Airbrush

Change brush to Airbrush

Smoothing

Creates smoother edges

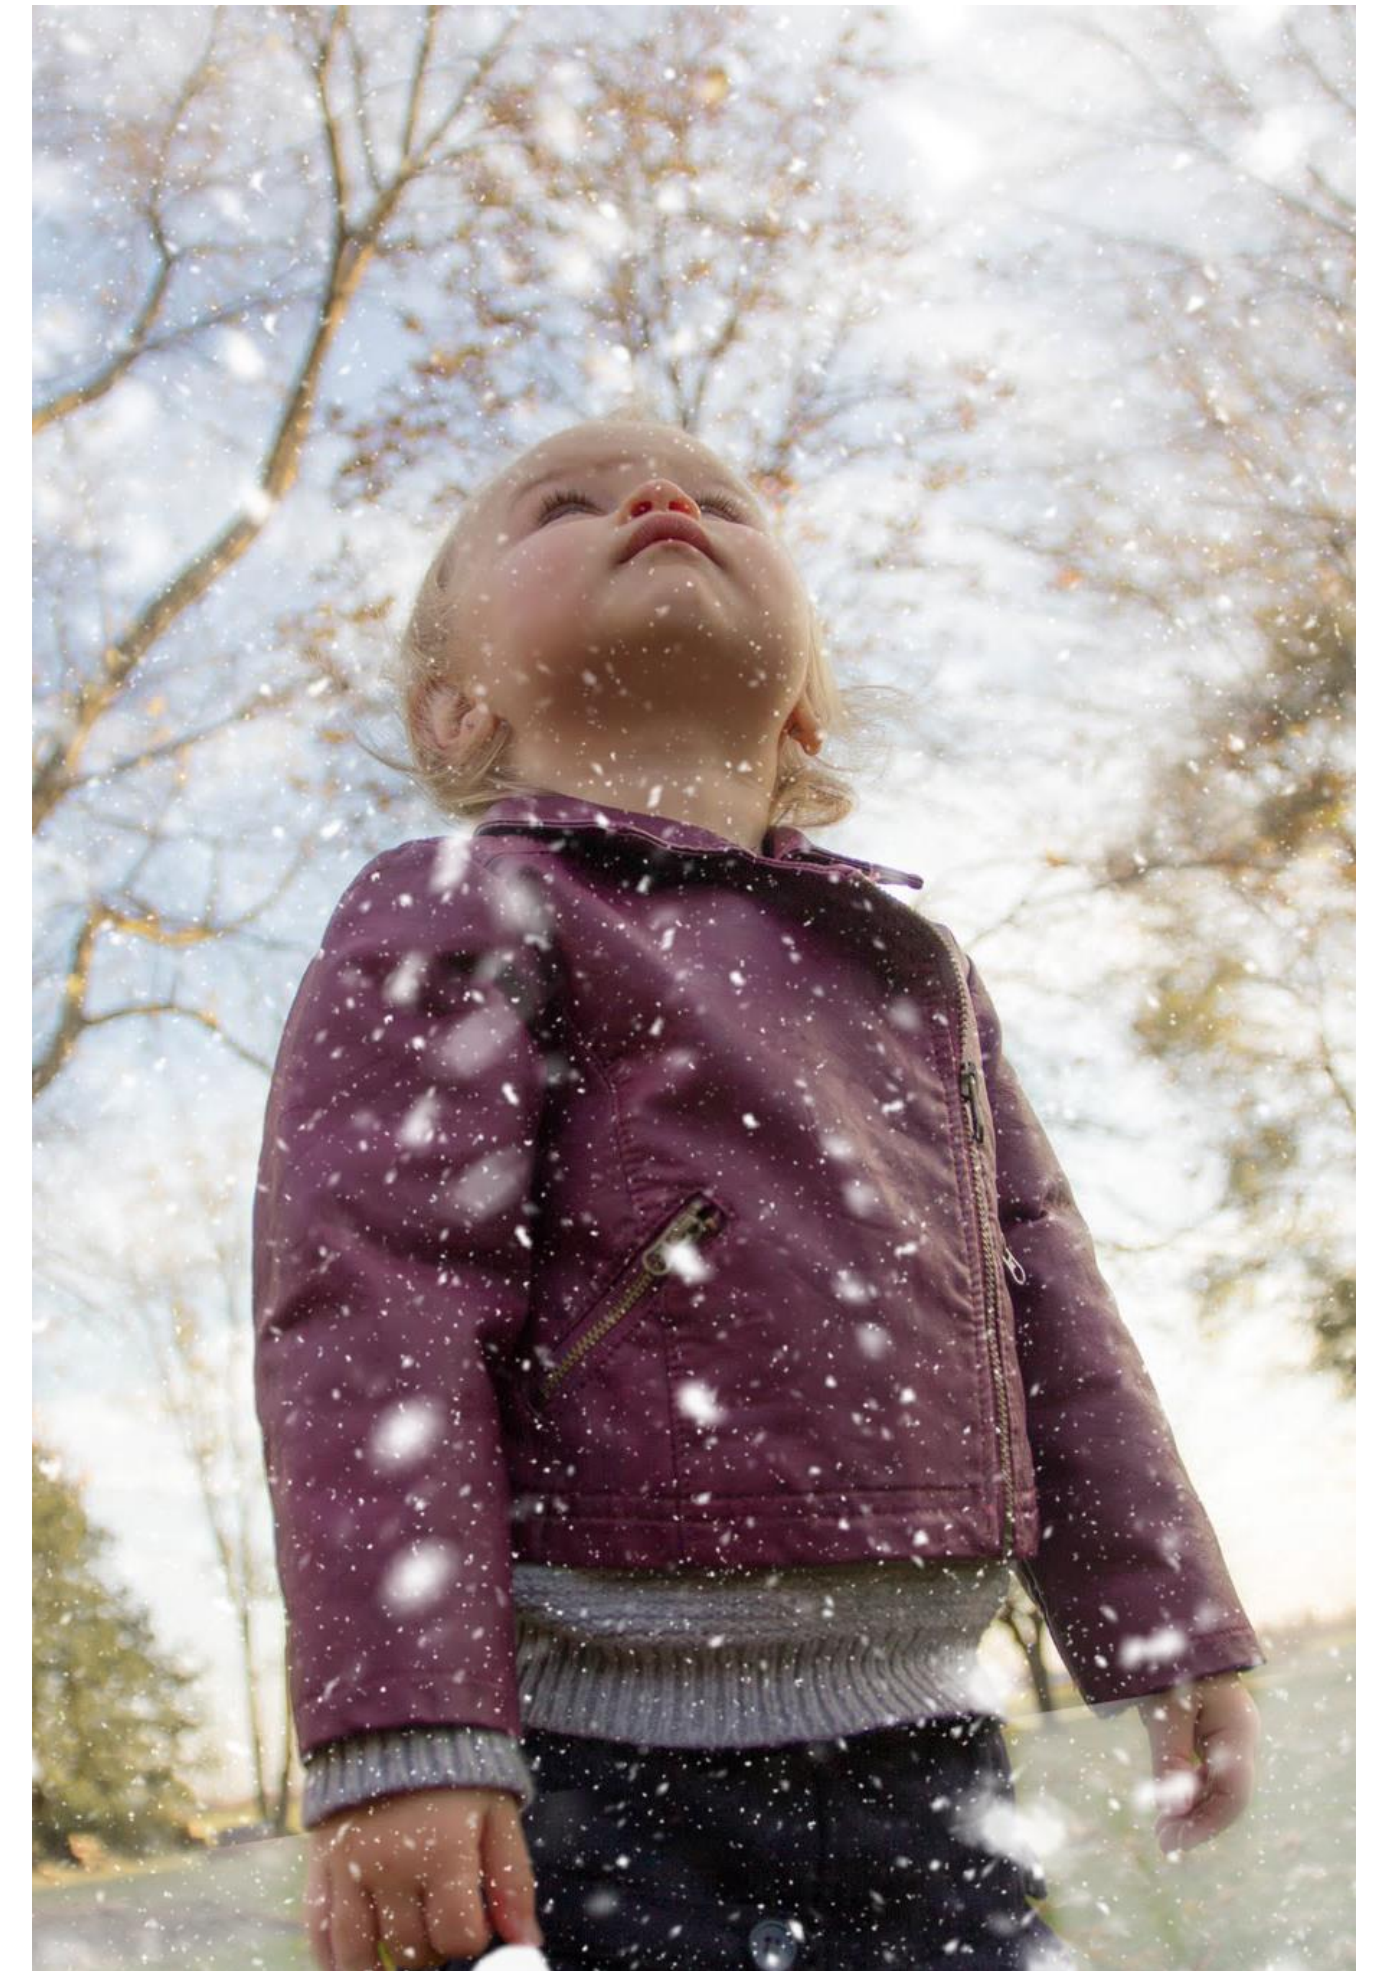

Lesson Challenge

Snow Brush

You have been tasked to create Snow Scene using brushes

Open any images you want in Photoshop
> download and install snow brush> use brush and masking.

