# Tailoring your approach

- Who are you hoping to engage with?
- Think about
  - Localisation
  - Frequency
  - Audience interests
- How does your audience view your brand?
- What is the most important factor for your visual content?
- Can people identify who this is from?
- What is the goal of your content?
  - If you want to be reachable - use the contact us CTA button
  - If you want to build your brand - use the like CTA button
  - If you want users to subscribe to your mail - put the sign up CTA button
  - If you want people to download something - use the download CTA button

## Create content that matters

- Do they have an emotional connection with you?
- Do you offer them something they don't have?
- Can you inspire them to do something they otherwise wouldn't?
- Why do people engage with your brand?

## Other marketing efforts

- Website
- Email Marketing
- Search Engine Optimisation (SEO)
- Affiliate marketing
- Pay-per-Click (PPC) Advertising

All of these efforts contribute to the end goal. Social media is just one gear in the cog and success depends on the whole wheel turning.

# Budgeting

- Do you have a budget for social media?
  - Consultancy
  - Advertising
  - Graphic design
  - Tools
- Do you know how much you are spending?
- What value return have you seen?

# AUDIENCE RECAP

## Demographic factors

- What demographic groups are most likely to take the desired action?
  - Age
  - Gender
  - Location
  - Marital status
  - Income level
  - Education level
  - Occupation

## Psychographic factors

- How do they think?
  - Personality types
  - Attitudes
  - Values
  - Interest/hobbies
  - Lifestyles
  - Behaviours

## Product or Service

- What needs, challenges and frustrations do they have?
- How does your product or service solve or help them?
  - What problem does it solve?
  - How does it make their lives easier or better?
  - What would motivate them to pay for it?

SHIFT THE CONVERSATION FROM

How THEY can help YOU (buy my product)

TO

How **YOU** can **HELP** them (offer a solution - your product)

## Target Audience

- What do they currently use?
  - What products do they currently use? If any. (ie. competitors) ○ Social media platforms?
  - What times are they active?
  - What content do they engage with?
- How can you best reach your target audience?
  - Are you confident you picked the right audience?
  - If you try to appeal to everyone you will likely appeal to no one.
