THE DIFFERENCE BETWEEN INTERACTIVE PDF AND E-PUBLICATION

INTERACTIVE PDF

A digital ‘piece of paper’ with a fixed layout

The size of the document is dependent on the screen size

Requires additional application to open documents: Acrobat Reader

E-PUBLICATION

Has a reflowable layout

The layout of the ePub document adapts to your screen size without jeopardising the readability

Requires and e-book reader device or an applications installed on your computer or smartphone to view

PDF document

Advantages

- Most widely used for digital publication format
- Uniformed layout irrespective of device used to view pdf
- Consistent layout for both digital and print format
- Easily viewed, created or saved on any device or platform – open standard
- Can have 1 or 1000 pages

Disadvantages

- Uniformed and consistent layout makes it difficult to view on small devices
- Layout is not reflowable and does not adapt to the device's screen size
- Accessing and viewing interactivity and media on a pdf document is software dependent

Epub document

Advantages

- Reflowable layout makes it easy to read despite of screen size
- No need to save as reflowable layout but can be saved as fixed layout as well
- Advanced interactivity and media can be added
- Can have 1 or 1000 pages

Disadvantages

- Developing an epub file requires advanced knowledge
- Less popular than a pdf, so fewer services available
- Need to install additional software on computer or smartphone to access epub files
