LESSON 8

Awesome Photography Fact – Lesson 8

Photoshop

Market Share:

Photoshop is the industry standard for many reasons, but how much of the market does it own?

Photoshop roughly owns 44% of the market. Its main competitors in the Photo Editing consist of its own company Adobe. Creative Cloud at 28%, Illustrator 8% and all other market shares are less than 5%. This includes coral draw and other frequently used editors.

A person wearing a blue and white patterned jacket is holding a white rectangular sign with both hands. The sign contains the word 'AGENDA' in large black letters and a list of eight items, each preceded by a blue square icon. The background is a plain, light gray wall.
