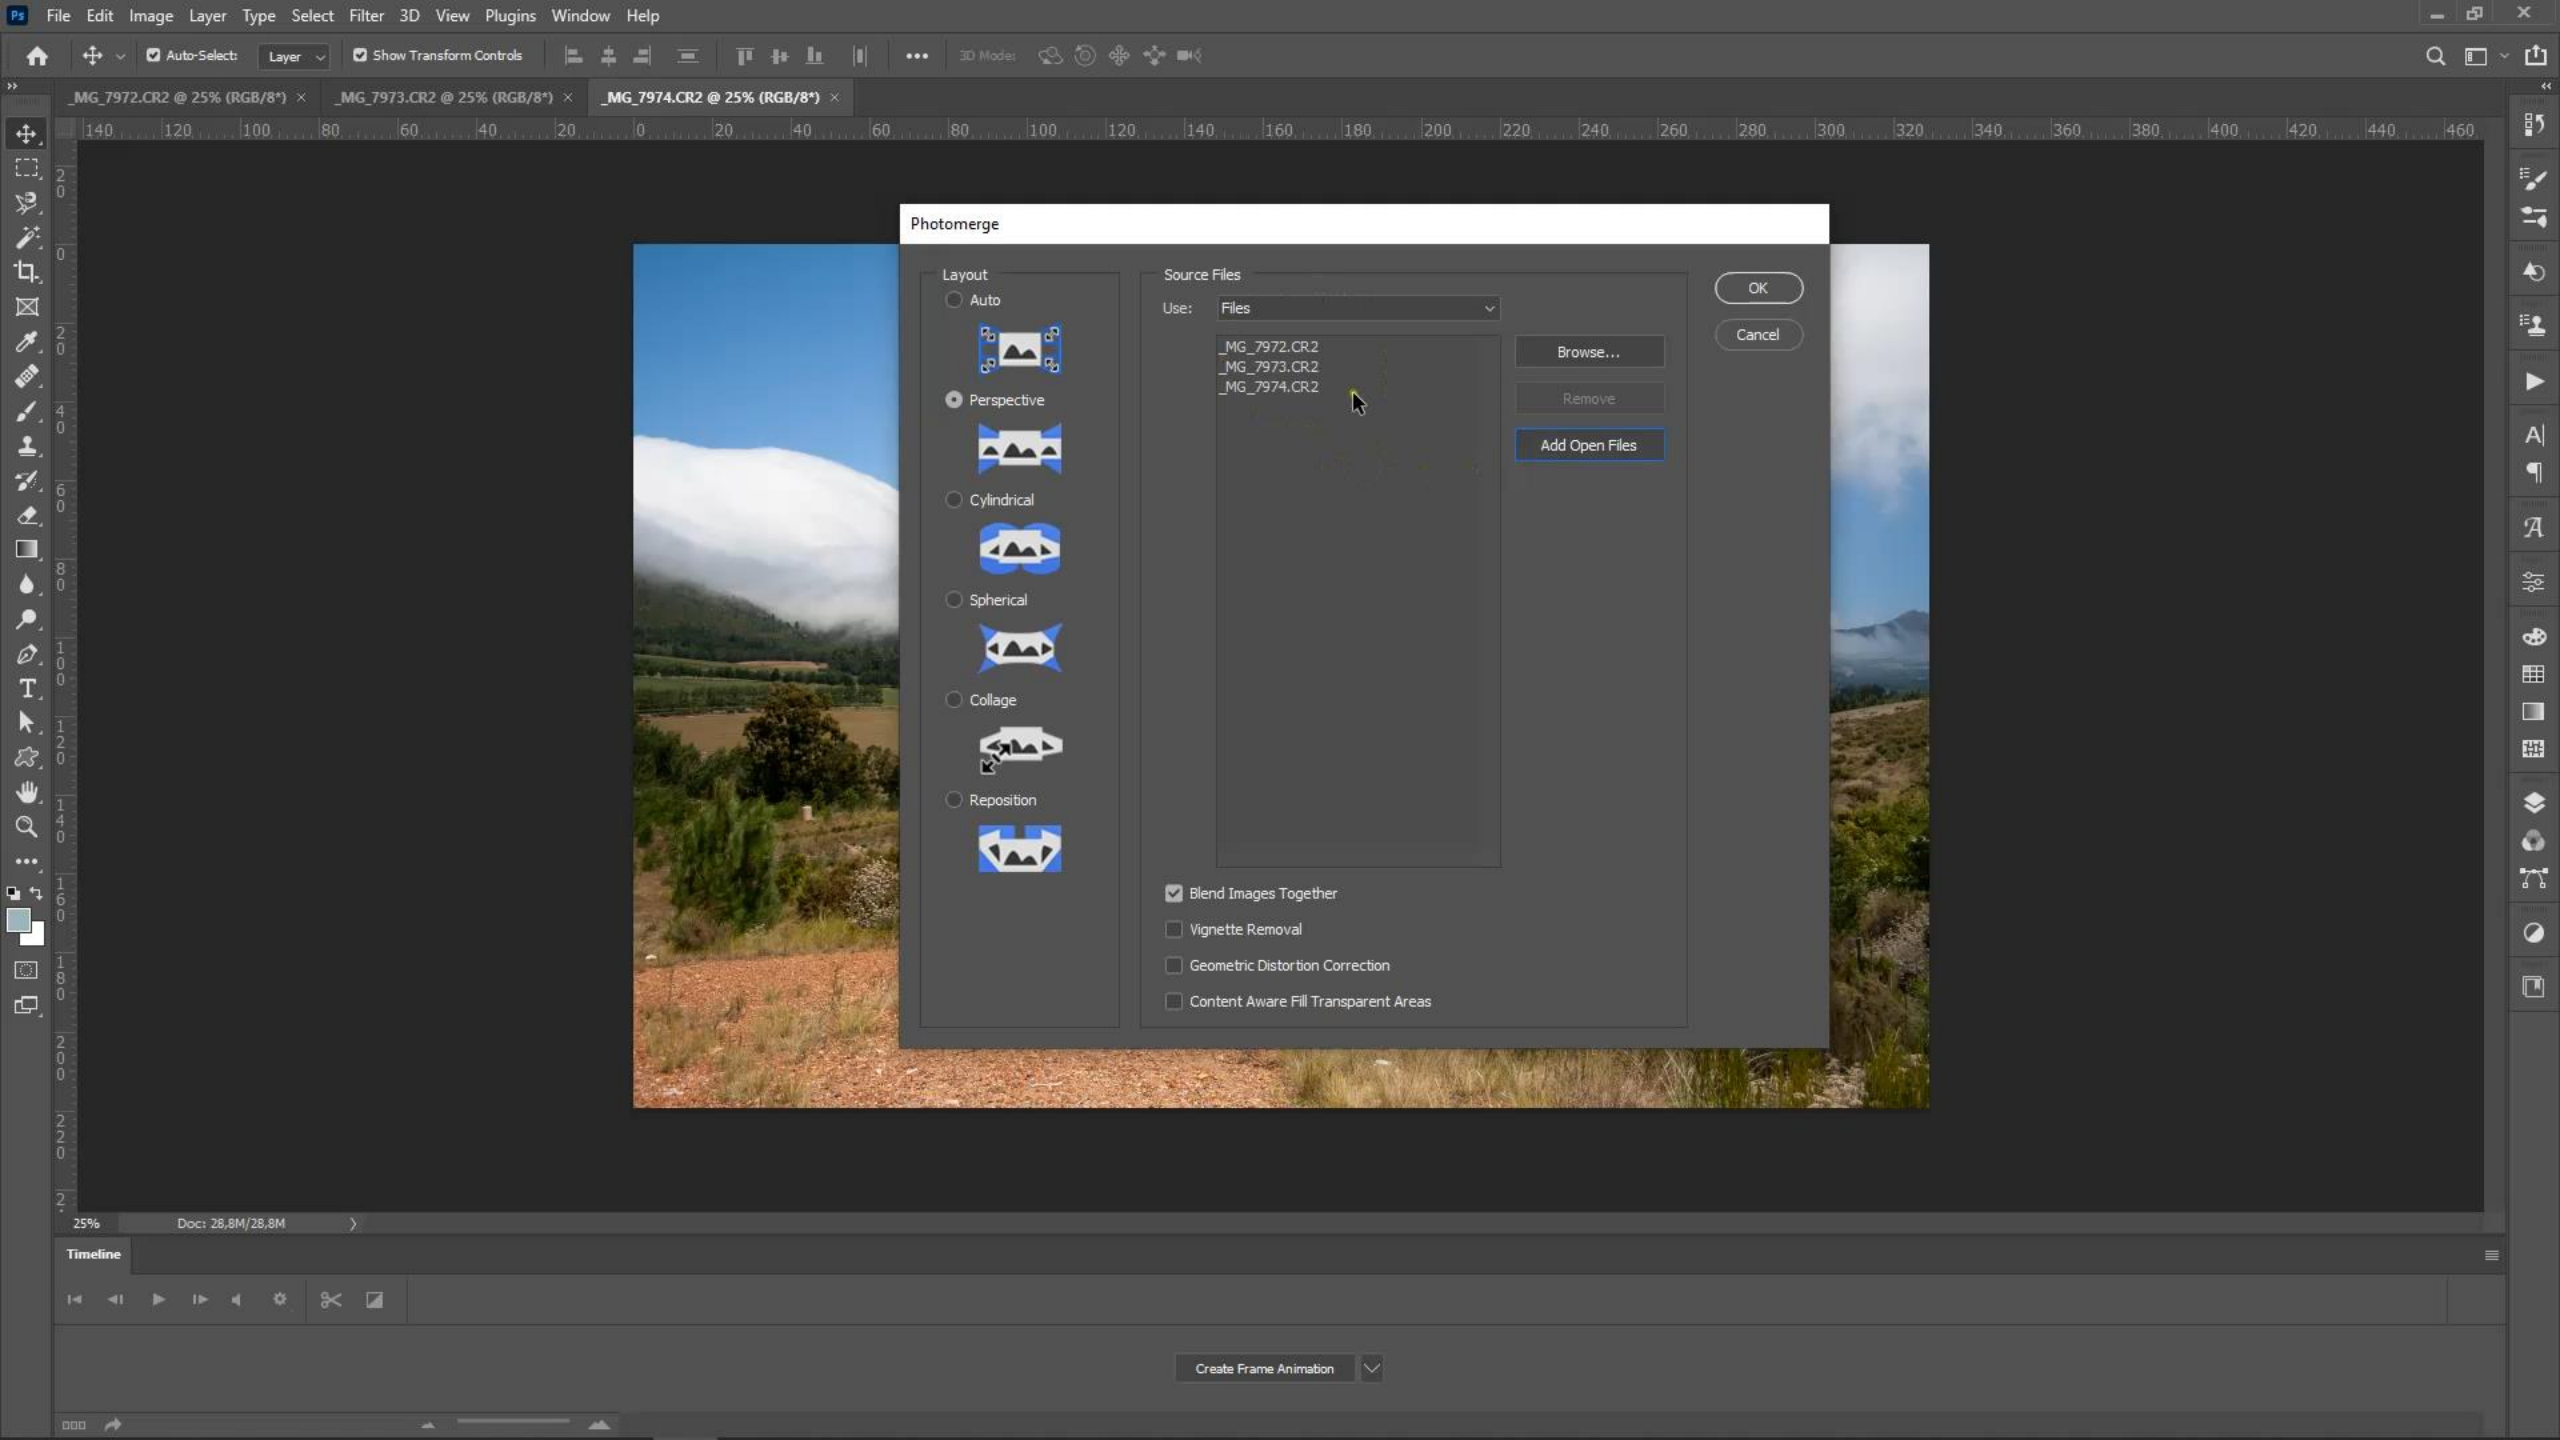

Work with Photoshop's automate function

Panoramic photograph

