

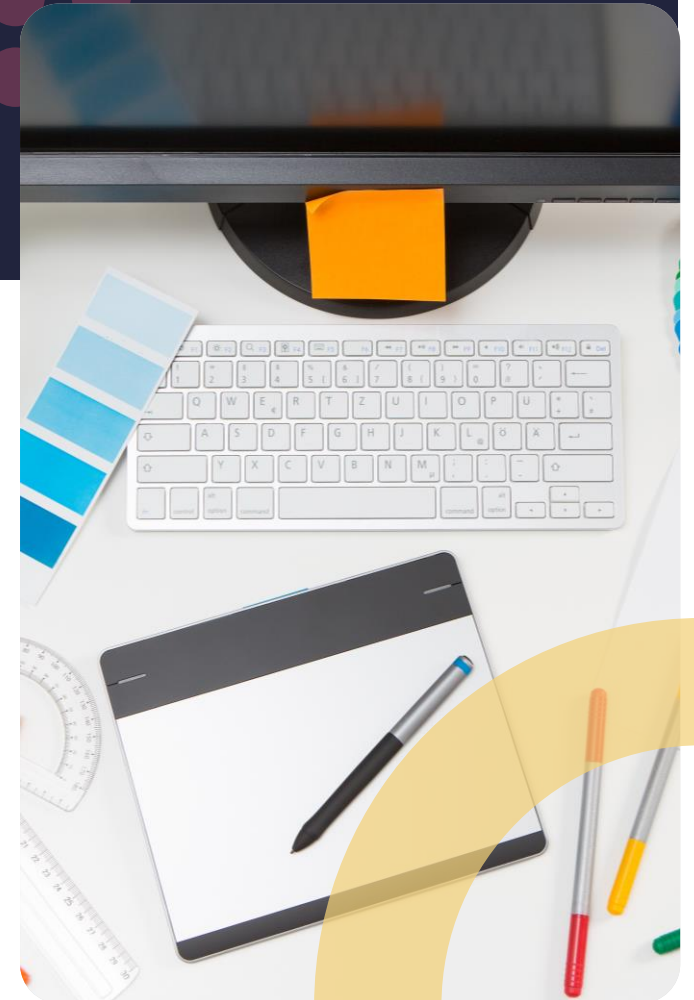

Graphic Design

Portfolio creation in InDesign

*If you are working on something that
you really care about, you don't have to
be pushed. The vision will pull you.*

- Steve Jobs

Lesson Objectives

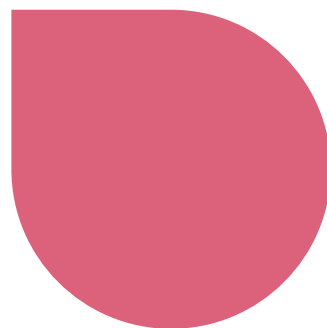

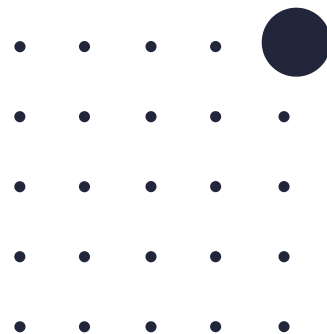

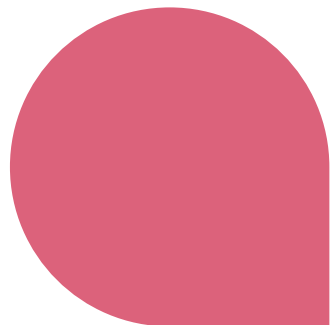

Define a graphic design portfolio

What is a graphic design portfolio?

- Showcase your talent
- Viewed by employers & clients
- Expose you to opportunities
- Most important tasks

**Encapsulates
your best
work**

Why is a portfolio important?

Visual communication

Representation of your skills

Advertise yourself

Where to get inspiration?

- Dribbble
- Behance
- Abduzeedo
- Awwwards
- Pinterest

Showcasing your work

Digital means

- Website portfolio
- Personal website
- PDF portfolio

A large, vertical, rounded rectangular image showing a marbled paper pattern with swirling blue, green, and yellow colors. The pattern is dense and organic, resembling a natural stone or liquid swirl.

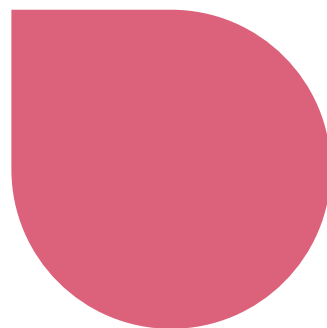

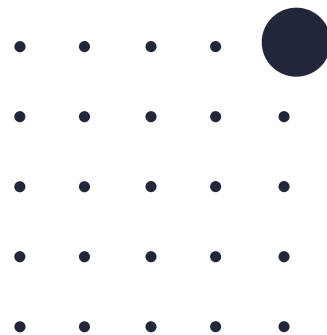

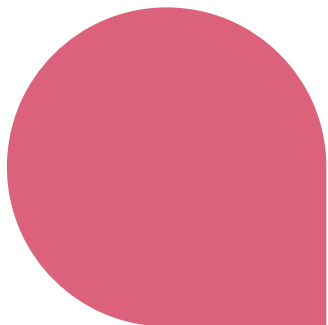

**Did you
know?**

The Nike 'swoosh' logo was
created for only \$35 by a
student.

Create fake briefs to fill up your portfolio

A person is working at a wooden desk. Their left hand is on a white keyboard, and their right hand is using a stylus on a black digital tablet. On the desk, there is a large computer monitor displaying a grid of many small photographs. To the left of the monitor is a black pen holder with several pens and pencils. In front of the monitor is a white computer mouse. To the left of the keyboard is a circular color calibration chart. Scattered on the desk are several printed sheets of small photographs. A black smartphone is also on the desk. In the bottom right corner, a camera is partially visible. The background shows a white office chair and a white desk.

**Add content to your portfolio
relevant to the job description**

THE ART OF PERFECTING COFFEE

BARISTA-STYLE
TIPS TO IMPRESS
YOUR MATES

01 Whole bean coffee is fresher and more flavourful. You can make high-quality coffee at home by purchasing whole bean coffee and grinding the coffee beans yourself.

To brew better coffee at home, it is recommended to use a scale. For a 6-cup, automatic drip coffeemaker, measure out 90 grams of whole bean coffee onto a scale before grinding and brewing.

03 Don't grind all of your coffee beans at once. Keep your at home coffee as fresh as possible by only grinding the amount of coffee beans you plan to use.

Once opened, coffee should be stored in a canister that shields sunlight. It's also important to avoid freezing your coffee as there's a chance that it will absorb moisture, which can affect its taste.

02

DID YOU KNOW?

You can flavour your coffee at home without using syrups. The baristas suggest stirring pieces of chocolate into your coffee or topping your coffee drink with whipped topping and ground cinnamon or nutmeg.

Did you know that you can steam your own milk at home? If lattes and cappuccinos are a morning must-have, buy an electric milk frother.
