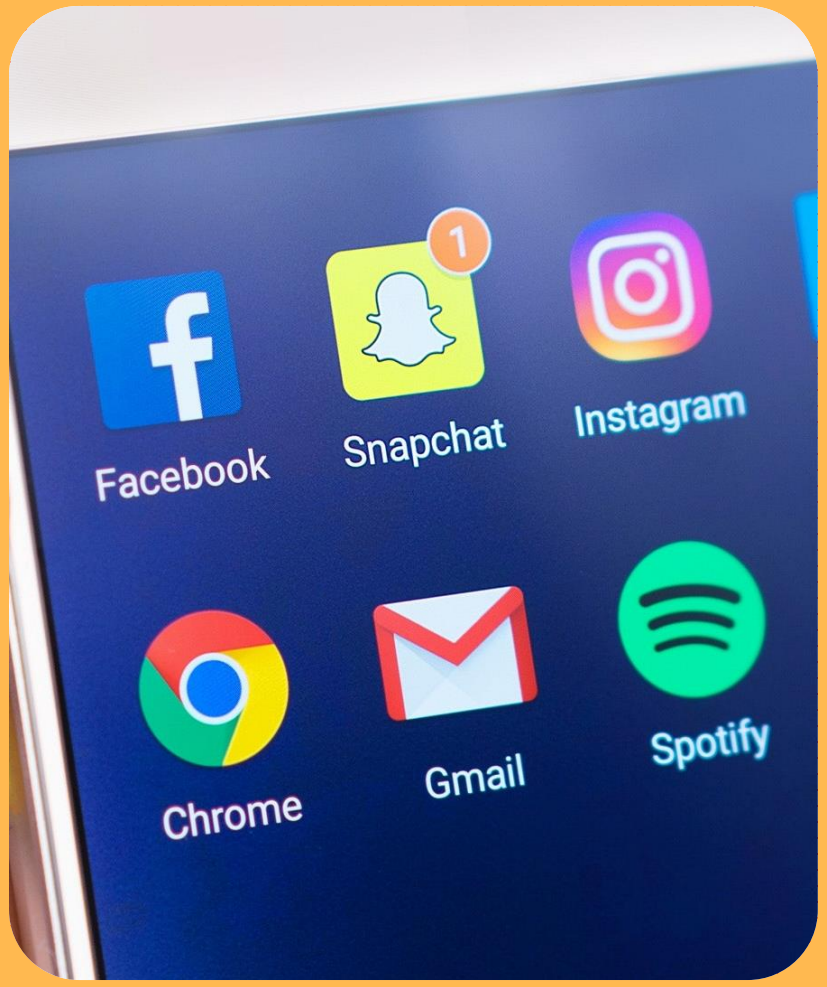
Snapchat and TikTok best practises



Snapchat and TikTok posting features

Did you know?

Snapchat has more users than Twitter and grew as much in one year as Twitter did in four years total.

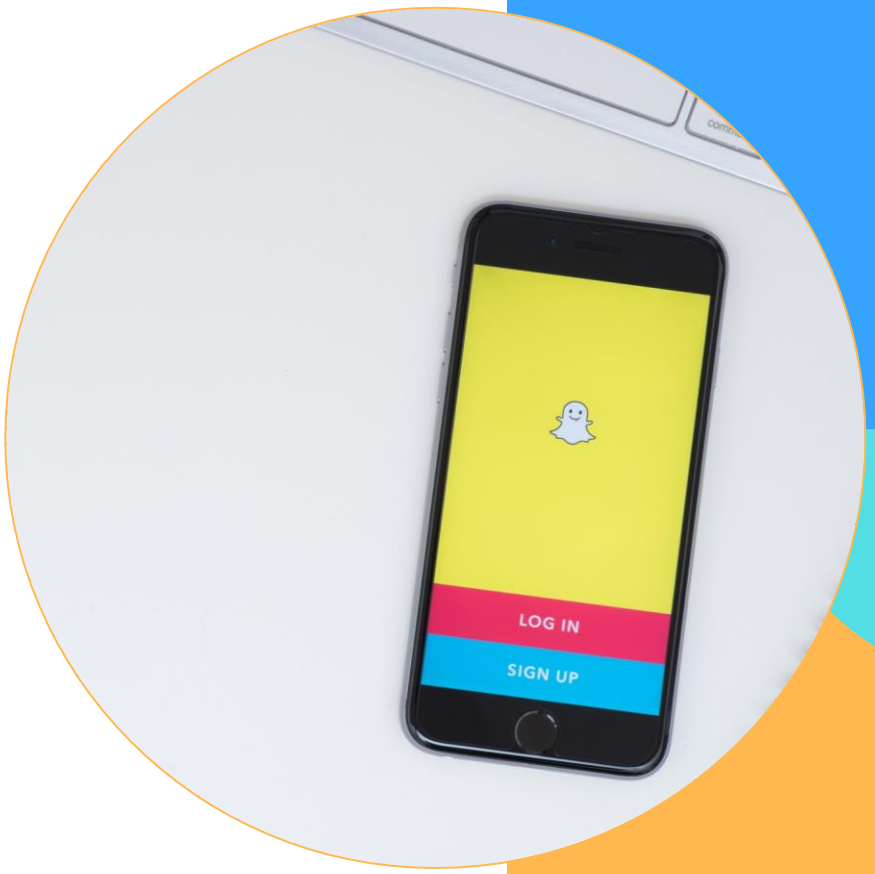
(adespresso.com)

Snapchat terminology

- Snapchatters: Snapchat users
- Snaps: photos or videos taken via Snapchat
- Snapback: a reply to a snap
- Stories: a snap you can broadcast to followers
- Scores: the total number of snaps you have sent and received
- Snapstreak: Snap a friend within 24 hours for three consecutive days
- Chat: privately/directly message friends

Snapchat terminology continued

- Filter: overlay or special effect
- Snapchat lens: animated special effects
- Geofilter: filters unique to a location
- Snapcode: unique QR style code
- Memories: camera roll feature which allows you to choose older snaps from memories



Snapchat terminology continued

- Friends page: lists your friends
- Discover page: displays stories from publishers
- Snap map: shows your location and the location of friends
- Context cards: insert additional information from Snapchat's partners
