Professional Diploma in

Social Media Marketing

Social Media Management

Lesson Objectives

Content and advertising management

Reputation management

Data management

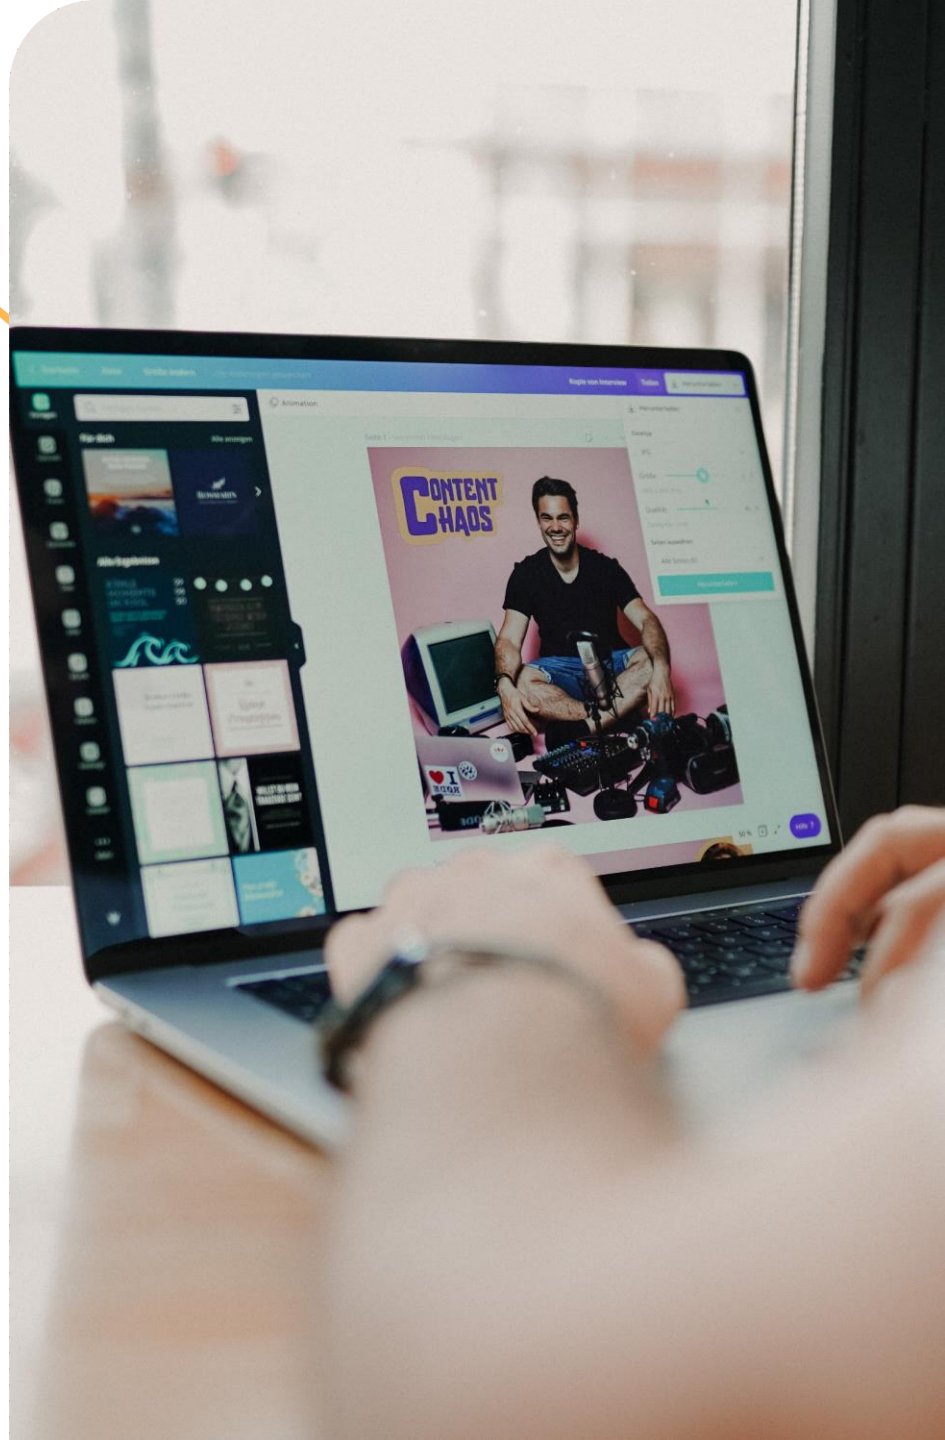
Managing budgets and tools

Management

What exactly are we managing?

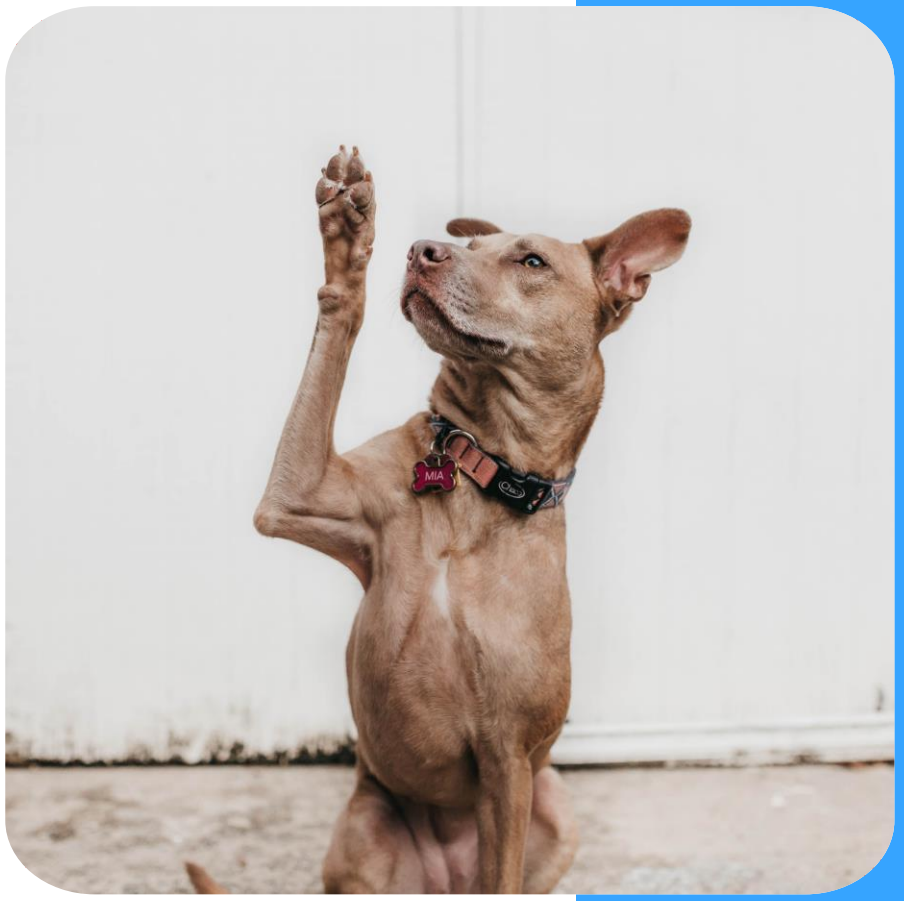
Social media management

- Content creation
- Content curation
- Advertising
- Reputation
- Data
- Reporting
- Budget