An image consisting of a wide angle view

Combine multiple adjacent photographs to form a wide view

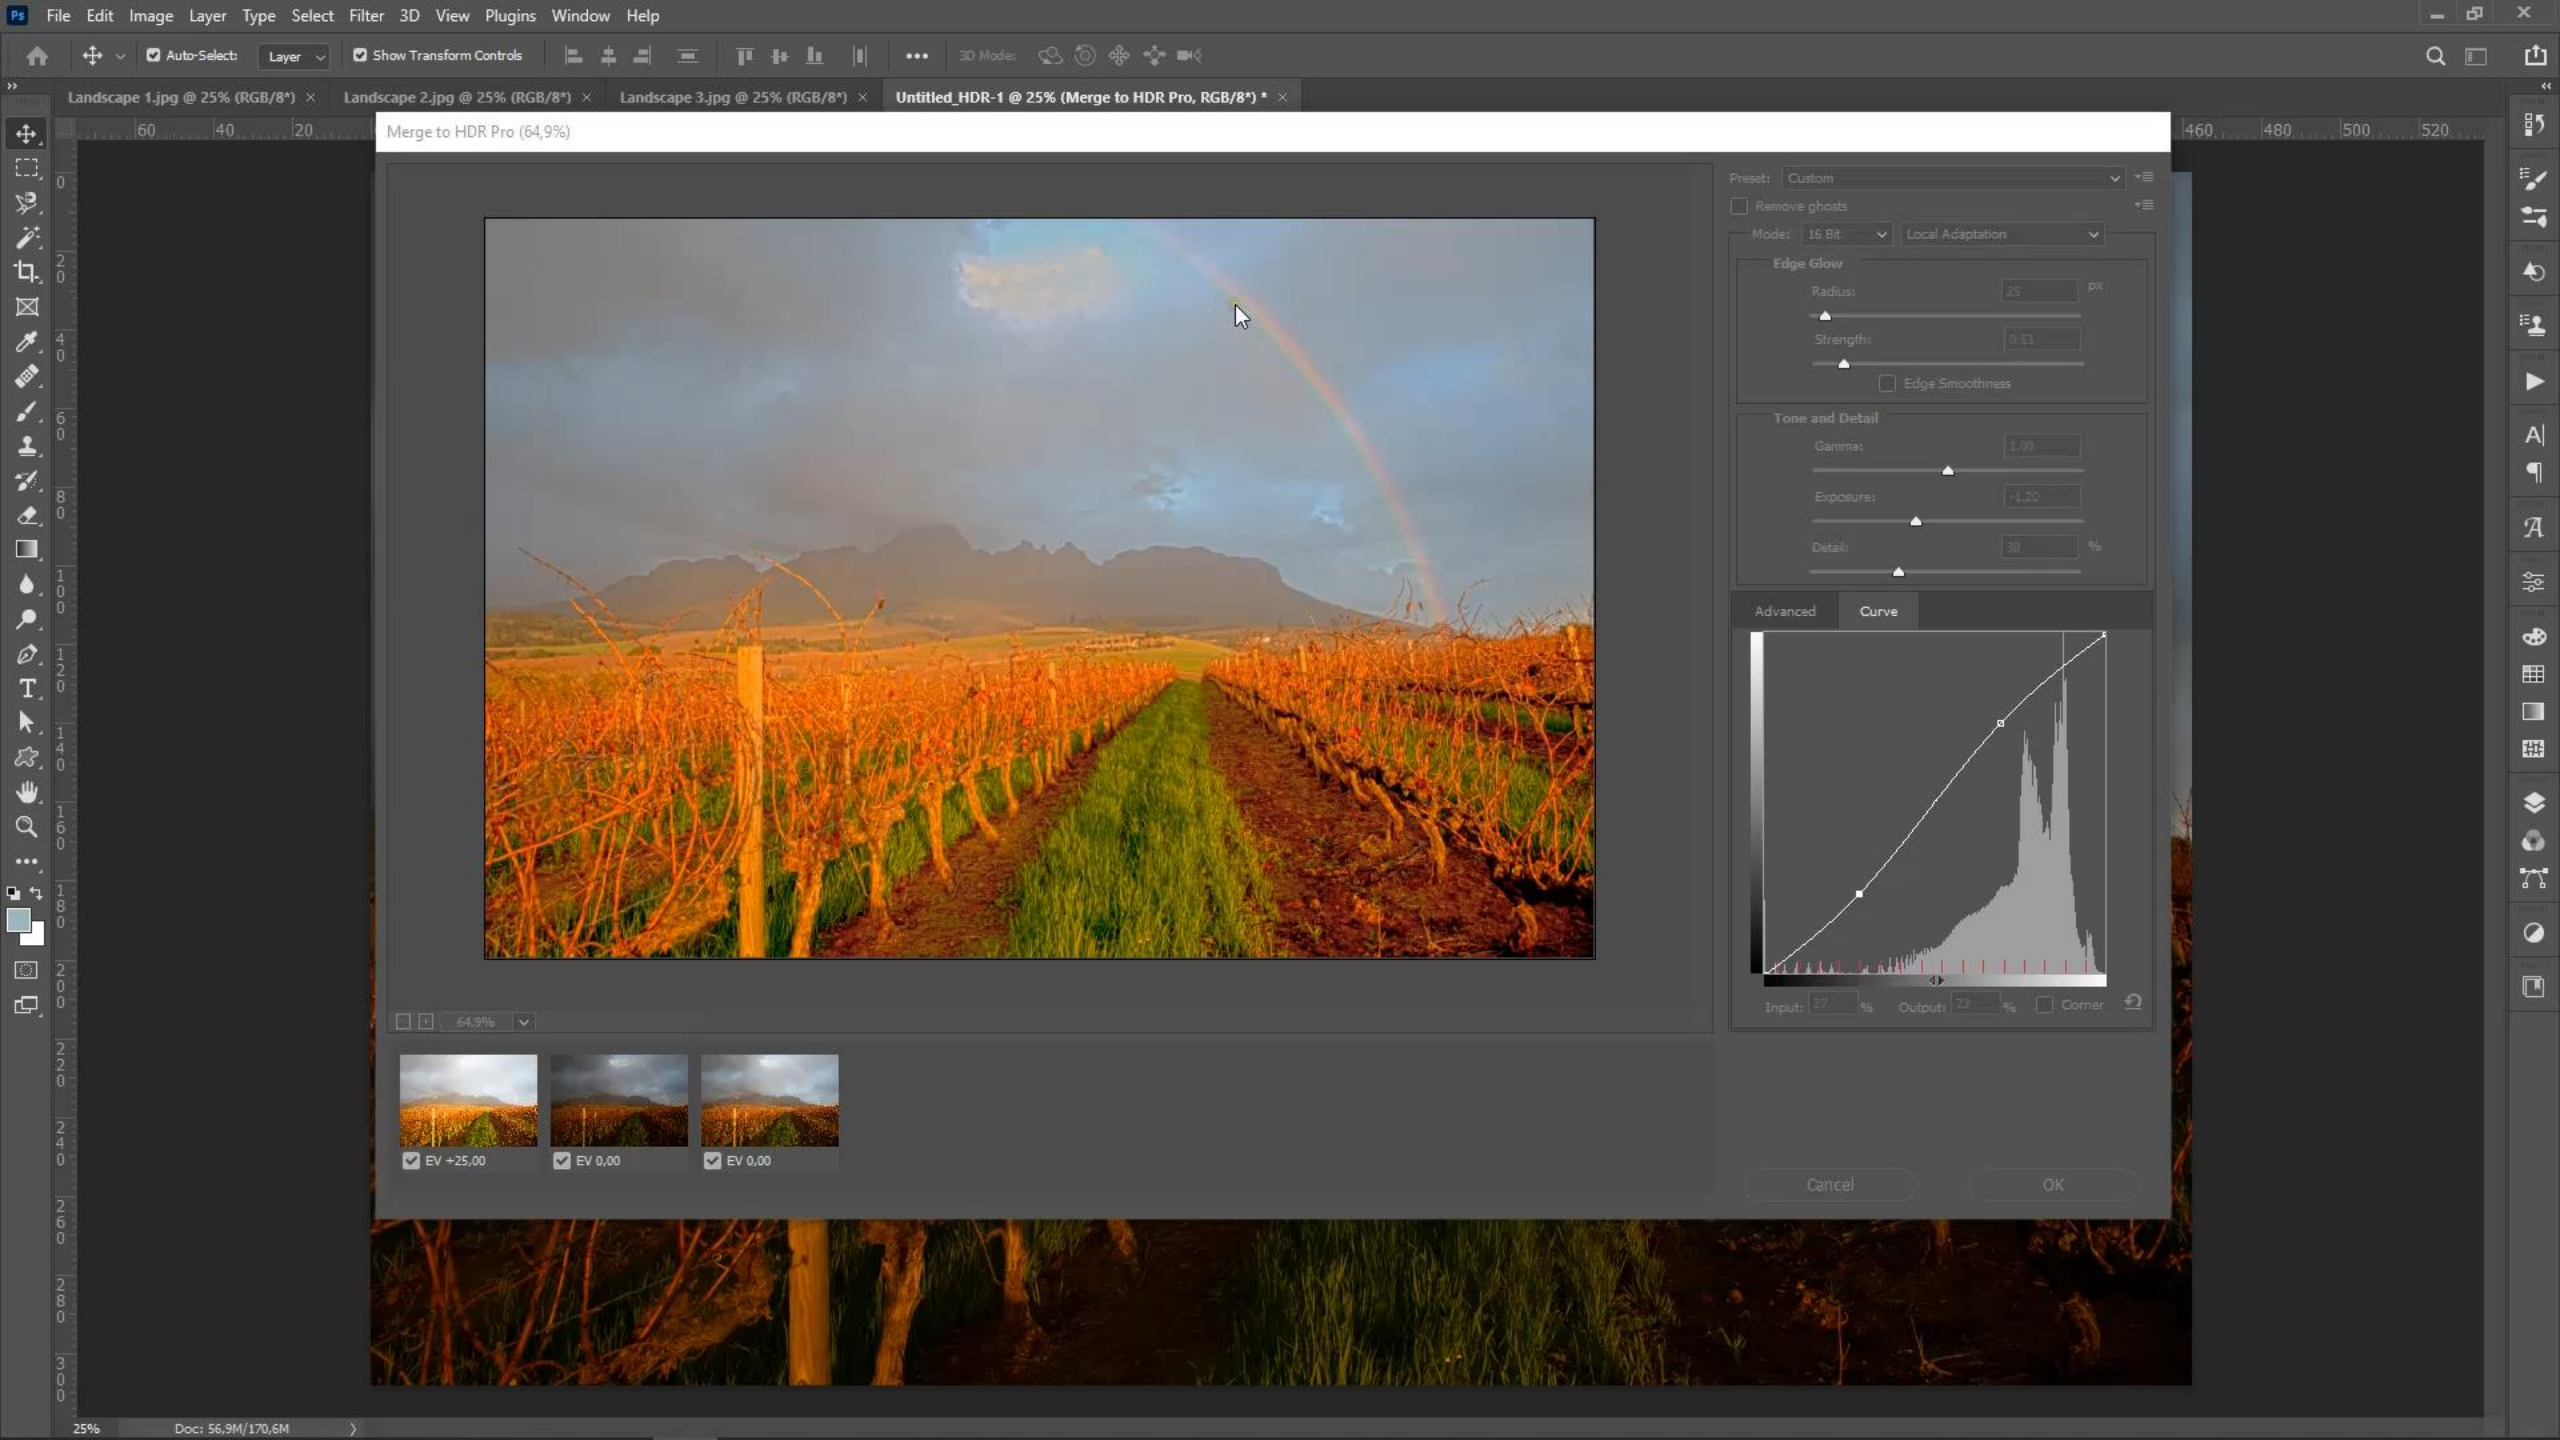

HDR photograph

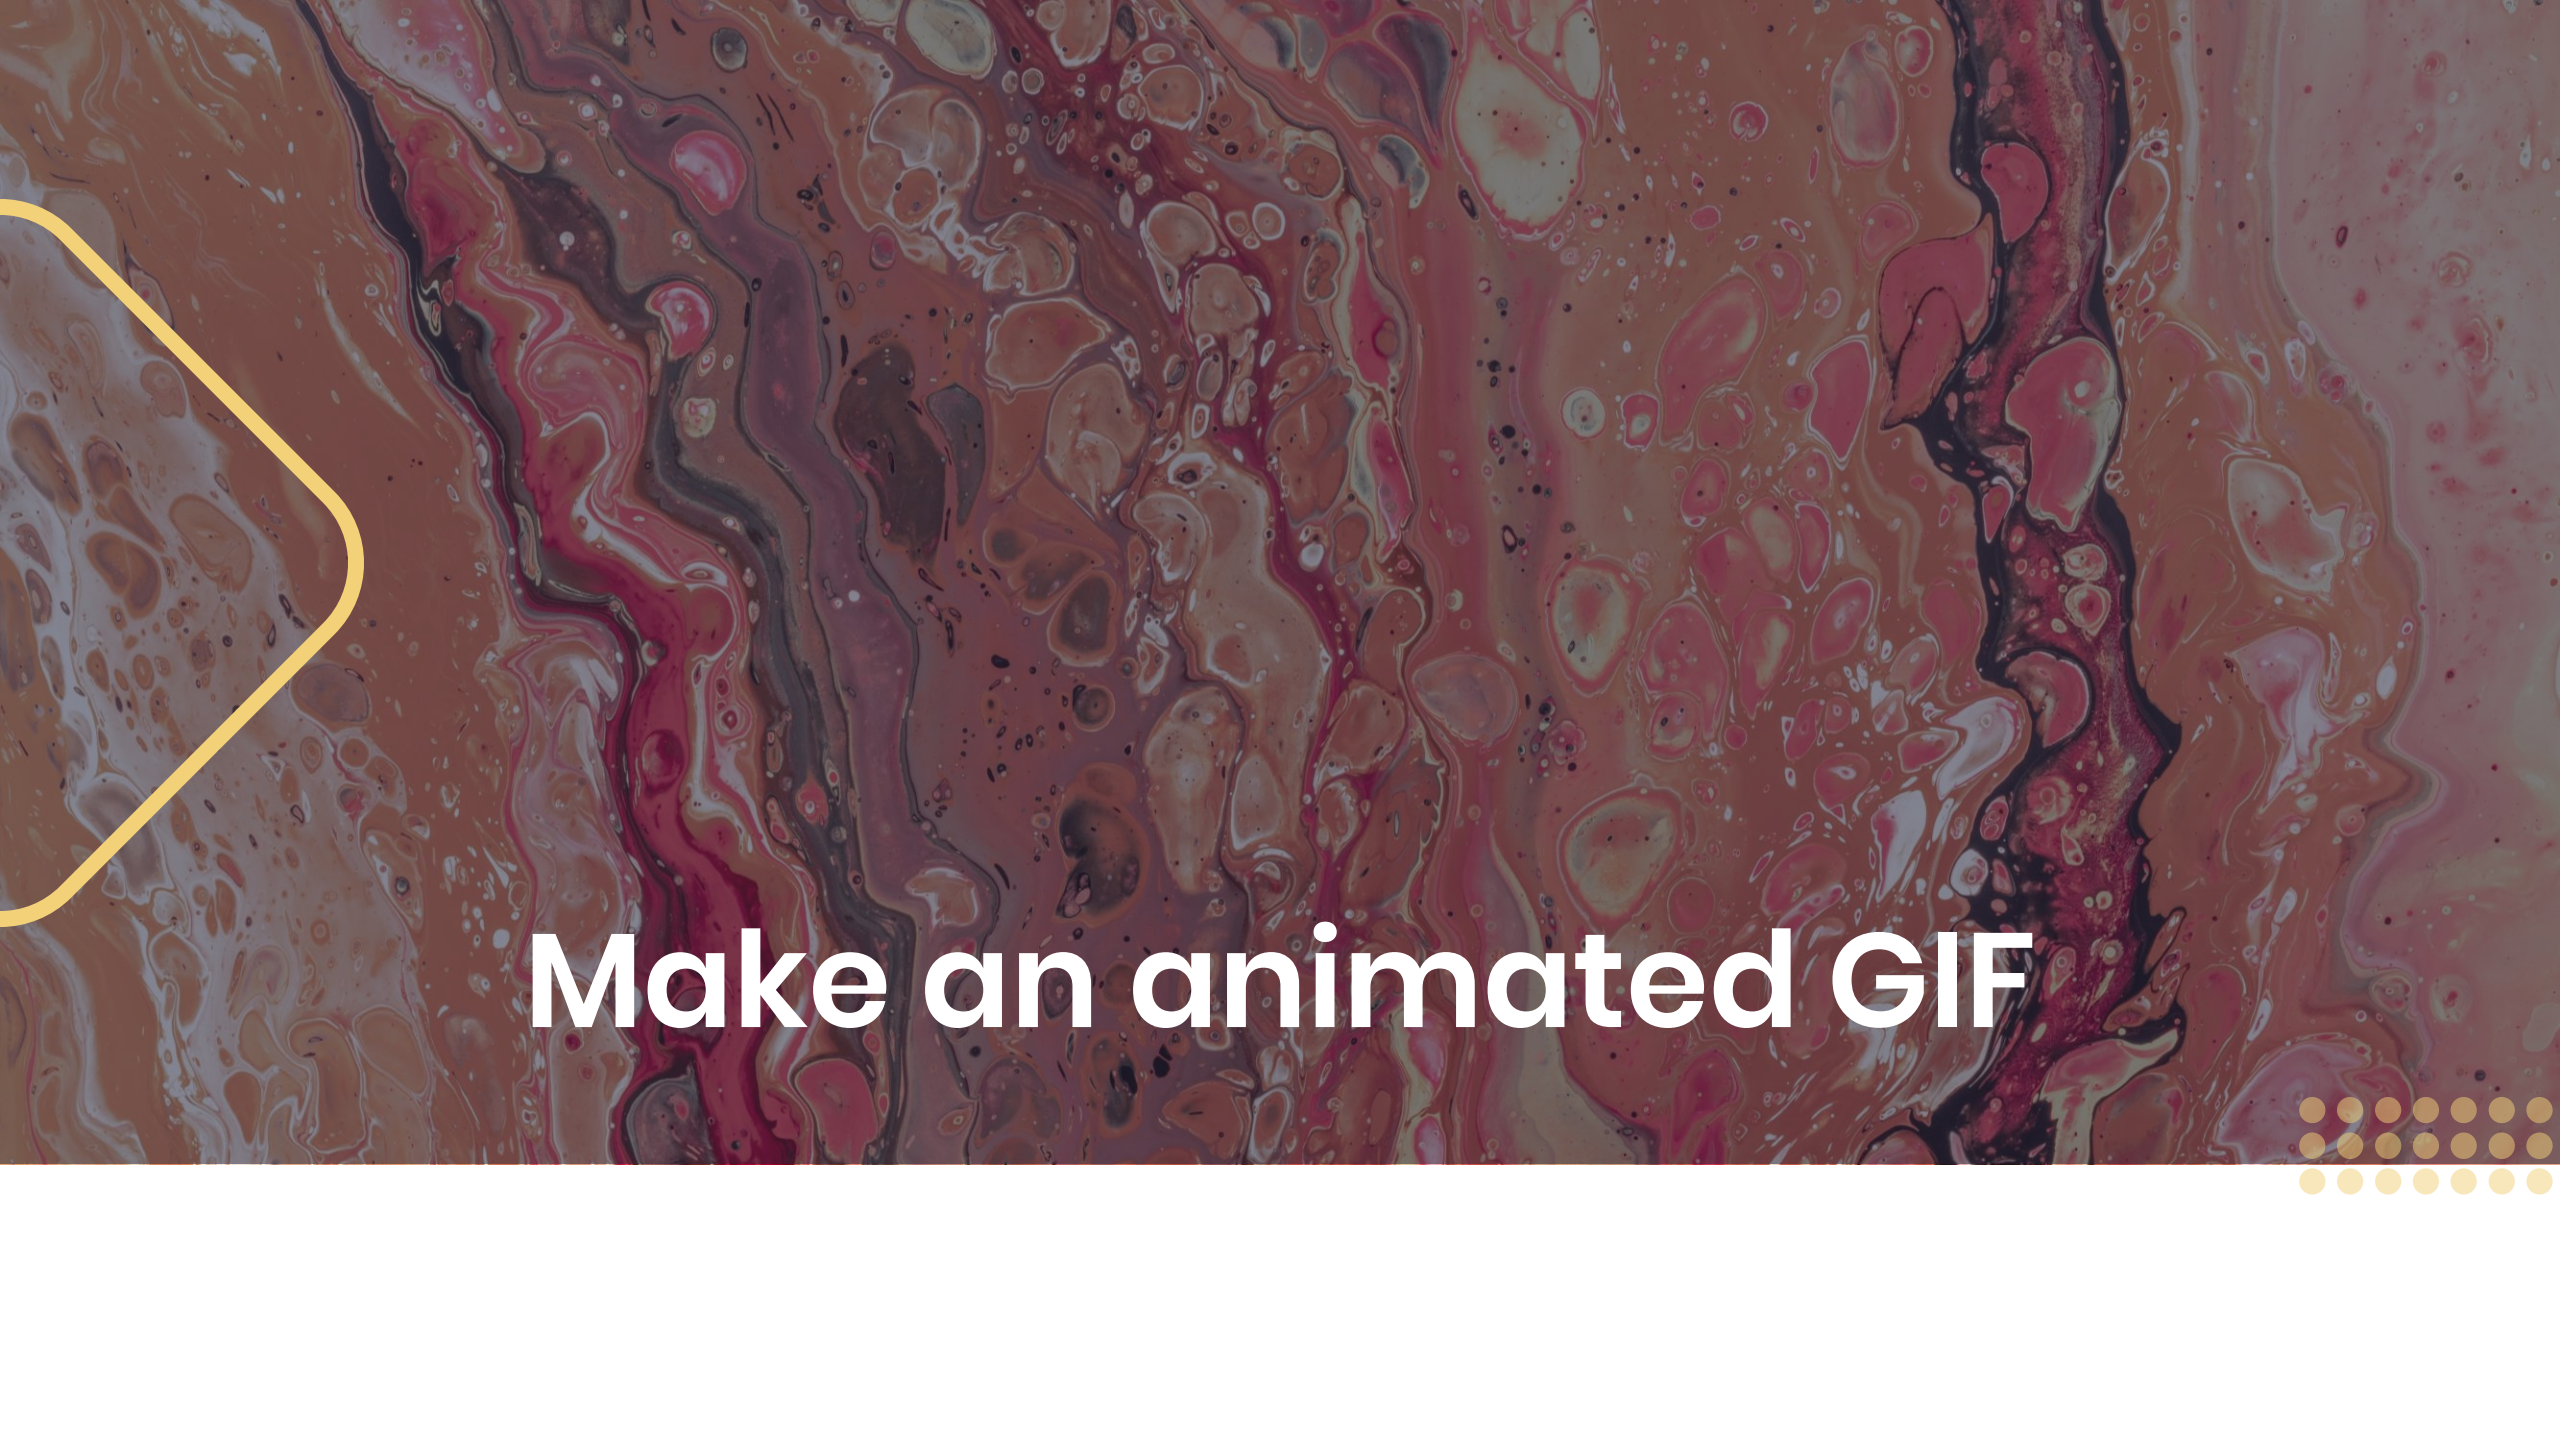