Remember Black is used conceal and
White is used to reveal.

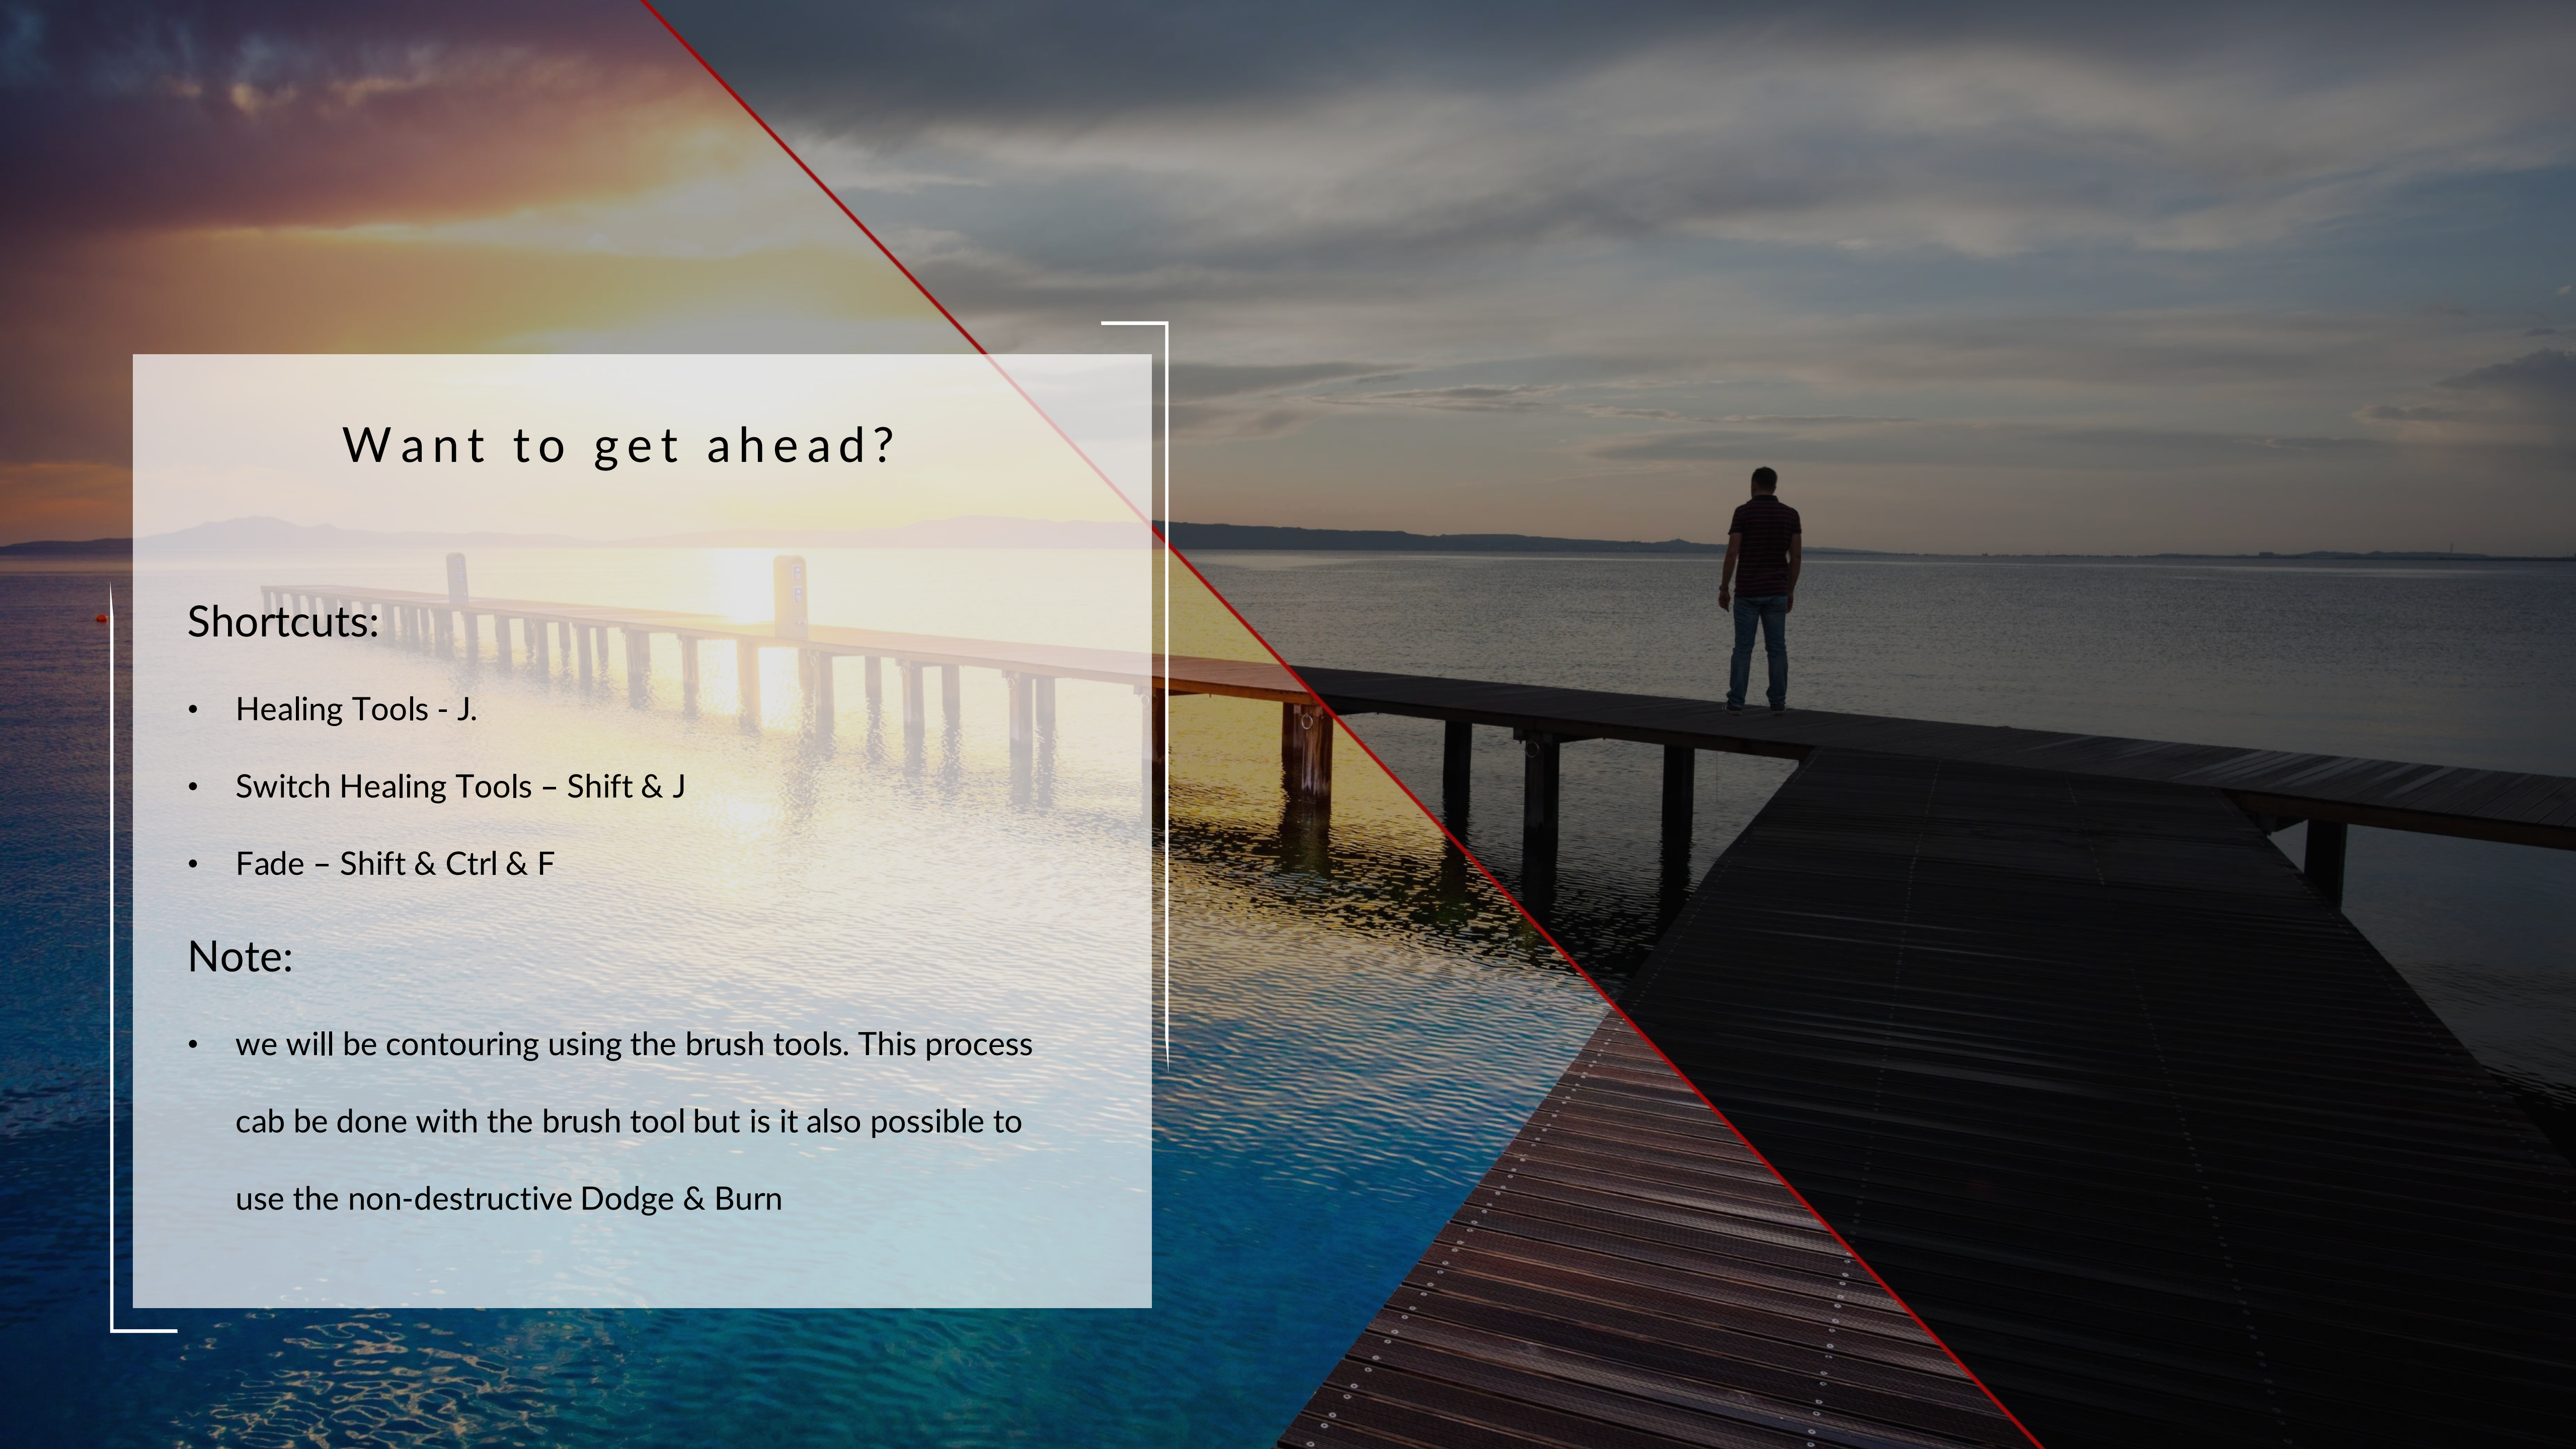

Want to get ahead?

Shortcuts:

- Healing Tools - J.
- Switch Healing Tools – Shift & J
- Fade – Shift & Ctrl & F

Note:

- we will be contouring using the brush tools. This process can be done with the brush tool but is it also possible to use the non-destructive Dodge & Burn