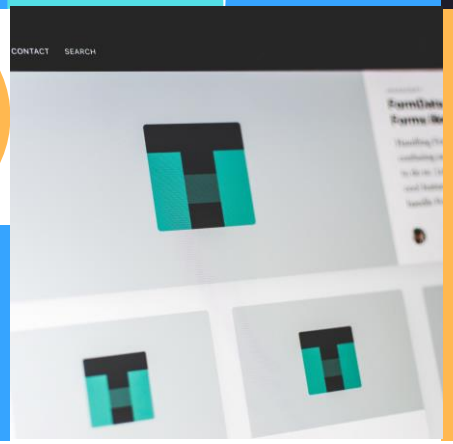
Don’t forget to ask

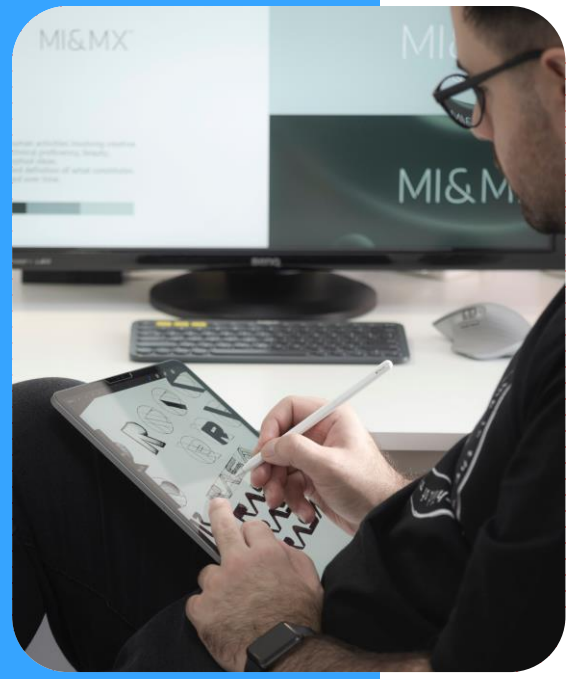
- How many platforms are we using?
- What tools are we using?

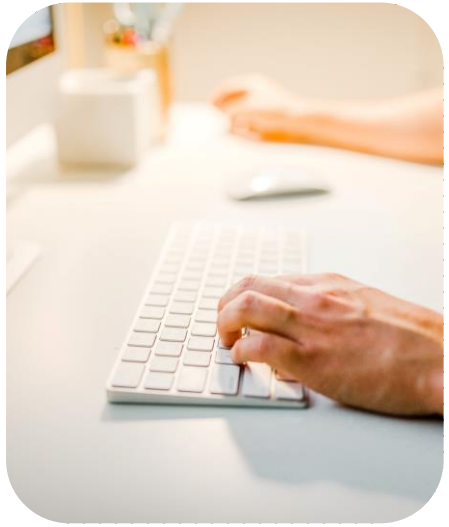


Focus of this class

- We will identify a number of areas for:
  - Measurement
  - Reporting
  - Expanding our efforts
  - Improving
- If we can’t measure a return, it will be difficult to identify improvement





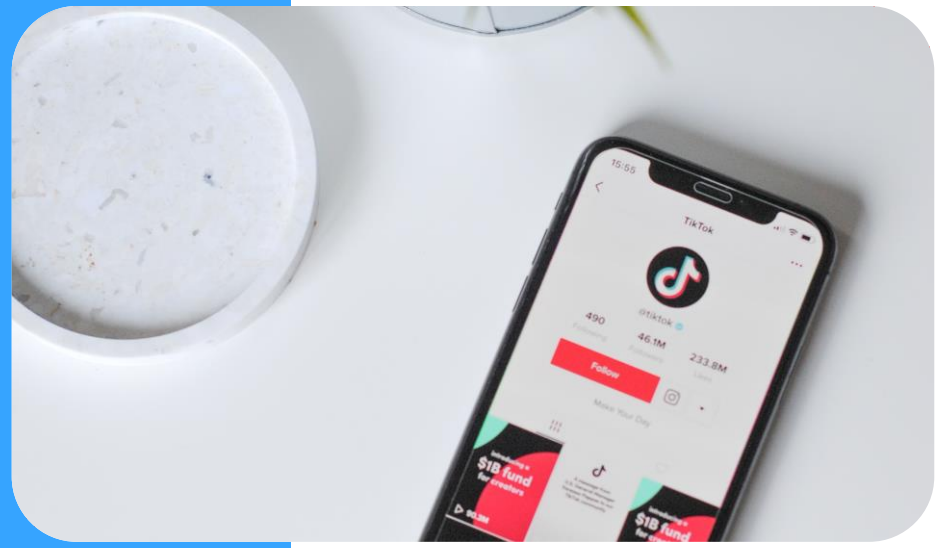


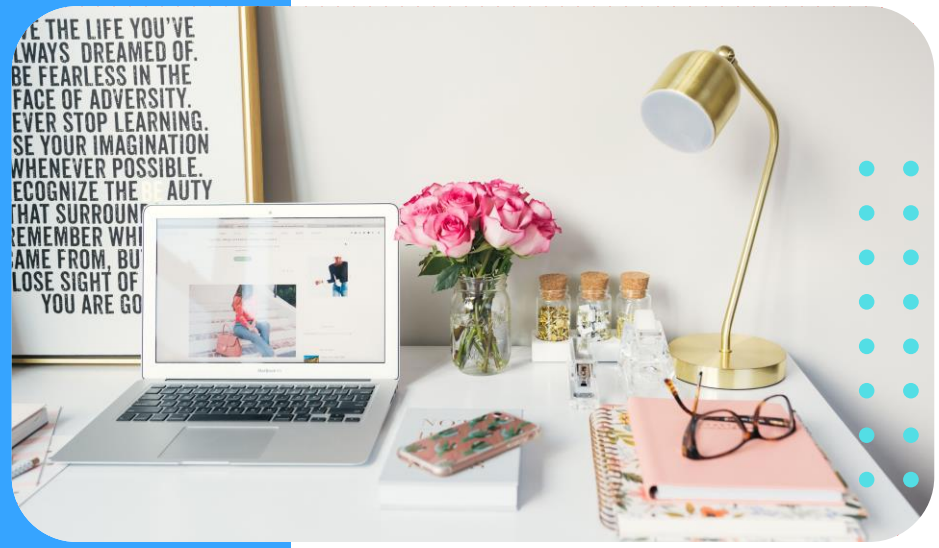
Managing content

- Focus on organic content
- How much time to we allocate to creating new content?
- How do our goals impact on our management?

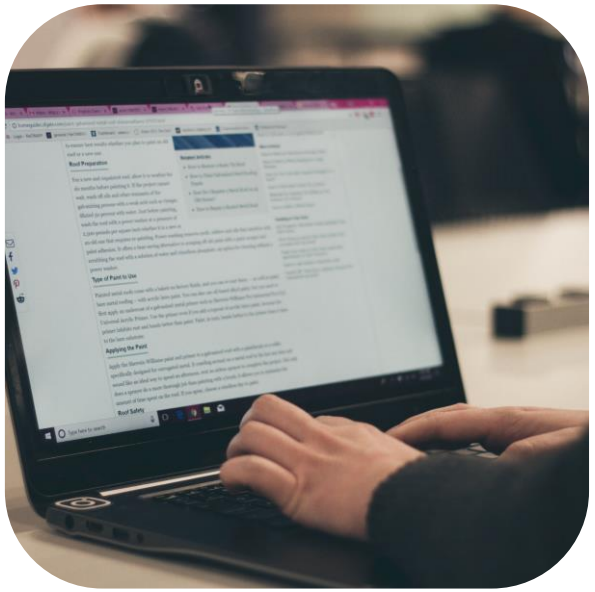
Managing content

- What goals do we assign to our content?
- What are your KPIs?
  - Brand building
  - Increasing impressions
  - Sales/Conversions
  - Improving follower base
- What defines good management?
- Can we assign KPIs – measuring engagement



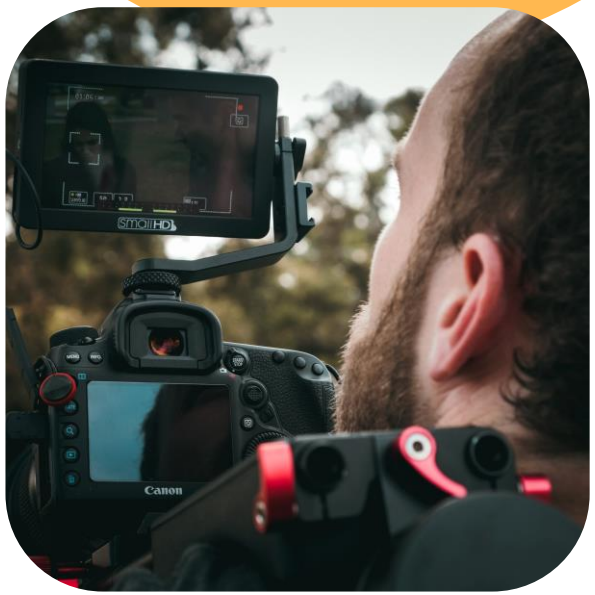


What content are you managing?



