Graphic Designers as Photo Editors

Graphic Designers as Photo Editors

- Photographers appoint photo editors due to lack of time
- Photo editors can get paid quite a lot
- Edited photos can be shared via cloud storage & no direct contact is needed
- Calibrate your computer screen to get accurate colours

Working with RAW Images

RAW Images

- Professional photos are taken in RAW format
- RAW images have a wider colour gamut
- Specialised software needed to access RAW images (Adobe Camera Raw, Lightroom, Photoshop)
- Edited RAW files are accompanied by an .xmp file containing editing data
- Deleting the .xmp file will remove editing data