High dynamic range

Improves the range of colours and contrast

Combines multiple images with different exposures

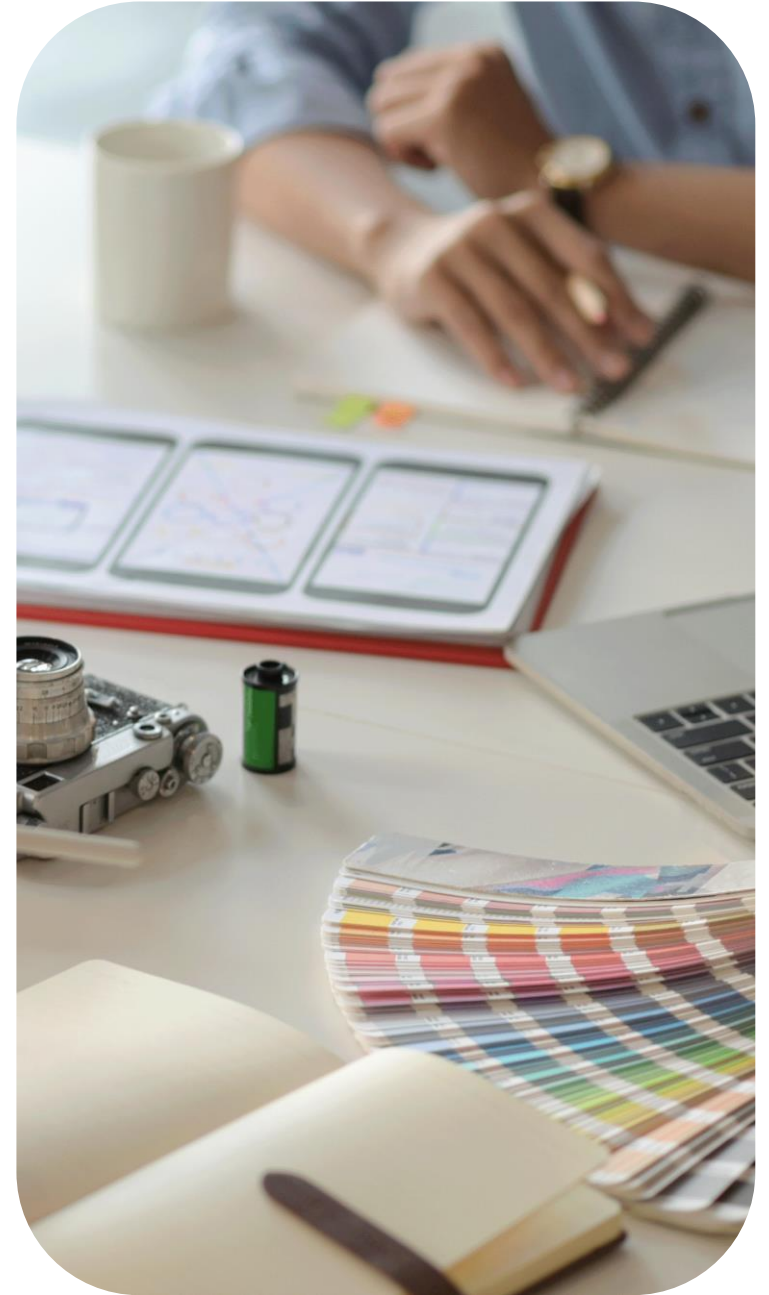

Make an animated GIF