Blogs

Visual



Video

Content curation

- Where are you sourcing your content from?
- What benefit is it adding to your audience?
- What benefit does it add to the business?

Tips for managing content

- Start with your strategy
- Organise your ideas and add them to a schedule
- Use social media management tools
- Analyse your content strategy
  - Post analysis
  - Social network analysis
  - Campaign analysis
  - Content category analysis
- Adjust and improve your social media content

Managing advertising

- Managing KPIs
- Managing a budget
- Managing engagement
- Managing expectation

What KPIs are you looking at with advertising?

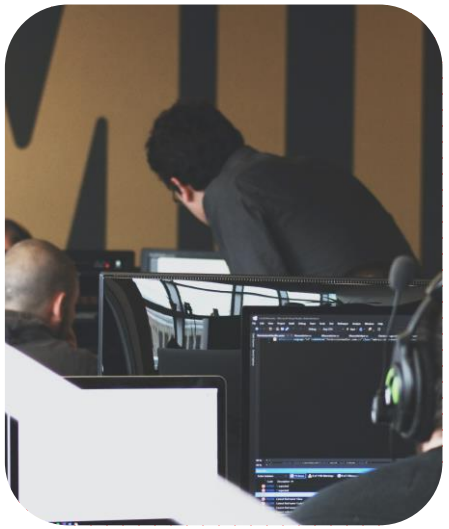
Does it vary depending on your goal?

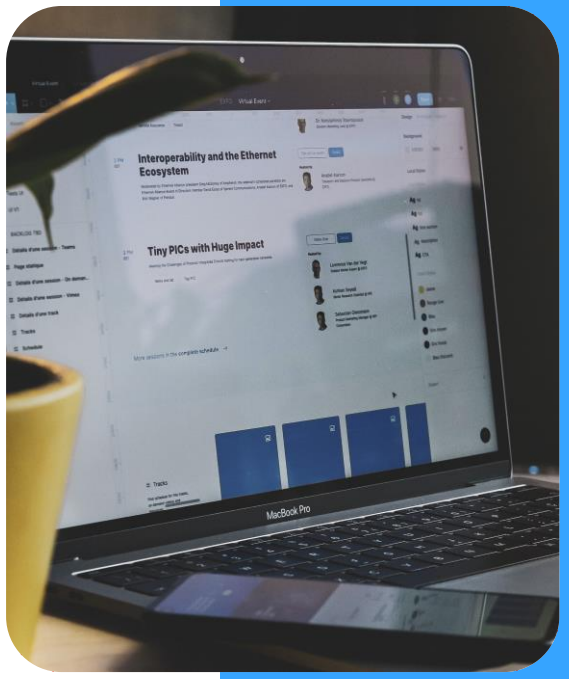
Yes!

Advertising KPIs

CPC vs CPM

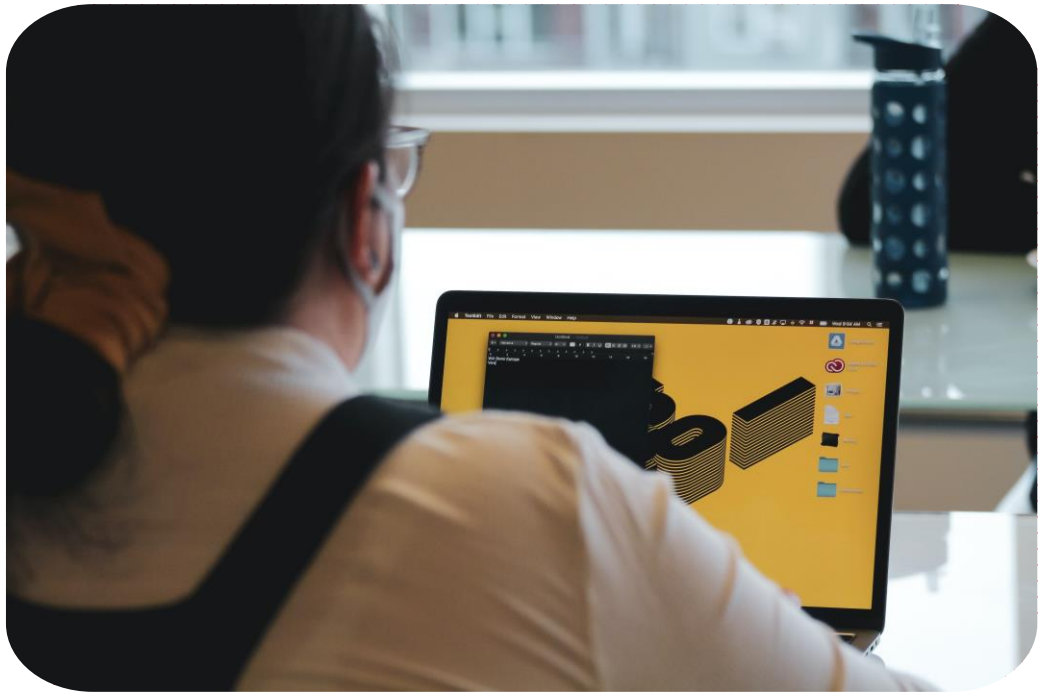
- **Cost-per-click (CPC):** the actual price you pay for each click in your pay-per-click (PPC) marketing campaigns.
- **Cost-per-Mille (CPM):** the ‘cost per thousand advertising impressions’, this is calculated by dividing the cost of an advertising placement by the number of impressions (expressed in thousands) that it generates.





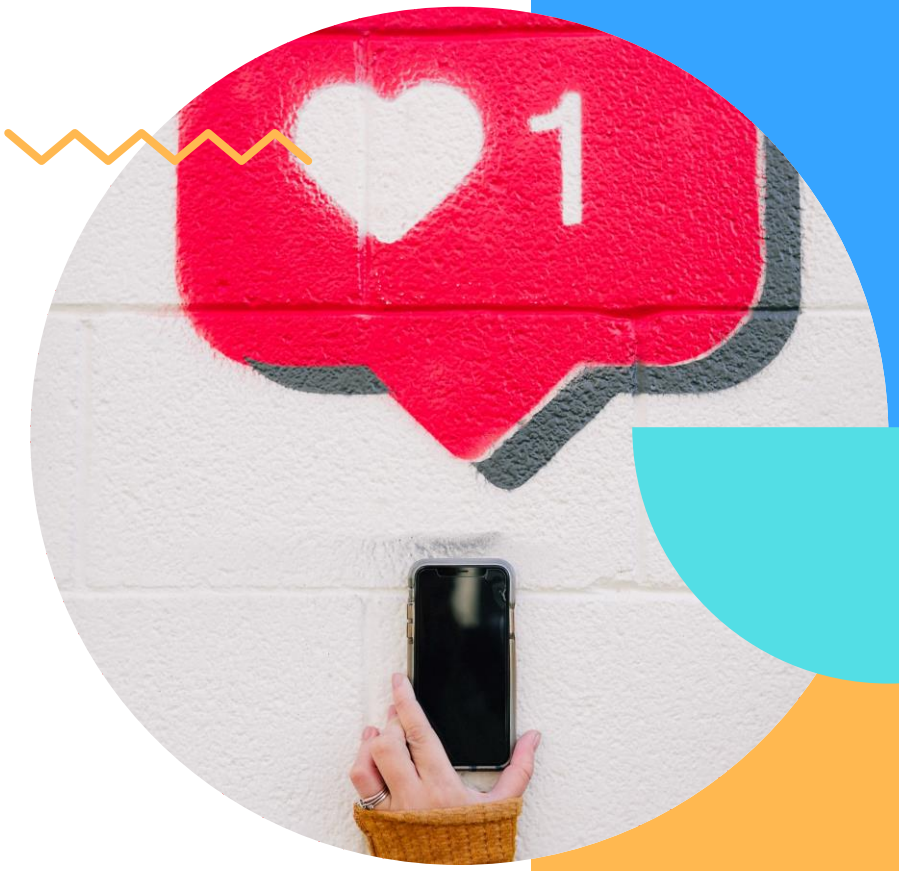
Impressions vs Reach

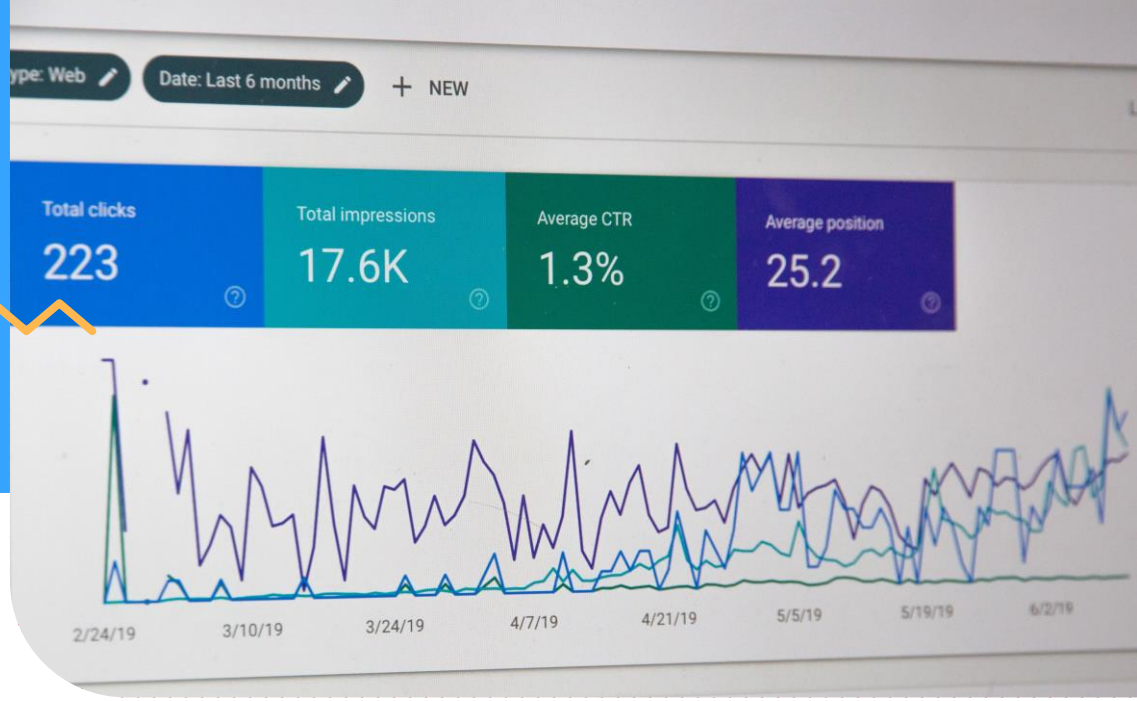
- **Impressions:** the number of times your content is displayed.
- **Reach:** the number of people who see your content.



Engagement

The number of interactions people have with your content. E.g., likes, comments, shares, etc.

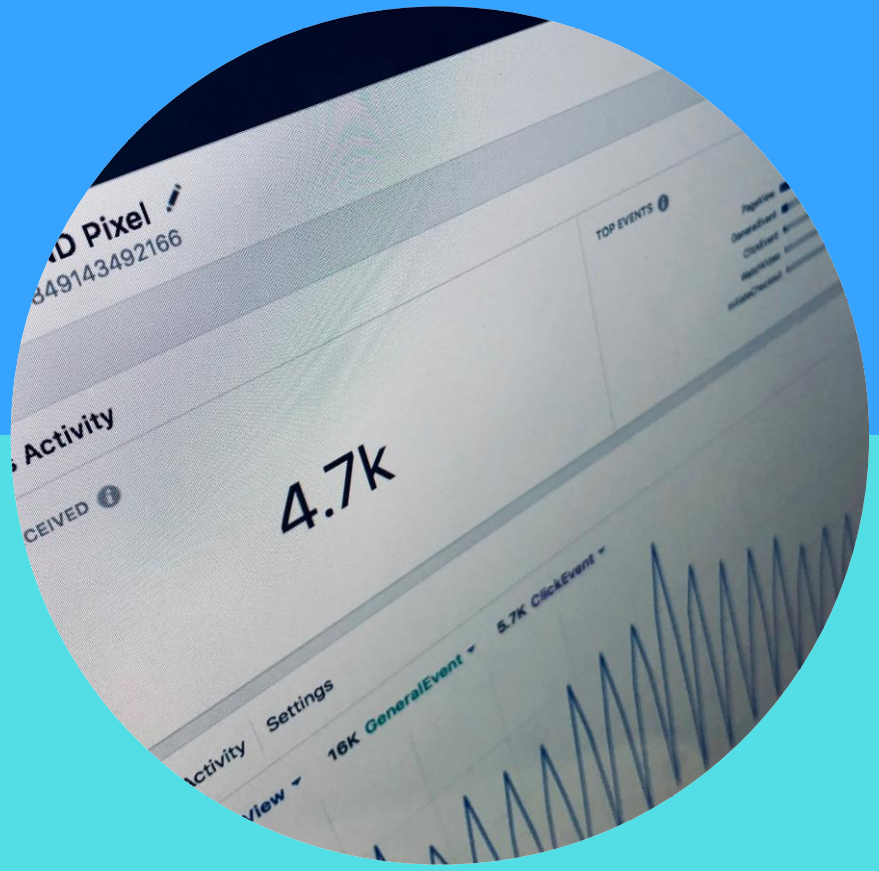




Clicks vs CTR

- Click-through-rate (CTR)
- The number of clicks divided by the number of impressions in a percentage.
- E.g., 100 impressions / 1 click = 1% CTR

Managing a budget



Social media budget

- What do we know about social media advertising?
- Can we compete with bigger companies?
- Detailed targeting, tailored approach.
- Value you offer to your consumers.

When managing a budget:

- Start small, get familiar with the platform
- A few dollars can go a long way
- Focus on quality as opposed to quantity

Managing engagement

- Reputation
- Sales opportunity
- Increase conversions
- Find out what people want