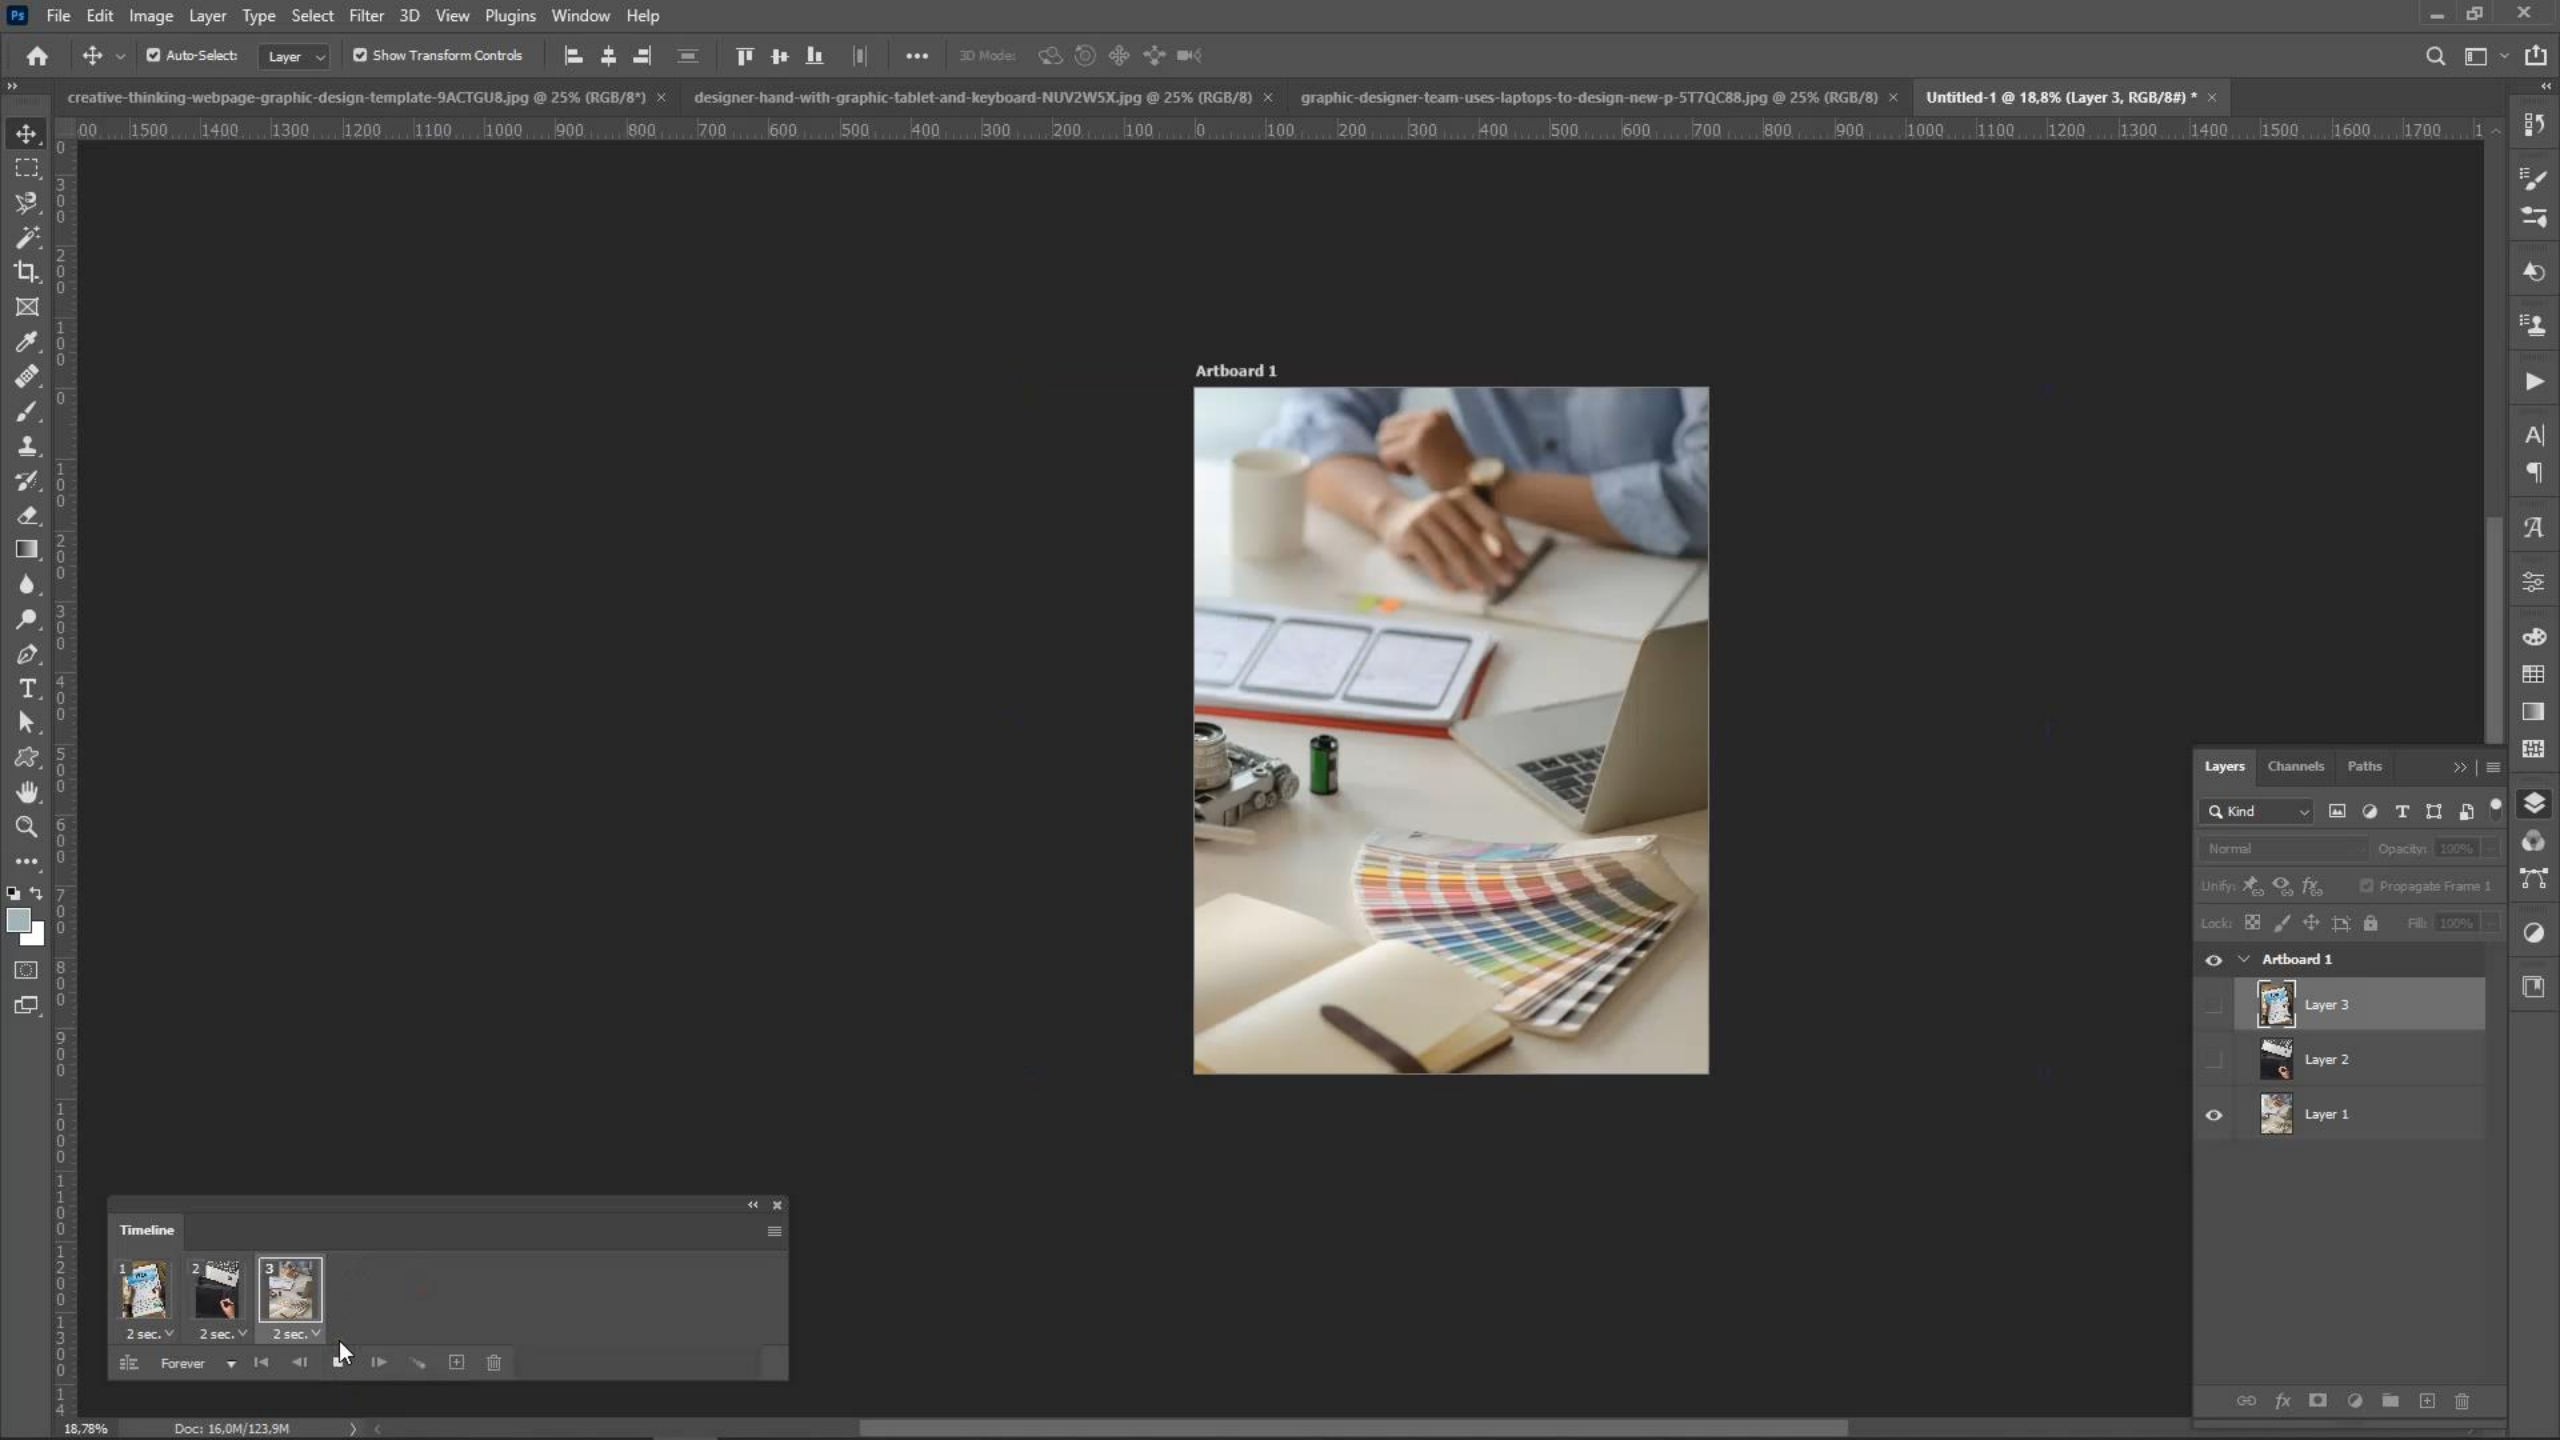

Animated GIF

Graphics interchange format

Series of images played in sequence

Supported by most digital platforms

Challenge >>

Create your own Photoshop action

Make a Photoshop brush

Use the automate function

Create an animated GIF