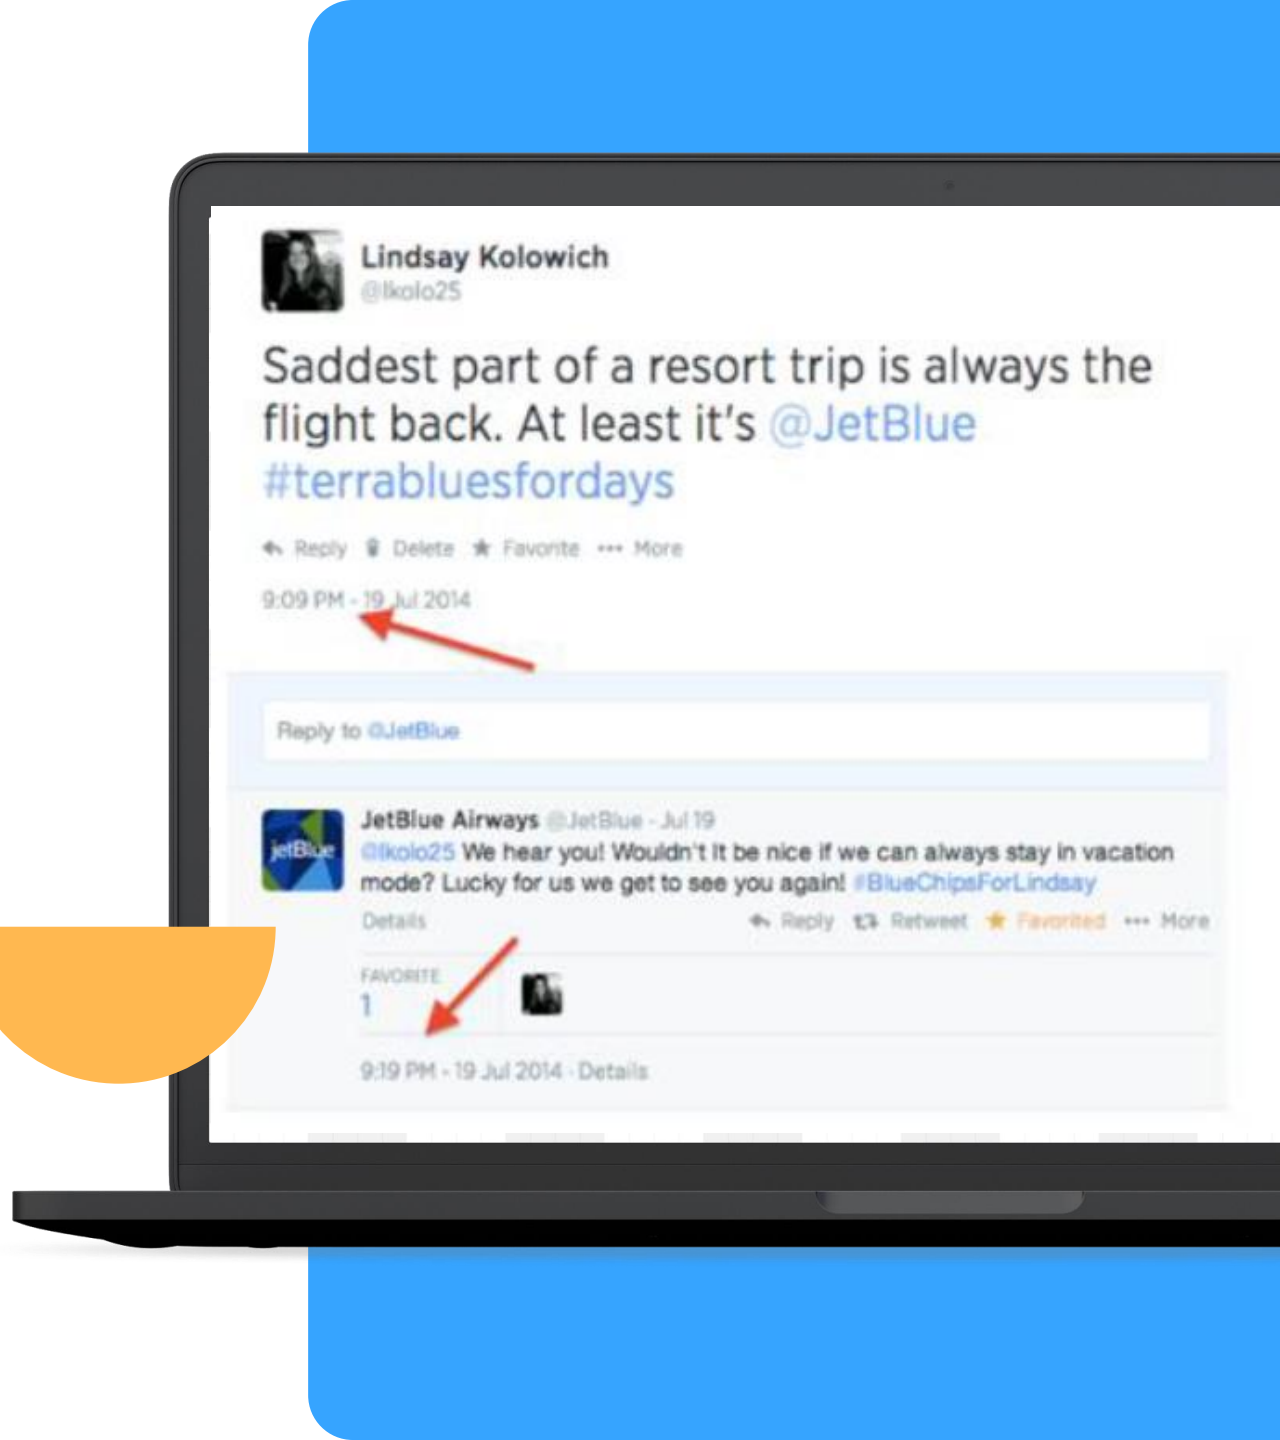
Why is it still important to manage engagement on ads?

A plan of action designed to promote and sell a product or service.

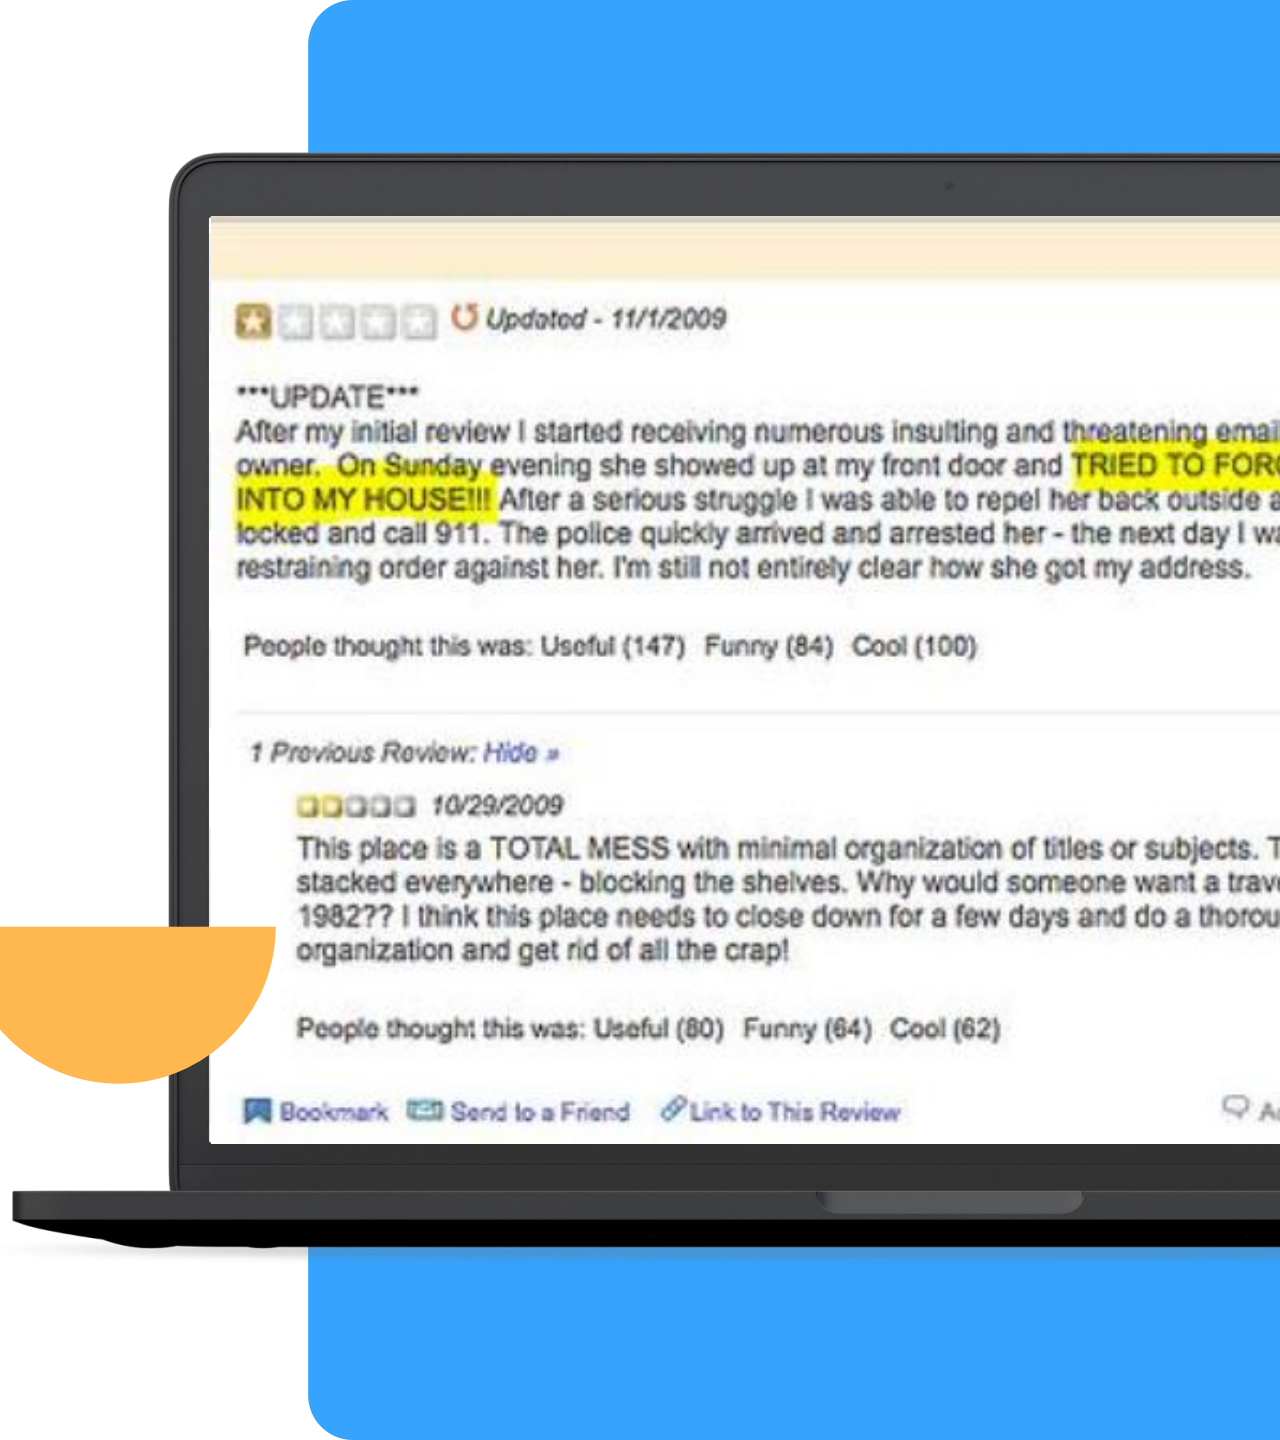
Managing expectations

- Planning stage (SOSTAC)
- Build expectations around previous campaigns
- CTR, impressions, reach, engagement, etc.

Bad reputation management



Good reputation management



Managing reputation

- Varies from platform to platform
- How do we manage reputation on Facebook compared to Twitter?
- Think of the message tags

Tips for reputation management

Prevention

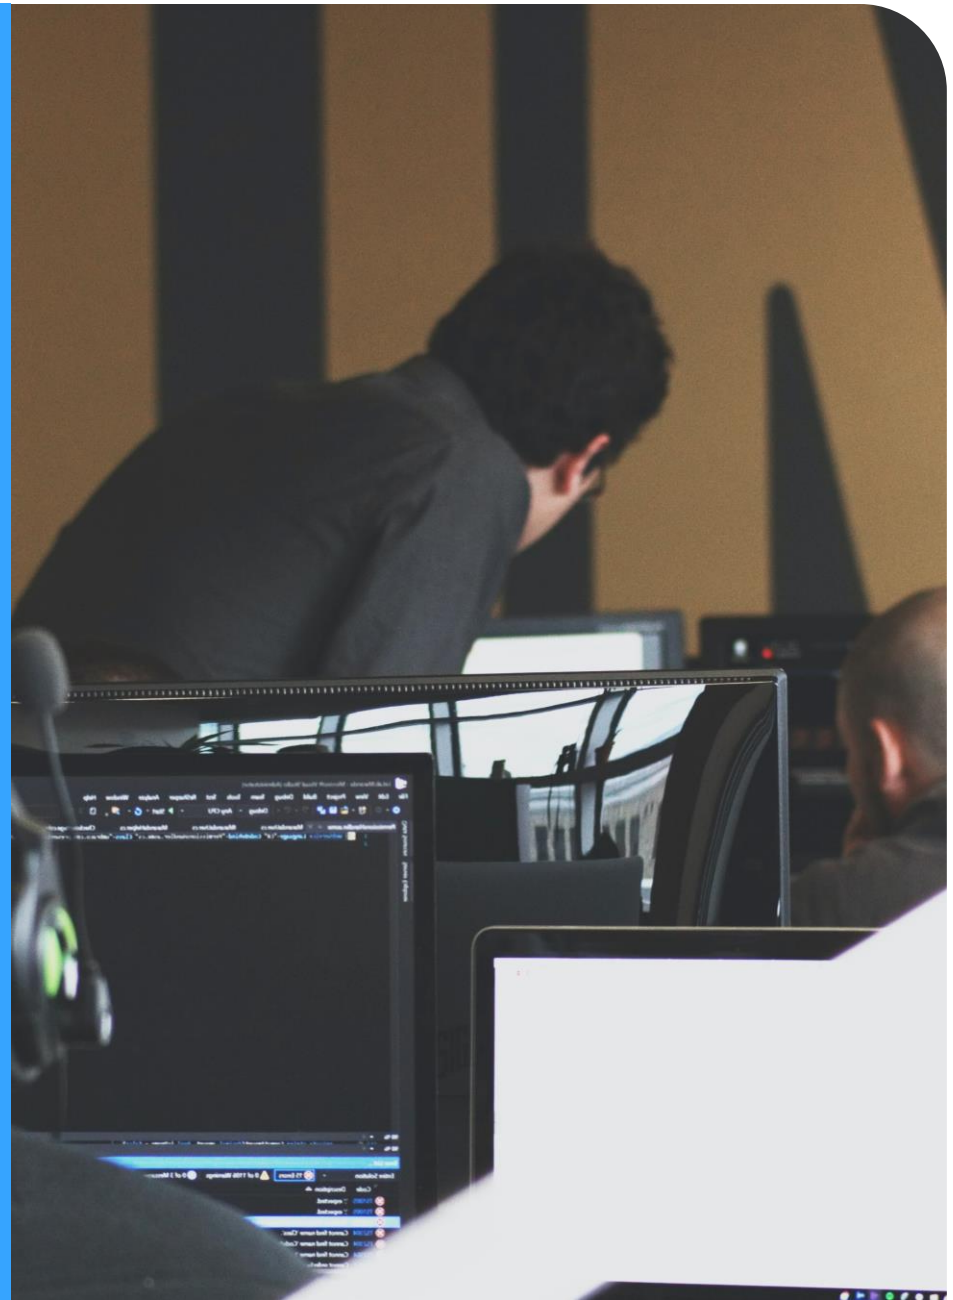
- Quality
- Verify your social page
- Be approachable
- Do not do to others what you want them to do to you

Detection

- Use tools: Google alerts, social mention
- Check your brand’s mentions in search engine results
- Read comments on your blog
- Check ratings
- Ask your customer

Response

- Respond promptly but calmly
- Answer honestly
- Thank people for feedback
- Create high-quality content



Maintenance

- Train your staff
- Be cautious in getting services from incompetent marketers
- Be consistent with your personality
- Build better relationships with your customers

10 ORM Commandments

1. Become well respected
2. Be radically transparent
3. Monitor what they are saying about you
4. React quickly and politely
5. Address criticism

10 ORM Commandments

6. Treat your Google result page as your business card
7. Understand your detractors
8. Attack your illegitimate attackers
9. Learn from your mistakes
10. Ask for help if necessary

Managing analytics

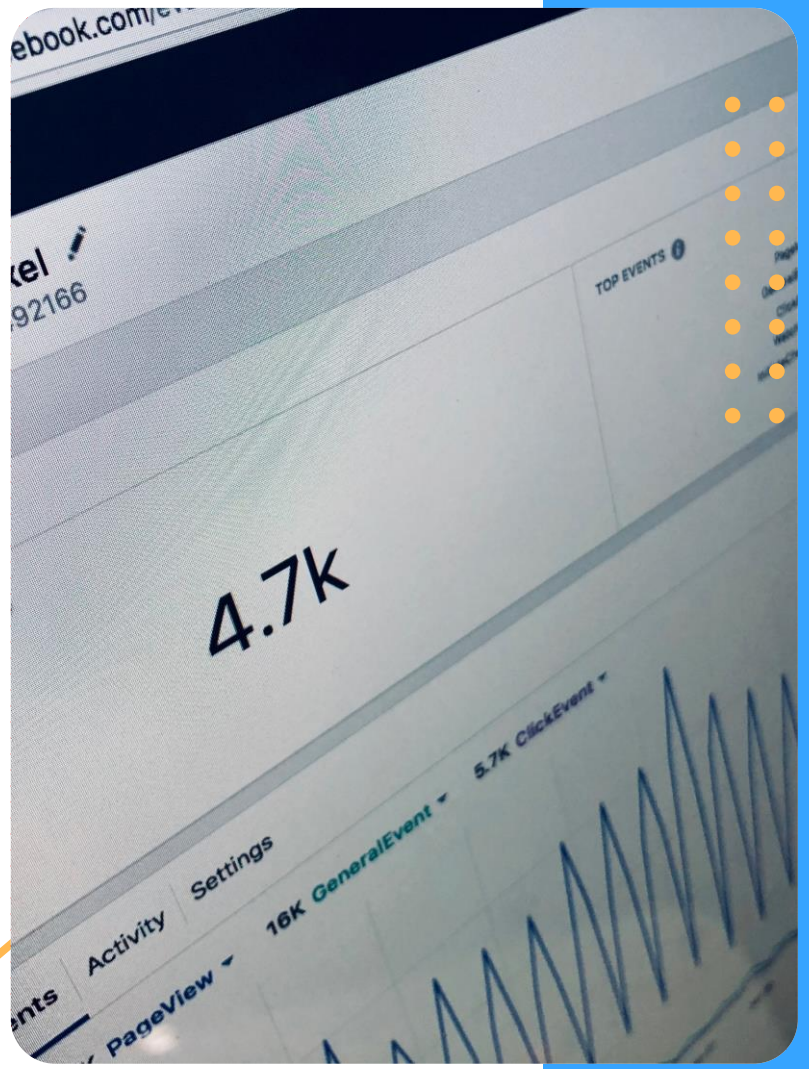
- Data generated from social media
- When we want to improve our efforts we use this data to our advantage
- To mange the data collection you need to identify:
  - What platform?
  - What demographics?
  - What data will actually help?

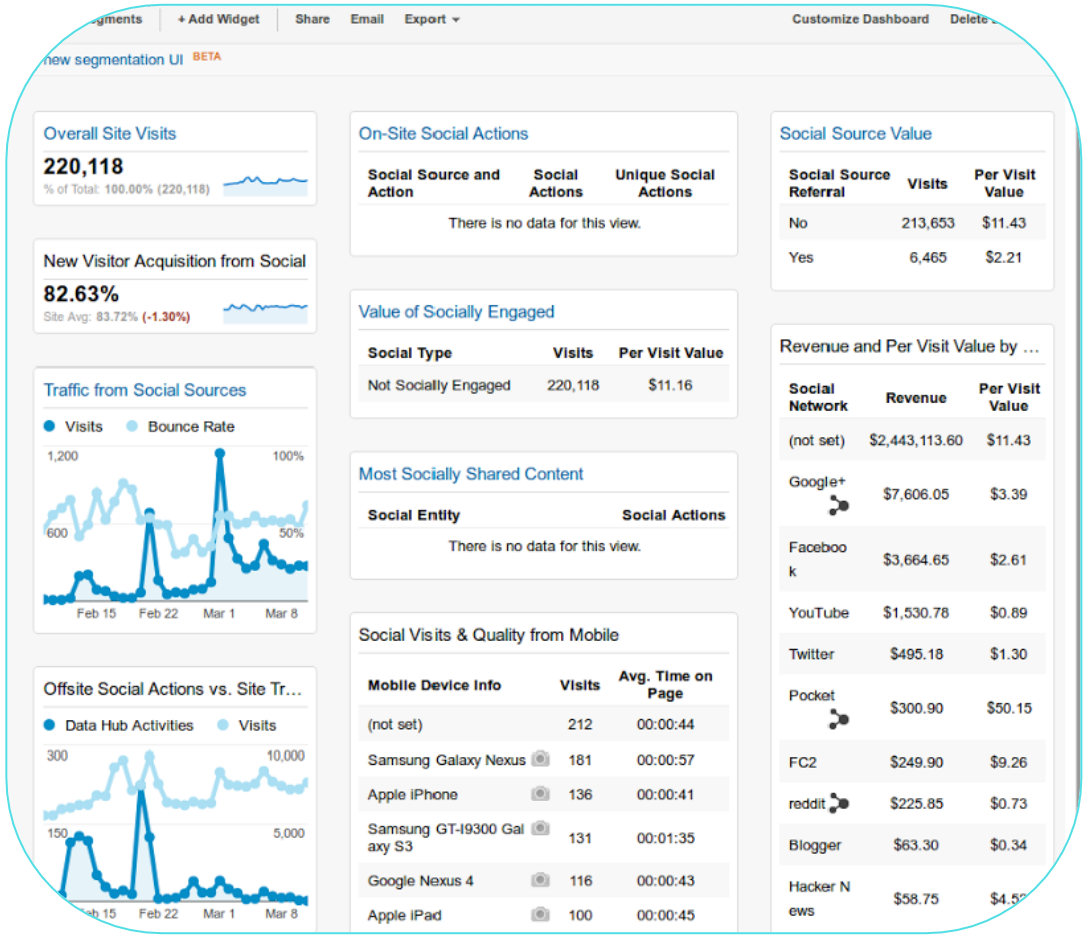
Managing data

- How do you display data on your tracking?
  - Organic data
  - Advertising data
  - Account data
  - Audience data
- When we have this data we can improve

Managing analytics

- Data does not mean information
- You need to analyse data in order to turn into actionable information





Managing your reports

- Creating reports for your business using data
- On-platform data
- Website data
- Pre-existing report documents
- Link to Google Analytics

Most importantly!

What matters to your business?

Management tools

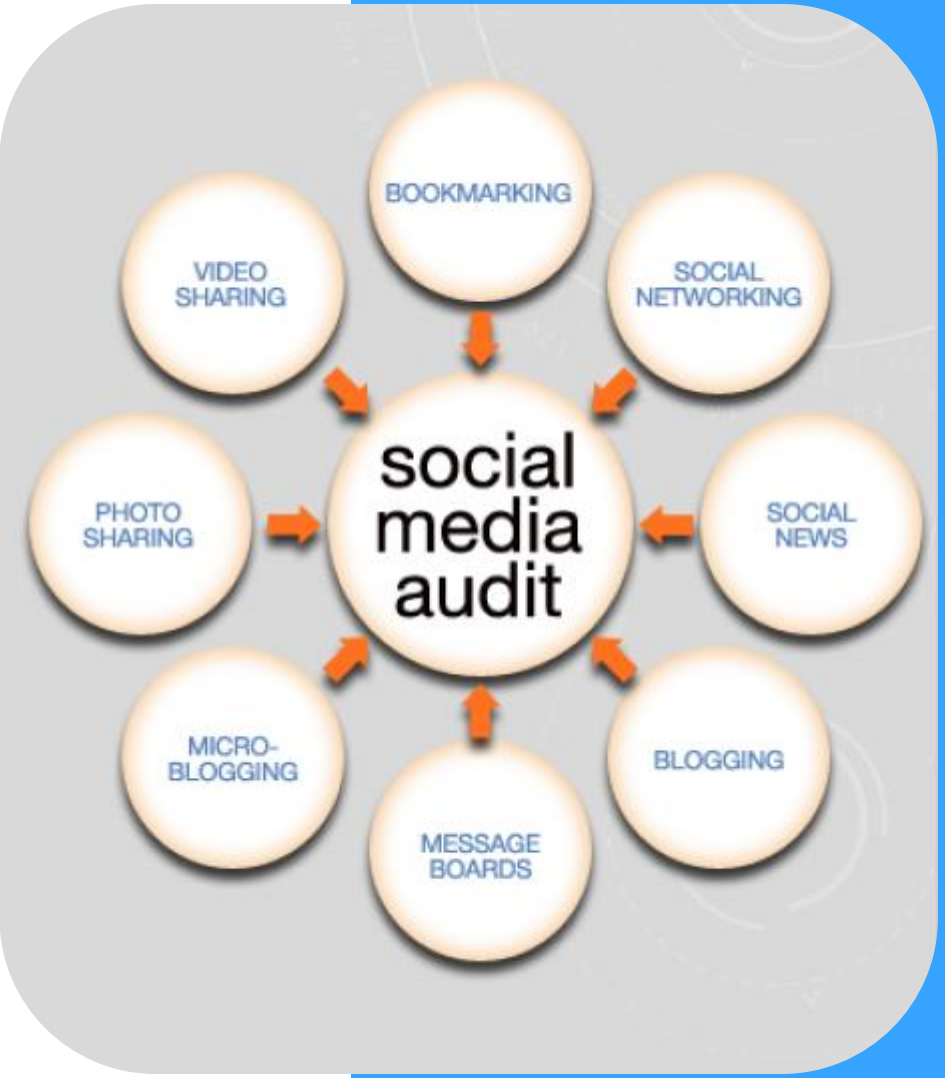
- Hootesuite
- Buffer
- Existing benefits

Social media management tips

- Quality content over quantity
- Brand your social media profile pages
  - Logo and tagline
  - Imagery
  - Company description
  - Tone and voice
- Analyse data to find the perfect quantity
- Check your competitors

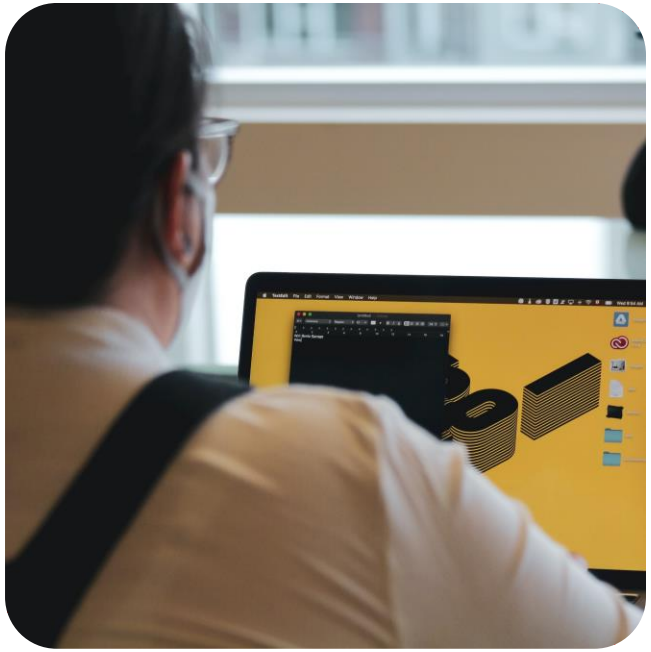
Managing social media

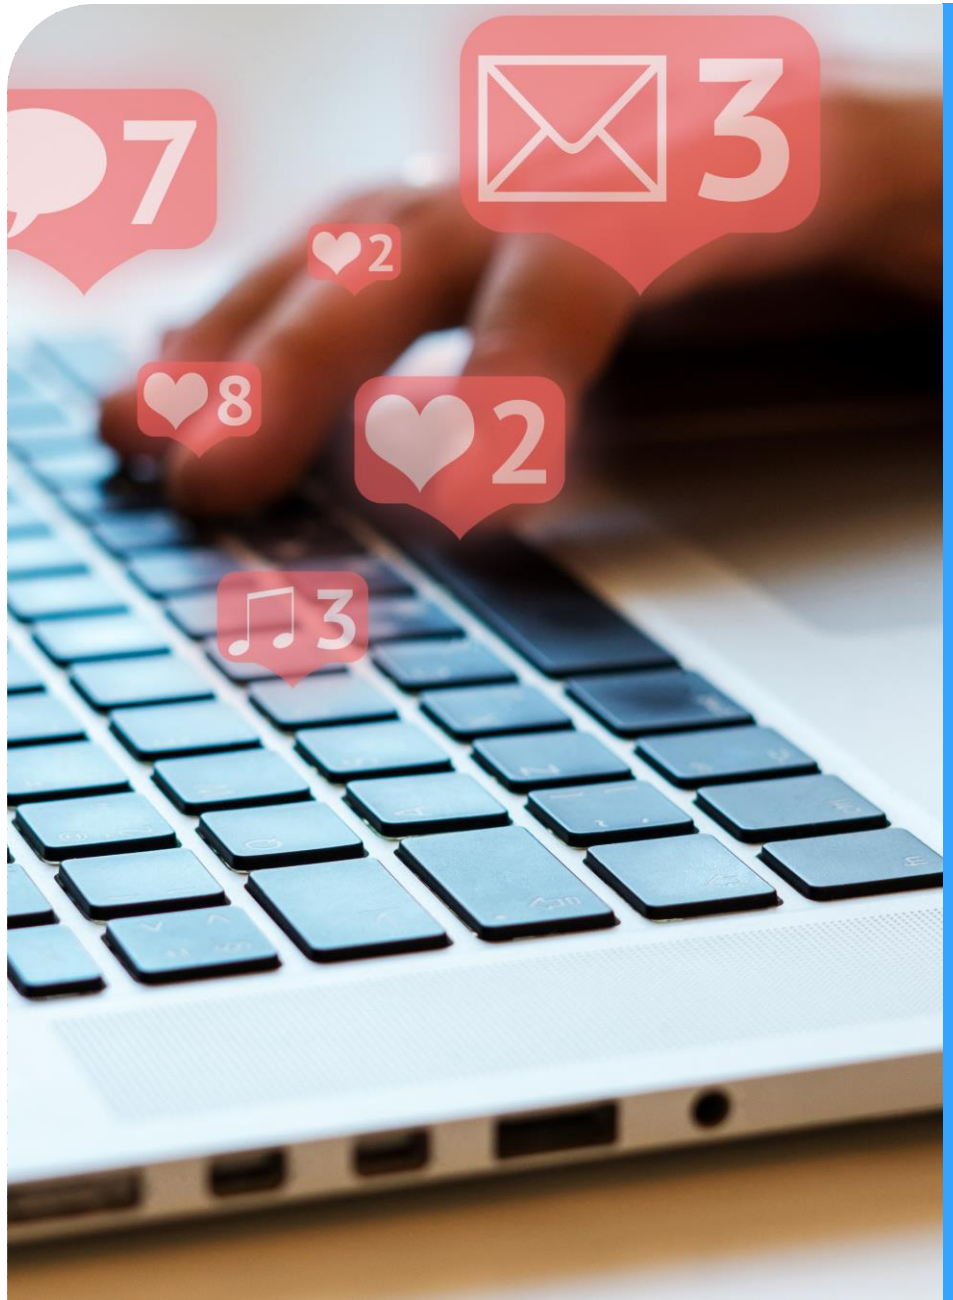
- Examine your own efforts
- This needs to be detail orientated
- How are you actually performing?
- What do you need to change?
- Audit your platforms!



What we achieved today

- What tools work for you
- Analysing your budget
- Additional management focus



Lesson recap


- Management
- Managing content
- Managing advertising
- Managing reputation
- Managing data
- Managing reporting
- Management tools
- Auditing
